Survey of a portion of  
Gulf of Mexico  
adjacent to the  
Samuel Parr Survey  
Galveston County, Texas

I, Nedra J. Foster, Licensed State Land Surveyor in the State of Texas, do hereby certify that this plat reflects an on the ground survey performed by me and all points were placed on the line of mean high water at the time of the survey, June 26, 2001. Lines connecting these points are listed on the map and are meander lines. All bearings, distances, and coordinates are grid and are referenced to the State Plane Coordinate System, NAD 83, South Central Zone, U.S. survey feet. This work was performed using Trimble's ProXRS GPS system which produces submeter positions. Tidal determinations were made utilizing Pier 21 as primary gauge. The gamma correction at survey control point H-4 is 2°04'28", the scale factor is 0.999863197 and coordinates are X:3316828.49 and Y:13705034.34.

NOTICE: This survey was performed in accordance with Section 33.136, Natural Resources Code, for the purpose of evidencing the location of the shoreline in the area depicted in this survey as that shoreline existed before commencement of erosion response activity, as required by Chapter 33, Texas Natural Resources Code. The line depicted on this survey fixes the shoreline for the purpose of locating a shoreline boundary, subject to movement landward as provided by Section 33.136, Natural Resources Code.

*Nedra J. Foster*
