SURVEYOR'S CERTIFICATE.

I, J.T.Munson, being duly sworn do depose and say,- that as surveyor under my contract with the State of Texas to survey what are known as the Capitol Lands I did return to the Commissioner of the General Land Office field notes of a survey designated as survey No. 271 containing one league of land, which survey crosses and lies on both sides of the Canadian River in Oldham County, Texas; and further that I submitted a plat to the Inspector, Col. N.L.Norton, showing the projected plan for making that, with other surveys, before the lines were run; that he declined to decide the question as to the Canadian River being a navigable stream within the meaning of the law. I would state further that crossed the Canadian River at many points in Oldham County and followed its meanders for several miles about the time and after making the surveys in said county returned by me and I am positive that the average width of water in the Canadian River was less than thirty (30) feet, and in my judgment did not exceed twenty (20) feet at that time. I state further that I easily stepped at one step entirely across the water in said river at one point in Oldham County and saw another point on said river in said county where I could have stepped across all of the water at a single step, the water at said points being about thirty (30) and thirty-six (36) inches, respectively, in width.

From the facts stated said survey No. 271 is in my judgment legal as reported and conforms to every requirement of the law governing my acts as surveyor under my said contract with the State.

Witness my hand this 3rd. day of Dec. 1880, at Denison, Texas.

That I found and identified the North West corner of section 103 block K 11 the same being a large rock monument on West bank of Agua Piedra Creek.

That I found and identified the South West corner of league 333 the same being a sand stone set in ground and that I found the same to be 5751 varas north and 1079 varas West of the North West corner of said section 3 block K11.

That I found and identified the S.W. corner of survey 102 block B 7, the same being a point from which a rock monument on large flat rock, one mkd X, bears West 426 varas and another rock monument, one set on edge marked X, ore West 540 varas. That I measured East 1344 varas and set rock in ground for South East corner of said 102 block B 7.

That I ran thence East 1758 varas and thence North 594 varas to pile of boulders whence the North point of a cedar covered bluff bears N 80W, said pile of boulders being the S.W. corner of league 289.

That I found and identified the North West corner of League 289 the same being a pile of stone on North bank of gulch whence a white topped rock bears S 41-30' E 350 varas.

That I found and identified the N.W. corner of section 77 block B 7, the same being a point from which a rock monument on hill side at foot of master of cedars bears S 61-3/4 E 630 varas. The North West corner of said section No. 77 is 11588 varas West and 2549 varas North of said North East corner of league 289.

That I found and identified the South West corner of survey 85 block B 7, the same being a point whence a 3 forked cottonwood 24 dia brs N 1-1/2 E 380 varas. That the samels 7589 varas South and 570 varas west of N.W. corner of said section 77 block B 7.

That I found and identified the North West corner of 69 block B 7, the same being a pile of rock, one set in ground, whence a rock monument on monument hill (the S.E. corner of said 69) bears S 45 E 1300 varas.

That the N.W. corner of said 69 is 4129 varas North and 4978 varas East of the North West corner of 77 blk. B 7.

That I ran course and distance from North West corner of 69 Block B 7, N.E. corner 21 same blk and after diligent search failed to find same. That I ran thence 3660 varas North and 8862 varas East to a pile of stone, set in ground. Said rock monument evidently being intended for the North East corner of 19 block B 7.

That I found and identified the S.W. corner of survey No. 9 Block B 7, the same being a stone set in ground 80 varas East of Las Achies Creek, a china tree 8 " dia brs S 82 W 18-1/2 vrs, do same size brs N 72 W 1-1/2 vrs.

That I ran West 1344 vrs and found rock monument on East side of gulch, S.W. corner of survey 11 same block.

That I ran thence West 1344 vrs and failed to find cottonwoods called for the stone set in ground 80 vrs West of river, said point now being river. From this point I ran thence West 1344 vrs and South 660 vrs to pile stone on rocky hill described above as the N.E. corner of survey 19.

Block B 7, making said pile of stone 652 varas South and 2688 vrs West ofrock monument on East side of gulch, the S.W. corner of 11 Blk. B 7.

That I measured from pile stone on rocky hill described herein as the N.E. corner of 19 Blk B 7, South 283 varas and West 741 varas to a pile of rock on gravelly knoll. This last pile of rock is called for in field notes of 15 Blk B 7 as its S.W. corner; but course and distance makes the N.E. corner of 19 and the S.W. corner of 15, same block, identical and I have so mapped them as is shown on sketch herewith.

That I found and identified the N.W. corner of 111 Block B 7, the same being a large rock on West edge of creek, 6 feet high, whence a C.W. 8 " dia brs N. 26-½ W 10 vrs and a C.W. stump 14 " dia S. 9 E. 30 vrs, said corner being 785 vrs East and 3002 vrs South of the S.W. corner of survey 9 same block.

