I, J. H. Walker, Commissioner of the General Land Office of the State of Texas, do hereby certify:

That this book, designated as "Book UT Vol 8" contains fieldnotes of all the sections in Blocks 29, 30, 31, 32 & 33, University Land in **Crockett** County, surveyed under an act approved March 29, 1929, by Frank F. Friend, Special Surveyor of University Lands, which fieldnotes, numbered from page 1 to page 146 inclusive, have been examined, approved and filed as of this date Dec 14, 1936

IN TESTIMONY WHEREOF, I hereunto set my hand and affix the seal of said office this the 14th day of Dec, A.D., 1936.

Commissioner of the General
Land Office

The State of Texas

CROCKETT County } SECTION No. 1
 BLOCK No. 29
 FIELD NOTES of a survey of
 640.0 ACRES of land made for THE
 UNIVERSITY OF TEXAS by virtue of an
 ACT approved March 29, 1929.

Mag. Declination 11° 00' East.

True North is the ~~to the~~ same as ~~of~~ the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Liveoak Creek, a tributary of Pecos River, about 27 miles S 86° W of Ozona, the County site.

Beginning at a stone mound 4 feet at base and 2 feet high, on west side of high mesa about 200 varas S 15° E of the head of a deep gorge running west into Liveoak Creek, being about 1 vara east of a north-south net wire fence, one rock being marked "NW 1 Blk 29", said stone mound having been built by Frank F. Friend, County Surveyor of Crockett County, and Edgar C. Saunders, County Surveyor of Sutton County, same being generally known as the "F & S Stone Mound", from which a perpendicular bluff beyond Liveoak Creek bears N 67° 00' W about 2 miles; another perpendicular bluff bears N 54° 27' W about 1/2 mile; a 10-inch letter "A" cut on a large boulder projecting 18 inches above ground, fissure in middle of the "A", and a 7-inch letter "B" cut on a flat fixed rock bear respectively N 15° 00' W 38 varas and N 83° 15' E 25 varas; a large new rock mound bears S 20° 00' E 251.6 varas, from which new stone mound a cedar tree 8 inches in diameter and 8 feet high bears N 62° E 110 varas; a point near the middle of the parade ground at Fort Lancaster which is S 38° W 255 varas from a tombstone marked "J H Norris, A W P Lane Ranger", etc., bears S 45° 23' 40" W 4628.3 varas. This F & S Stone Mound is the NW corner of this section No. 1.

Thence South --- at about 580 varas cross new OST Highway --- at 1900.8 varas strike a concrete monument set for the SW corner of this section No. 1, situated on a high mesa a few varas above the head of a rough gorge, running first south into 7 D Canyon, then SW into Pecos River, it's brass plate in top having been stamped as is represented in the figure above, from which a 6-inch letter "F" cut 1/2 inch deep into the face of a flat rock bears S 65° 05' E 29.0 varas; a similar letter "T" bears S 10° 25' E 45.8 varas; a large stone on end, braced by three other rocks, bears S 10° 55' W 10.8 varas; the south end of a 36-inch net wire north-south fence where it turns S 35° E bears N 1° 09' W 99.9 varas.

Thence East 1900.8 varas to a point for the SE corner of this section #1.

Thence North 1900.8 varas to a point for the NE corner of this section #1.

Thence West, recrossing highway, 1900.8 varas to the place of beginning.

Surveyed July 5, 1932.

Gibbons Poteet } Chainmen.
 Norris B. Creath }
 J. A. Conklin } Transitman.

I, Frank F. Friend, Licensed Land Surveyor of Texas and Special Surveyor of University Lands, do hereby certify that the foregoing survey was made by me in the field and according to law; that the limits, boundaries, and corners, with the marks, natural and artificial, are truly described in the foregoing plat and field notes, just as I found them on the ground; and that they are recorded in the Surveyor's Records in Ozona, Crockett County in Book UT Vol. 8 page 1
 This 8th day of April, 1936.

SECTION No. 2

CROCKETT County } BLOCK No. 29

FIELD NOTES of a survey of

640.0 ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Mag. Declination 11° 00' East.

True North is the same ~~to the~~ as ~~of~~ the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Liveoak Creek, a tributary of Pecos River, about 27 miles S 88° W of Ozona, the County site.

Beginning at the NW corner of section #1, this Block, a stone mound 4 feet at base and 2 feet high on the west side of a high mesa about 200 varas S 15° E of the head of a deep gorge running west into Liveoak Creek, being about 1 vara east of a north-south net wire fence, one rock marked "NW 1 Block 29", said stone mound having been built by Frank F. Friend, County Surveyor of Crockett County, and Edgar C. Saunders, County Surveyor of Sutton County, same being generally known as the "F & S Stone Mound," from which a perpendicular bluff beyond Liveoak Creek bears N 67° 00' W about 2 miles; another perpendicular bluff bears N 54° 27' W about 1/2 mile; a 10-inch letter "A" cut on a large boulder projecting 18 inches above the ground, a fissure in the middle of the "A", bears N 15° 00' W 38 varas; a 7-inch letter "B" cut in a flat fixed rock bears N 83° 15' E 25 varas; a large new rock mound bears S 20° 00' E 251.6 varas; from which new stone mound a cedar tree 8 inches in diameter and 8 feet high bears N 62° E 110 varas; a point near the middle of the parade ground at Fort Lancaster which is S 38° W 255 varas from a tombstone marked "J H Norris, A W P Lane Ranger," etc., bears S 45° 23' 40" W 4628.3 varas.

