

Republic of Texas  
Travis County

I, William S. Wallace, Surveyor

for the County of Bastrop, on or about the month of July 1840, myself in company with John Harvey, Deputy Surveyor for County of Bastrop, did make a Survey of the distance from where the San Antonio Road intersects the Colorado River (at Bastrop) to the line which Mr. Wittse ran for the North West boundary of Melans Colony which I find not exceeding 27 miles on a base of the Colorado River, I was not present at the time Mr. Wittse ran this line, but Mr. Wm.

A. Force, and others who were with me told me the line which I intersected and stopped at, was the same run by Mr. Wittse for the County line. William S. Wallace

Sworn to and Subscribed before me Samon Coates a Justice of the Peace for the County aforesaid, done at the city of Austin this Second day of April one thousand Eight Hundred & Forty One.

Samon Coates