That I found and identified the N.E. corner of survey No. 109 Blk B 7 the same being a cluster of cedars marked X, whence a cedar 24 " dia mkd X bears N 83 E 88vrs (not N 58 E) and a cedar 10 " dia brs 79½ W 30 vrs. Said corner is 2688 vrs East and 206 vrs North of South West corner No. 9 Blk. B 7.

That N.E. corner 5, B7, by measurement is 1344 vrs East and 916 vrs North of the N,E, corner 109.

That I found and identified the N.E. corner 15 Blk L.C. 2 and that the S.E. corner 13 same block is 1000 varas N 89¼ E of said N.E. corner of 15.

That the S.E. corner of 11 block L.C.2 is 1344 vrs N 89 E of S.W. corner of said survey 11.

That S.W. corner of survey No. 9 Block L.C.2 is 1344 vrs S 89½ W of S.E. corner of said No. 9.

That I ran from S.W. corner 7 to S.E. corner same and from S.E. No. 7 to N.E. corner No. 5 and from N.E. corner 5 to S.W. of No. 1 and find them to be as shown on map.

That pile rock South East corner survey No. 1 is 1344 vrs N 89¼ E of S.W. corner of same.

That I found and identified the NNW. corner of 19 Block J by its cottonwood bearing and that pile rock S.E. corner No. 1 Block L.C.2 is 5700 vrs West and 1733 vrs South of the N.W. corner of 19 Block J.

That the N.E. corner of 5 L.C. is 6572 vrs South and 2070 varas West of the N.W. corner 19 Block J.

That the N.E. corner 7 Block L.C. is 1352 varas South and 740 vrs West of the N.E. corner 5 same block.

That N.E. corner 9 is 1344 varas South and 802 vrs West of N.E. Cor. of 7 same block. (L.C.).

That N.W. corner 13 L.C. is 2726 South and 1906 vrs West of N.E. Cor. No. 9 same block.

That S.E. corner 13 L.C. is 1314 South and 1384 varas East of N.W. corner of said 13.

That from mound and four pits, S.W. corner league 299, I measured 4490 vrs East to rock set in ground for N.W. corner of old league 310.

That from rock in ground, the N.W. corner old league 310 to N.E. Cor. 21 Block B 6 I find the distance to be North 2559 varas and East 2067 varas.

That I measured from corner to corner in block B 6 and find them to be as follows: From N.E. corner 21 to rock md. in West line 17,- 1351 East and 125 South. From rock in West line 17 to S.W. corner 9, B 6 is, 2610 East and 656 North. From S.W. corner 9 B 6 to N.E. corner No. 9 is 1323 vrs East and 1360 vrs North. From N.E. corner 9 to S.E. corner 5 1594 vrs East and 1380 vrs North. From S.E. corner 5 Blk B 6 to S.E. corner 21 Blk B 5 I find the distance to be North 3610 vrs and 1075 vrs East.

That I found and identified the S.W. corner 19 Blk B 5 and from it established the S.E. corner of 21 same block.

That I ran from S.W. corner 19 Blk B 5 to S.E. corner survey 3 Blk J thence a rock monument on side of bluff, South bank of river, brs N 31¾ W 31 vrs and find said South East corner to be 6538 vrs West and 846 vrs South of S.W. corner of said 19.

That S.E. corner of 7 Block J is 3675 vrs West of S.E. corner said survey No. 3.

That S.W. corner 7 Blk J is 1764 vrs S 87¼ W of the S.E. Cor. of said section 7.

That N.E. corner 19 Block J is 35 varas North and 3704 West of the S.W. corner of section 7 Block J.

That I found and identified pile of boulders the S,W. corner of old League 310 by its bearing and that it is 13021 vrs North and 1376 West of the S.E. corner of 43 block H 1.

That distance from N.E. corner league 315 West to rock in ground the N.W. corner of league 315 is 5089 varas instead of 5000 varas.

That from rock in ground N.W. corner old league 315 to mound and four pits the N.W. corner of old league 314 the distance is 5060 varas instead of 5000 varas.

That distance from mound and four pits the N.W. corner old league 314 to pile boulders the N.W. corner old league 310 is 5075 instead of 5000 varas.

Dear Sirs:—

Yours of 8th inst. rec'd. In compliance with your request, I have to state that upon examination of the original field notes & plats of Capitol Land Surveys I find that the N.E. cor of league 638 is 8330 vrs S. and 1180 vrs W. of the N.E. cor. of league No. 618 as shown on sketch sent by you. In making up maps & field notes in the Land Office there was evidently an error in calling for N.E. cor of league 617 instead of 618 in notes of the connection line above given. The surveyor for Capitol Syndicate is right.

I herewith return sketch sent.

Yours Truly

J. T. Munson