Thence North, crossing first a high ridge, then the head of a deep gorge, 1900.8 varas, set a concrete monument on a high mesa about 450 feet in elevation above, and about 2 miles east, of the bed of Liveoak Creek, being 2.7 varas west of a 36-inch net plus 3-wire north-south fence, stamped its brass plate in top as is represented in the figure above, from which a 6-inch letter "F" cut 1/2 inch deep in the face of a flat fixed rock bears N 69° 05' E 24.1 varas; a windmill, only the wheel of which being visible above a hill, bears S 65° 18' 16" E about 2 miles; a stone mound bears S 45° 01' E 4.4 varas; a 6-inch letter "T" cut 1/2 inch deep in the face of a flat fixed rock bears S 73° 11' W 38.4 varas.

Thence East 1900.8 varas to a point for the NW corner of this section No. 2.

Thence South, crossing the new OST highway, 1900.8 varas to the NE corner of section No. 1, this Block.

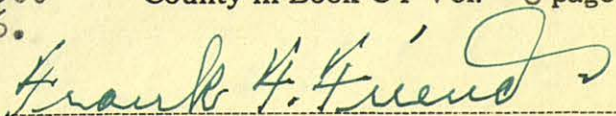

Thence West, recrossing the new highway, 1900.8 varas to the place of beginning.

Surveyed July 5, 1932.

SECTION No. 6

BLOCK No. 29

FIELD NOTES of a survey of

626.7 ✓ ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Mag. Declination $11^{\circ} 10'$ East.

True North is the same ~~to the~~ as ~~of~~ the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Live Oak Creek, a tributary of Peecos River, about 27 miles N 84° W of Ozona, the County Site.

Beginning at a point on the north side of a hill at the NW corner of section #5, this Block, for the SW corner of this section #6.

Thence North, immediately descending into valley, 1167.3 varas to a point in the SE line of Survey No. 7, Jose Zunega, file D 1378, being also a north point corner of the Samuel Sloan Survey No. 6.

Thence N $22^{\circ} 15'$ E 606.7 varas to the East corner of said Survey No. 7, Jose Zunega.

Thence N $67^{\circ} 45'$ W 248.2 varas to a point in the NE line of said Survey No. 7.

Thence North 78.0 varas set a concrete monument in the valley of Live Oak Creek and San Angelo Draw, its brass plate in top stamped as is represented in the figure above, from which a windmill near a surface tank in canyon bears S $62^{\circ} 12'$ E about 1 mile; 3 hackberry trees, the right hand of which is marked "X", bear S $31^{\circ} 36'$ E 86.2 varas; a road passing through gap in hills bears S $17^{\circ} 06'$ E about 1 1/2 miles; a steel windmill near surface tank bears N $63^{\circ} 17'$ W about 3/4 mile; another windmill at the Jeff Owens ranch house bears N $43^{\circ} 46'$ W about 3 miles; another windmill bears N $38^{\circ} 26'$ E about 1 3/4 miles; a rock mound composed of 6 large rocks and about 1/2 bushel small rocks, one large rock marked "NW 6", on north side of east-west 36-inch net and 3-wire fence (built by Frank F. Friend in 1907) bears N $76^{\circ} 24'$ E 19.0 varas; a junction of a north-south fence at gate bears N $84^{\circ} 14'$ E 43.3 varas.

Thence East 1900.8 varas to a point in valley for the NE corner of this section #6.

Thence South 1900.8 varas to a point on high mesa at the NE corner of section #5.

Thence West, passing north of a gap in the hills, 1900.8 varas to the place of beginning.

Surveyed July 6, 1932.

640.0 ACRES of land made for THE UNIVERSITY OF TEXAS by virtue of an ACT approved March 29, 1929.

Mag. Declination 11° 03' East.

True North is the same ~~to the~~ as ~~of~~ the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Live Oak Creek, a tributary of Pecos River, about 26 miles WEST of Ozona, the county site.

Beginning at the common corner of sections #3, #4, and #9, this Block.

Thence East 1900.8 varas to the SE corner of said section #9.

Thence South, pass at about 3/4 mile just west of a windmill, 1900.8 varas set a concrete monument near the head, but on the west side, of a rough canyon running north, stamped its brass plate in top as is represented in the figure above, from which a letter "F" (made backwards) cut 1/2-inch deep in a flat fixed rock bears S 48° 27' E 17.2 varas; a 6-inch letter "T" cut in another rock bears S 21° 20' W 11.9 varas; a 6-inch letter "U" cut in a third rock bears N 64° 50' W 11.9 varas; the drilling rig at the Todd Gasser bears N 27° 32' 20" E.

Thence West, crossing a fence in bottom of a canyon, 1900.8 varas to the NE corner of section #2.

Thence North 1900.8 varas to the place of beginning.

Surveyed July 8, 1932.

FIELD NOTES of a survey of
640.0 ACRES of land made for THE
UNIVERSITY OF TEXAS by virtue of an
ACT approved March 29, 1929.

Mag. Declination 11° 02' East.
True North is the same ~~to the~~ as ~~of~~ the North point used in
the Field notes of this survey.
Said survey is situated in CROCKETT County, Texas,
on the drainage of Live Oak Creek, a tributary of Pecos River,
about 26 miles S 88°W of Ozona, the county site.

