JUNCTION CITY, TEXAS, *Aug. 28* 189*5*.

Hon. Andrew J. Baker
Comm. Genl Land Office
Austin

Dear sir:

Please find herewith the report
of surveyors of the establishment
of Mason & Kimble County bound-
ary lines, record in the minutes
of the Commissioners Court.

Respy.
W. G. Boyle, clk

{ The State of Texas }

{ County of Kimble }

To the Honorable Commissioners
Court of Kimble County, Texas.

In compliance
with an order of your Court made at the February
Term A. D. 1895. I, in company with J. D. Hurley County
Surveyor of Mason County appointed by the Commissioners
Court of said County to survey and establish the lines be-
tween Mason and Kimble Counties, proceeded on the 27th
day of May 1895 to make a survey, mark out, and establish
mile marks on said lines, and to make connections
with the corners of original surveys crossed by said lines.

To wit: the South line of Mason County, the same
being a part of the North line of Gillespie (Gillespie
having been duly notified) and Kimble Counties, and the
west line of Mason County as far as Kimble County
extends on said line - the object of this survey
being to definitely fix said lines and to furnish data
from which the abstracts of lands in said Counties
may be corrected, and I herewith submit the follow-
ing field notes, plat, and accompanying explanations
as my report of said work - we find it necessary
to state that many of the old corners can not be identi-
fied by the original bearings, hence we give only such
as can be - we also find that lines of surveys purporting
to run on the same variation were actually run on
different variations, some surveys are excessive while
others are short, we make this explanation to account
for certain calls which otherwise might appear
inconsistent

Field notes of South line of Mason County,
