NOTICE: This survey was performed in accordance with Section 33.136, Natural Resources Code, for the purpose of evidencing the location of the shoreline in the area depicted in this survey as that shoreline existed before commencement of erosion response activity, as required by Chapter 33, Natural Resources Code. The lines depicted on this survey fix the shoreline for the purpose of locating a shoreline boundary, subject to movement landward as provided by Section 33.136, Natural Resources Code.

Surveyor's Certification

I, Gary C. Bowes, a Licensed State Land Surveyor, hereby certify that this survey is correct; that this survey was made according to law; and that this survey was actually made in the field.

[Signature]
Gary C. Bowes
Licensed State Land Surveyor

Notes

The coordinates, bearings and distances shown hereon are based on the Texas Coordinate System of 1983, South Central Zone.

All distances are grid. To convert to surface, divide by the combined scale factor (CSF) 0.999877279.

This survey is referenced to NGS station "HCGSD 50".

The elevation of the MHHW (mean higher high water) for this survey was determined to be 1.35' NGVD 88.

Message:

Ben,

Please find the attached mylar "Coastal Boundary Survey" for a portion of Taylor Bayou in the vicinity of the proposed San Jacinto Rail Limited Bayport Industrial Build-Out.

The limits of the shoreline shown on the survey are per Garry McMahan in the LaPorte GLO office.

Glen Rosenbaum in your office is working with Mr. Jody Jones at BNSF Railroad on this project.

Please do not hesitate to call me if you have any questions regarding this survey.