Beginning at the common corner of sections 2, 3, and 10, this Block.
Thence East, crossing a fence in the bottom of a rough canyon, 1900.8
varas to the concrete monument set near the head, but on the west side
of a rough canyon running north for the SE corner of section #10, its
brass plate in top having been stamped as is represented in the figure
above, from which a letter "F" (made backwards) cut 1/2-inch deep in
the face of a flat fixed rock bears S 48° 27' E 17.2 varas; a 6-inch
letter "T" cut in a rock bears S 21° 20' W 11.9 varas; a similar letter
"U" bears N 64° 50' W 11.9 varas; the drilling rig at the Todd Gasser
bears N 27° 32' 20" E.
Thence South 1900.8 varas to a point near the new OST highway for the
SE corner of this section #11.
Thence West 1900.8 varas to the east common corner of sections #1
and #2, this Block.
Thence north, crossing the new OST highway, 1900.8 varas to the place
of beginning.

Surveyed July 8, 1932. Gibbons Poteet } Chainmen.

SECTION No. 22

BLOCK No. 29

FIELD NOTES of a survey of

640.0

ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Mag. Declination $11^{\circ} 03'$ East.True North is $0^{\circ} 01' 30''$ to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Live Oak Creek, a tributary of Pecos River, about 2 1/4 miles WEST of Ozona, the County Site.

Beginning at a point in valley at the SE corner of section #21, this Block, for the NE corner of this section #22.

Thence West, crossing the old OST Highway, 1900.8 varas to a point in valley at the common corner of sections #15, #16, and #21.

Thence South 1900.8 varas to a point on top of high mesa at the NE corner of section #14.

Thence East --- at about 1400 varas begin descent into rough canyon, at bottom of which cross the old OST Highway running nearly north --- at 1900.8 varas set a concrete monument on the east side of the canyon 4 varas south of a little ravine running west down the hill, being about 400 varas NE of the foot of the hill where the old road begins to ascend, stamped its brass plate in top as is represented in the figure above, from which a 6-inch letter "F" cut in the face of a flat fixed rock bears S $60^{\circ} 01'$ E 11.3 varas; a 1 1/2-inch iron pipe driven in the ground, painted white, bears S $14^{\circ} 41'$ E 5.6 varas; a 6-inch letter "T" cut in the face of a fixed flat rock bears N $69^{\circ} 49'$ E 10.5 varas.

Thence North 1900.8 varas to the place of beginning.

Surveyed July 14, 1932.

CROCKETT County } BLOCK No. 29
FIELD NOTES of a survey of
640.0 ACRES of land made for THE
UNIVERSITY OF TEXAS by virtue of an
ACT approved March 29, 1929.

Mag. Declination $10^{\circ} 58'$ East.
True North is $0^{\circ} 01' 30''$ to the left of the North point used in
the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas,
on the drainage of Live Oak Creek, a tributary of Pecos River,
about 24 miles S 88° W of Ozona, the county site.

Beginning at a concrete monument set for the SE corner of section #22,
this Block, situated on the east side of the Sheffield Hill Canyon,
being 4 varas south of a little ravine running west down the hill,
and is about 400 varas NE of the foot of the hill where the old road
begins to ascend, its brass plate in top having been stamped as is
represented in the figure above, from which a 6-inch letter "F" cut
in the face of a flat fixed rock bears S $60^{\circ} 01'$ E 11.3 varas; a 1 1/2-
inch iron pipe driven in the ground, painted white, bears S $14^{\circ} 41'$ E
5.6 varas; a 6-inch letter "T" cut in the face of a fixed flat rock
bears N $69^{\circ} 49'$ E 10.5 varas.

Thence South, crossing the old highway near the top of the hill, 1900.8
varas to a point in or near the new OST Highway, for the SE corner of
this section #23.

Thence West, crossing a lane between the road at the top of the big
hill and a ranch, 1900.8 varas to the east common corner of sections
#13 and #14.

Thence North 1900.8 varas to a point on mesa at the SW corner of section
#22 and the SE corner of section #15.

Thence East --- at about 1400 varas begin descent into Sheffield Hill
Canyon, crossing at bottom the old OST Highway --- at 1900.8 varas the
place of beginning.

Surveyed July 14, 1932.

Mag. Declination 10° 55' East.
 True North is 0° 03' to the left of the North point used in the Field notes of this survey.
 Said survey is situated in CORCKETT County, Texas, on the drainage of Howard Creek, a tributary of Pecos River, about 21 miles S 87° W of Ozona, the county site.

Beginning at a point in canyon at the SE corner of section #4, this Block.
 Thence South 1900.8 varas to point on a ridge near road for the SE corner of this section #5.
 Thence West 1900.8 varas to a point on a mesa, the SE corner of section #35 and the NE corner of section #36, Block 29, University Land.
 Thence North, crossing a ranch road, 1900.8 varas to a concrete monument set for the SE corner of section #34, Block 29, situated in black soil about 150 varas west of the head of a canyon, about 134 varas east of a ranch road, and about 200 varas south of the new OST Highway, its brass plate in top having been stamped as is represented in the figure above, from which a 6-inch letter "T" cut 1/2-inch deep in a flat rock bears S 23° 54' E 13.6 varas; a similar letter "U" bears N 35° 30' W 19.9 varas; a steel windmill just south of the new OST Highway bears N 50° 25' E about 3/4 mile.
 Thence East 1900.8 varas to the place of beginning.

Surveyed August 3, 1932.

BLOCK No. 30

FIELD NOTES of a survey of

640.0

ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

B	30
9	16
8	17
U T L	

Mag. Declination $10^{\circ} 59'$ East.

True North is $0^{\circ} 04'$ to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas,
on the drainage of Howard Creek, a tributary of Pecos River,
about 19 miles WEST of Ozona, the County Site.

Beginning at the SE corner of section #15, this Block.

Thence West 1900.8 varas to the east common corner of sections #9 and #10.

Thence South, crossing the OST Highway at the foot of what is called Batchler Hill, 1900.8 varas to the concrete monument set for the NE corner of section #8, situated in the extreme head of a canyon running NE, then east toward Howard Creek, being 22.6 varas north of a short section of the Texas Company Oil Pipe Line which runs east and west, which is 250 varas east to where it deflects southeasterly and about 300 varas west to where it deflects northwesterly, its brass plate in top having been stamped as is represented in the figure above, from which a 1 1/2-inch galvanized iron pipe driven in the ground bears S $73^{\circ} 22'$ E 2.8 varas; a 6-inch letter "T" cut in a rock bears N $34^{\circ} 28'$ W 47.7 varas.

Thence East 1900.8 varas to a point in a valley running SE toward Howard Creek, being in or near the old OST Highway about 750 varas west of what is known as the Batchler Windmill and about 400 varas SE of an isolated hill, the old highway passing on the SW end of the hill, the new highway passing through a gap at the NE end of the hill.

Thence North, recrossing the new highway, 1900.8 varas to the place of beginning.

Surveyed August 12, 1932.

Gibbons Poteet } Chainmen.

Mag. Declination $11^{\circ} 00'$ East.

True North is $0^{\circ} 04'$ to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas,
on the drainage of Howard Creek, a tributary of Pecos River,
about 19 miles S $84^{\circ} W$ of Ozona, the County Site.

Beginning at a point in valley running SE toward Howard Creek in or near the old OST Highway about 750 varas west of what is known as the Batchler Windmill and about 400 varas SE of an isolated hill, along by the SW end of which hill passes the old highway, while, through a gap, at the NE end passes the new highway, being the SE corner of section #16.

Thence South, crossing the Texas Company Pipe Line, 1900.8 varas to a point for the SE corner of this section #17.

Thence West 1900.8 varas to the east common corner of sections #7 and #8.

Thence North, crossing a fence in a canyon and another fence on a hill, --- at 1878.2 varas recross the Texas Company Oil Pipe Line, being a section which runs almost east and west, being 250 varas east to where it deflects southeasterly and about 300 varas west to where it deflects northwesterly --- at 1900.8 varas strike the concrete monument set for the NE corner of section #8, situated in the extreme head of a canyon running NE, then east toward Howard Creek, its brass plate in top having been stamped as is represented in the figure above, from which a 1 1/2-inch galvanized iron pipe driven in the ground bears S $73^{\circ} 22'$ E 2.8 varas; a 6-inch letter "T" cut in a rock bears N $34^{\circ} 28'$ W 47.7 varas.

Thence East 1900.8 varas to the place of beginning.

Surveyed August 16, 1932.

FIELD NOTES of a survey of

640.0

ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Mag. Declination 10° 59' East.

True North is 0° 04' to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Howard Creek, a tributary of Pecos River, about 19 miles S 84° W of Ozona, the County Site.

Beginning at the SE corner of section #17, this Block.

Thence South 1900.8 varas to a point for the SE corner of this section #18.

Thence West 1900.8 varas strike the concrete monument set for the SE corner of section #7, this Block, which is situated on high ground, its brass plate in top having been stamped as is represented in the figure above, from which a 1 1/2-inch galvanized iron pipe driven in ground bears S 52° 29' E 5.9 varas; a windmill near a concrete tank on divide bears S 40° 46' 10" E about 6 miles; a cedar 4 inches in diameter, marked "X" bears N 66° 56' E 49.4 varas; a windmill on a divide bears N 84° 32' 50" E about 10 miles; a steel windmill on divide bears S 81° 47' 10" E about 8 miles.

Thence North --- at 331.1 varas point from which a large rock having a 2-inch hole drilled in center burried beneath the soil, being triangulation station No. 8, bears West 431.2 varas --- at 1900.8 varas strike the NE corner of said section #7, the SE corner of section #8, and the SW corner of section #17.

Thence East 1900.8 varas to the place of beginning.

Surveyed August 16, 1932.

Said survey is situated in CROCKETT County, Texas, on the drainage of Howard Creek, a tributary of Pecos River, about 16 miles N 80° W of Ozona, the County Site.

Beginning at a point in the valley of Howard Creek at the NE corner of section #35, this Block.

Thence North --- at 1747.5 varas pass through at about right angles a 36-inch net wire fence having one barbed wire over net --- at 1900.8 varas set a concrete monument on the SE side of a low hill about 1/2 mile east of Howard Creek, stamped its brass plate in top as is represented in the figure above, from which a large cedar bush on the south point of low hill bears N 78° 47' W 77.3 varas; the west edge of a cap rock bears N 5° 34' 50" W; a mesquite 5 inches in diameter marked "X" bears S 39° 37' E 40.6 varas; the west edge of a rock on top of a round top mountain bears S 2° 44' 50" E about 700 varas.

Thence West, crossing Howard Creek, 1900.8 varas to a point in valley, the NE corner of section #25, this Block.

Thence South, crossing the Ozona-Powell Oil Field graded road, 1900.8 varas to a point in valley at the NE corner of section #26, crossing also an east-west fence.

Thence East, recrossing the Ozona-Powell Oil Field graded road and Howard Creek, 1900.8 varas to the place of beginning.

Surveyed August 31, 1932.

of section #32, Block 30, University Land.

Thence East, crossing ranch road, 1900.8 varas to the SE corner of
said section #5.

Thence South, crossing Howard Creek, 1900.8 varas to a point in
valley for the SE corner of this section #6.

Thence West, recrossing Howard Creek and the ranch road, 1900.8
varas to the concrete monument set for the SE corner of section
#31, Block 30, situated on the east end of a point of hill which
projects east toward Howard Creek, being 117.4 varas north of an
east-west 36-inch net wire fence having 4 barbed wires above net,
its brass plate in top having been stamped as is represented in
the figure above, from which an isolated cedar tree marked "X"
on a rocky ledge bears S 83° 28' E 58.0 varas; a 6-inch letter "T"
cut on a flat rock bears S 49° 56' E 42.4 varas; a windmill in the
valley of Howard Creek bears S 17° 35' 40" E about 1/2 mile; the
right hand of two windmills at the old Henderson headquarters ranch
bears S 6° 01' 40" E about 2 1/2 miles; a 2 1/2-inch galvanized
pipe, having a flattened brass cylinder brazed on top about 8 feet
high, cylinder marked "UNIV. OF TEXAS 1931," same being set in
cement on top of an isolated conical hill on the east side of Howard
Creek near the mouth of Pike's Peak Draw, said conical hill being
called "Pike's Peak", bears N 50° 23' 20" E about 4,000 varas.

Thence North --- at 607.0 varas a rock with a 2-inch hole drilled
in center on the NE end of an isolated hill, being triangulation
station #34, bears east 29.0 varas --- at 1900.8 varas the place
of beginning.

SECTION No. 10
BLOCK No. 31

CROCKETT

County

FIELD NOTES of a survey of

640.0

ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Mag. Declination 11° 11' East.
 True North is 0° 06' 30" to the left of the North point used in the Field notes of this survey.
 Said survey is situated in CROCKETT County, Texas, on the drainage of Howard Creek, a tributary of Pecos River, about 14 miles N 87° W of Ozona, the County Site.

Beginning at a point near road in the valley of Pike's Peak Draw, the NE corner of section #9, this Block.

Thence North 1900.8 varas set a concrete monument on the NE foot of a hill which projects easterly into Pike's Peak Valley, stamped its brass plate in top as is represented in the figure above, from which an iron pipe driven in ground bears S 87° 38' W 37.0 varas; a large letter "T" cut in a rock ledge bears N 52° 04' W 12.4 varas; a perpendicular cap rock bears N 58° 08' 10" E; another cap rock bears S 74° 58' 50" E; a large letter "F" cut in a rock ledge bears S 71° 49' E 13.8 varas.

Thence West 1900.8 varas to a point on mesa between the valley of Howard and the valley of Pike's Peak Draw, the east common corner of sections #2 and #3.

Thence South 1900.8 varas to a point on the west edge of a hill, the NE corner of section #4 and the NW corner of section #9.

Thence East, crossing mountain, 1900.8 varas to the place of beginning.

Surveyed September 7, 1932.

Gibbons Poteet } Chainmen.

 } BLOCK No. 31

FIELD NOTES of a survey of
 640.0 ACRES of land made for THE
 UNIVERSITY OF TEXAS by virtue of an
 ACT approved March 29, 1929.

Mag. Declination 11° 10' East.
 True North is 0° 06' 30" to the left of the North point used in
 the Field notes of this survey.
 Said survey is situated in CROCKETT County, Texas,
 on the drainage of Howard Creek, a tributary of Pecos River,
 about 14 miles N 82° W of Ozona, the County Site.

Beginning at a concrete monument set on the NE side of a point of
 mountain projecting easterly into Pike's Peak Valley for the NE
 corner of section #10, this Block, its brass plate in top having
 been stamped as is represented in the figure above, from which
 an iron pipe driven in ground bears S 87° 38' W 37.0 varas; a large
 letter "T" cut in a rock ledge bears N 52° 04' W 12.4 varas; a per-
 pendicular cap rock bears N 58° 08' 10" E; another cap rock bears
 S 74° 58' 50" E; a large letter "F" cut in a rock ledge bears
 S 71° 49' E 13.8 varas.

Thence North 1900.8 varas to a point for the NE corner of this
 section #11.

Thence West 1900.8 varas to a point among hills, the SE corner of
 section #1 and the NE corner of section #2.

Thence South 1900.8 varas to a point on mesa between the valley of
 Pike's Peak and of Howard Draw, the NE corner of section #3.

Thence East 1900.8 varas to the place of beginning.

Surveyed September 8, 1932.

Mag. Declination 11² 09' East.

True North is 0° 06' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Howard Creek, a tributary of Pecos River, about 14 miles N 78°W of Ozona, the County Site.

Beginning at the NE corner of section #11, this Block.

Thence North, crossing at about right angles a fence, 1900.8 varas set a concrete monument for the NE corner of this section #12, situated in the extreme head of a small canyon running east into Pike's Peak Draw, stamped its brass plate in top as is represented in the figure above, from which a large letter "F" cut in a rock bears S 54° 46' W 20.1 varas; a similar letter "T" bears N 19° 24' W 16.0 varas; a cedar 1 1/2 inches in diameter marked by two horizontal bars bears S 31° 14' E 27.6 varas.

Thence West --- at 1100.7 varas an old original rock mound identified as that placed by S. A. Thompson for the SE corner of survey #36, Block "WX", and for the middle of the west line of survey #70, Block "UV", G. C. & S. F. RR Co. Lands, bears N 0° 13' E 1593.6 varas; from this old Thompson mound another original mound bears N 89° 58' W 1921.3 varas; still another old mound bears S 89° 27' 30" E 1921.3 varas --- at 1900.8 varas point on mesa, the NE corner of section #1, this Block.

Thence South, recrossing a fence, 1900.8 varas to a point among hills, the SE corner of section #1 and the NE corner of section #2.

Thence East 1900.8 varas to the place of beginning.

NOTE:-

From the concrete monument at the NE corner of this section #12 the NE corner of Survey #27, Certificate 4/1635, G. C. & S. F. Ry. Co. Block "WX", being also the middle of the west line of Survey #64, Certificate 4/1615, G. C. & S. F. Ry. Co. Block "UV", being a mound of 3 large rocks having a large live oak stump and a live oak tree still standing to fit its bearings, said corner being generally known as "Live Oak Corner" bears West 1100.7 varas and N 0° 13' E 13,098.6 varas.

From this Live Oak Corner a concrete monument set for the SW corner of Block 51, University Land, bears N 0° 35' 20" E 5762.8 varas.

Surveyed September 9, 1932.

	31	
UTL		

Mag. Declination 11° 17' East.

True North is 0° 07' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Howard Creek, a tributary of Pecos River, about 12 miles S 85°W of Ozona, the County Site.

Beginning at a point in Eureka Valley at the common corner of sections #17, #18, and #19 for the SW corner of this section #20.

Thence East 1900.8 varas to a point in the same valley, the NE corner of section #19.

Thence North, crossing the OST Highway, 1900.8 varas set a concrete monument in Eureka Valley on the east side of a shallow flat drain running SW, thickly covered with mesquite, about 650 varas north of OST Highway, stamped its brass plate in top as is represented in the figure above, from which a flattened brass cylinder marked "UNIV. OF TEXAS 1931" brazed on the top of a 2 1/2-inch galvanized pipe, pipe cemented in rock on top of a conical hill known as Pike's Peak, bears S 75° 53' 00" W; the right hand prong of a double mesquite marked "X" bears N 79° 43' W 81.0 varas; an iron pipe driven in ground bears S 49° 28' W 32.7 varas; steel windmill near dirt tank and a rock tank bears N 77° 42' E about 300 varas.

Thence West 1900.8 varas to a point on the south foot of a hill, the SE corner of section #16, from which a concrete monument with a brass plate in its top, having drilled in its center a 1/4-inch hole, being the NW end of a triangulation base line, bears S 86° 31' 44.9" E 276.89 varas.

Thence South, recrossing the OST Highway, 1900.8 varas to the place of beginning.

Surveyed September 15, 1932.

Gibbons Poteet } Chainmen.
Norris B. Creath }
J. A. Conklin } Transitman.

I, Frank F. Friend, Licensed Land Surveyor of Texas and Special Surveyor of University Lands, do hereby certify that the foregoing survey was made by me in the field and according to law; that the limits, boundaries, and corners, with the marks, natural and artificial, are truly described in the foregoing plat and field notes, just as I found them on the ground; and that they are recorded in the Surveyor's Records in Ozona, Crockett County in Book UT Vol. 8 page 92

This 24th day of April, 1936.

CROCKETT County } SECTION No. 21
BLOCK No. 31

FIELD NOTES of a survey of

640.0 ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Mag. Declination $11^{\circ} 18'$ East.

True North is $0^{\circ} 07' 30''$ to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas,
on the drainage of Howard Creek, a tributary of Pecos River,
about 12 miles WEST of Ozona, the County Site.

Beginning at a concrete monument set in Eureka Valley on the east side of a shallow flat drain running SW thickly covered with mesquite, being about 650 varas north of the OST Highway, said monument being the NE corner of section #20, this Block, its brass plate in top having been stamped as is represented in the figure above, from which a flattened brass cylinder marked "UNIV. OF TEXAS 1931" brazed on the top of a 2 1/2-inch galvanized pipe, pipe cemented in rock on top of a conical hill known as Pike's Peak, bears $S 75^{\circ} 53' 00'' W$; the right hand prong of a double mesquite marked "X" bears $N 79^{\circ} 43' W 81.0$ varas; an iron pipe driven in ground bears $S 49^{\circ} 28' W 32.7$ varas; a steel windmill near a dirt tank and a rock tank bears $N 77^{\circ} 42' E$ about 300 varas.

Thence North 1900.8 varas to a point in upper end of cove for the NE corner of this section #21.

Thence West, through gap, 1900.8 varas to a point near road, the east common corner of section #15 and section #16.

Thence South, over hill, 1900.8 varas to a point at the south foot of said hill, from which a concrete monument having anchored in its top a brass plate in which is drilled a 1/4-inch hole in center, being the NW end of a triangulation base line, bears $S 86^{\circ} 31' 44.9'' E$ 276.89 varas.

Thence East 1900.8 varas to the place of beginning.

Surveyed September 16, 1932.

County

BLOCK No. 31

FIELD NOTES of a survey of

640.0

ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Mag. Declination $11^{\circ} 19'$ East.

True North is $0^{\circ} 07' 30''$ to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Howard Creek, a tributary of Pecos River, about 12 miles N 85° W of Ozona, the County Site.

Beginning at the NE corner of section #21, this Block, being a point in the upper end of a cove, for the SE corner of this section #22.

Thence West, passing through gap between hills, 1900.8 varas to a point near road, the SE corner of section #15 and the NW corner of section #21, this Block.

Thence North 1900.8 varas to a point in the valley of Pike's Peak Draw near the forks of a ranch road, the SE corner of section #14.

Thence East 1900.8 varas set a concrete monument in a shallow flat drain densely covered with mesquite running SW into the Pike's Peak Draw, stamped its brass plate in top as is represented in the figure above, from which the SE edge of a cap rock bears S $55^{\circ} 10' 10''$ W; an iron pipe driven in ground bears N $82^{\circ} 40'$ W 35.2 varas; a perpendicular rock ledge bears N $15^{\circ} 08' 50''$ W; a mesquite 6 inches in diameter marked "X" bears S $30^{\circ} 10'$ W 37.6 varas; a double mesquite 5 inches in diameter marked by three horizontal bars bears S $80^{\circ} 15'$ E 20.7 varas.

Thence South, crossing over mountain, 1900.8 varas to the place of beginning.

Surveyed September 19, 1932.

Mag. Declination 11° 22' East.

True North is 0° 08' to the left of the North point used in
the Field notes of this survey.Said survey is situated in CROCKETT County, Texas,
on the drainage of Howard Creek, a tributary of Pecos River,
about 11 miles S 80° W of Ozona, the County Site.Beginning at a point in Eureka Valley near a ranch road, the SE corner
of section #29, this Block.Thence South, crossing the Texas Company Oil Pipe Line, 1900.8 varas
to a point for the SE corner of this section #30.Thence West 1900.8 varas strike the concrete monument set about 75
varas west of the north end of a point of hill, among cedar and
mesquite bushes, being the SE corner of section #19, this Block, its
brass plate in top having been stamped as is represented in the figure
above, from which a windmill near a rock and dirt tank bears
N 5° 13' 40" E about 2 miles; a large double mesquite, one prong 10
inches, the other 6 inches, right hand of which being marked "F" bears
N 32° 23' W 102.7 varas; the SW point of mountain range bears
N 29° 07' 20" W.Thence North, crossing a ranch road and recrossing the Texas Company
Oil Pipe Line, 1900.8 varas to a point in Eureka Valley, the SE
corner of section #20.

Thence East 1900.8 varas to the place of beginning.

Surveyed September 26, 1932.

BLOCK No. 31

FIELD NOTES of a survey of
640.0 ACRES of land made for THE
UNIVERSITY OF TEXAS by virtue of an
ACT approved March 29, 1929.

Mag. Declination $11^{\circ} 23'$ East.

True North is $0^{\circ} 08' 30''$ to the left of the North point used in
the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas,
on the drainage of Howard Creek, a tributary of Pecos River,
about 10 miles S 79° W of Ozona, the County Site.

Beginning at the NE corner of section #30, being the SE corner of
section #29, being a point in Eureka Valley near a ranch road, for the
NW corner of this section #31.

Thence East 1900.8 varas to a point on a rough hillside for the NE
corner of this section #31.

Thence South, crossing the Texas Company Oil Pipe Line, 1900.8 varas
set a concrete monument on the east side and about half up a hill
which faces a valley running north, 1.0 varas east of a net wire fence
and 159.7 varas north of a barbed 5-wire fence which taps and runs
west, stamped its brass plate in top as is represented in the figure
above, from which a windmill on divide bears N $35^{\circ} 52' 10''$ E; another
windmill at a ranch house in valley bears N $52^{\circ} 01' 10''$ E; a 6-inch
letter "T" cut in a flat rock bears N $67^{\circ} 12'$ E 19.0 varas; a similar
letter "U" bears S $61^{\circ} 22'$ W 10.3 varas; a third windmill (on divide)
bears S $51^{\circ} 02' 50''$ E.

Thence West 1900.8 varas to the SE corner of section #30, this Block.

Thence North, recrossing the Texas Company Oil Pipe Line, 1900.8 varas
to the place of beginning.

Surveyed September 26, 1932.

SECTION No. 5

CROCKETT

County

BLOCK No. 32

FIELD NOTES of a survey of

640.0

ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Mag. Declination 11° 11' East.

True North is 0° 06' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Howard Creek, a tributary of Pecos River, about 14 miles S 74° W of Ozona, the County Site.

Beginning at the NE corner of section #4, this Block.

Thence West 1900.8 varas to the east common corner of sections #2, and #3.

Thence North 1900.8 varas to the SE corner of section #1, being near the extreme point of a hill projecting west toward Howard Creek.

Thence East, crossing a hill, 1900.8 varas set a concrete monument on west edge of a small valley running south into Rose Hollow which then flows west into Howard Creek, stamped its brass plate in top as is represented in the figure above, from which a mesquite 8 inches in diameter marked "X" bears S 22° 25' E 41.4 varas; the extreme SE point of a rocky ledge bears S 41° 34' 20" W about 500 varas; another mesquite 7 inches in diameter marked by three horizontal bars bears S 86° 45' W 32.3 varas.

Thence South 1900.8 varas to the place of beginning.

Surveyed October 4, 1932.

Gibbons Poteet
Norris B. Creath
J. A. Conklin} Chainmen.
Transitman.

I, Frank F. Friend, Licensed Land Surveyor of Texas and Special Surveyor of University Lands, do hereby certify that the foregoing survey was made by me in the field and according to law; that the limits, boundaries, and corners, with the marks, natural and artificial, are truly described in the foregoing plat and field notes, just as I found them on the ground; and that they are recorded in the Surveyor's Records in Ozona, Crockett County in Book UT Vol. 8 page 113 This 28th day of April, 1936.

Fig. #1. Fig. #2.

Mag. Declination 11° 11' East.

True North is 0° 06' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Howard Creek, a tributary of Pecos River, about 14 miles S 78° W of Ozona, the County Site.

Beginning at the common corner of sections #1, #2, and #5, this Block, being a point near the extreme west end of a hill projecting west toward Howard Creek.

Thence North, crossing fence, 1900.8 varas to a point in the valley of Howard Creek, the NE corner of said section #1, being also the SE corner of section #6 and the SW corner of section #7, Block 31.

Thence East --- at 327.0 varas point from which a rock with a 2-inch hole drilled in center, being triangulation station #35, bears South 48.2 varas --- at 1900.8 varas strike the concrete monument set for the SE corner of section #7, Block 31, on a ridge between the heads of two canyons, one running north and the other south, its brass plate in top having been stamped as is represented in figure #1 above, from which a windmill on divide bears N 56° 18' 25" E about 7 1/2 miles; another windmill on a divide bears S 12° 17' 35" E about 4 miles; a steel windmill in Pike's Peak Draw near the north line of Block 31 bears N 14° 51' 25" E.

Thence South --- at 118.0 varas cross a 5-wire fence running east and west --- at 1900.8 varas strike the concrete monument set for the NE corner of section #5, situated on the west edge of a small valley running south into Rose Hollow which then flows west into Howard Creek, its brass plate in top having been stamped as is represented in figure #2 above, from which a mesquite 8 inches in diameter marked "X" bears S 22° 25' E 41.4 varas; the extreme SE point of a rocky ledge bears S 41° 34' 20" W about 500 varas; another mesquite 7 inches in diameter marked by three horizontal bars bears S 86° 45' W 32.3 varas.

Thence West, crossing a hill, 1900.8 varas to the place of beginning.

Surveyed October 5, 1932.

Mag. Declination 11° 15' East.

True North is 0° 08' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Howard Creek, a tributary of Pecos River, about 11 miles S 63° W of Ozona, the County Site.

Beginning at a point in the valley of Rose Hollow, the east common corner of sections #14 and #15, this Block.

Thence South 1900.8 varas to the SE corner of said section #15.

Thence East 1900.8 varas set a concrete monument in a bushy area consisting of mesquite, cedar and live oak, on the north edge of a small hill, being the south edge of a narrow valley running west into Rose Hollow, 104.3 varas north of an east-west fence, stamped its brass plate in top as is represented in the figure above, from which a 6-inch letter "F" cut in a flat rock bears S 7° 16' 30" E 11.3 varas; a similar letter "T" bears S 30° 06' 30" W 28.5 varas; the right hand prong of a double mesquite 8 inches in diameter marked by three horizontal bars bears N 39° 43' 30" W 45.1 varas; a large round clump of live oaks 15 feet high and 15 feet in diameter in bed of drain bears N 82° 30' W 100 varas.

Thence North 1900.8 varas to a point for the NE corner of this section #16.

Thence West 1900.8 varas to the place of beginning.

Surveyed October 11, 1932.

Thence South, crossing a road, 1900.8 varas to the NE corner of section #16.

Thence East 1900.8 varas to the west common corner of sections #1 and #2, Block 32, University Land, the SE corner of this section #18.

Thence North, recrossing road and crossing a fence, 1900.8 varas to the concrete monument set for the SE corner of section #31, the NW corner of section #1, B lock 32, and the NE corner of this section #18, situated on the east side of a point of hill projecting east toward Howard Creek, being 117.4 varas north an east-west 36-inch net wire fence having 4 barbed wires on top, its brass plate in top having been stamped as is represented in the figure above, from which an isolated cedar tree marked "X" on a rocky ledge bears S 83° 28' E 58.0 varas; a 6-inch letter "T" cut on a flat rock bears S 49° 56' E 42.4 varas; a windmill in the valley of Howard creek bears S 17° 35' 40" E about 1/2 mile; the right hand of two windmills at the old Henderson Headquarters ranch bears S 6° 01' 40" E about 2 1/2 miles; a 2 1/2-inch galvanized iron pipe, having a flattened brass cylinder brazed on top about 8 feet high, cylinder marked "UNIV. OF TEXAS 1931," same being set in cement on top of an isolated conical hill on the east side of Howard Creek near the mouth of Pike's Peak Draw, said conical hill being called "Pike's Peak", bears N 50° 23' 20" E about 4,000 varas.

Thence West --- at 1892.2 varas point from which a stone with a 2-inch hole drilled in center, being triangulation station #6, bears North 522.5 varas --- at 1900.8 varas the place of beginning.

Surveyed November 14, 1932.

FIELD NOTES of a survey of

640.0 ACRES of land made for THE
UNIVERSITY OF TEXAS by virtue of an
ACT approved March 29, 1929.

Mag. Declination 11° 05' East.

True North is 0° 05' 30" to the left of the North point used in
the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas,
on the drainage of Howard Creek, a tributary of Pecos River,
about 16 miles S 76°W of Ozona, the County Site.

Beginning at the SE corner of section #18, this Block, being the
SW corner of section #1, Block 32.

Thence South 1900.8 varas to the SW corner of section #2 and the
NW corner of section #3, Block 32, University Land, being a concrete
monument set about half way down the east side of a hill which projects
east toward Howard Creek, the brass plate in top of the monument
having been stamped as is represented in the figure above, from which
a windmill in the valley of Rose Hollow bears S 83° 43' 10" E about
4 miles; the left hand of two windmills at the Henderson headquarters
ranch bears S 37° 28' 10" E; the right hand of the same two windmills
bears S 36° 55' 10" E; the extreme west perpendicular edge of a ledge
on mountain bears N 26° 17' 50" E about 3 1/4 miles; a 6-inch letter
"T" cut on a flat rock bears N 46° 37' E 25.7 varas; a similar
letter "F" cut on a ledge bears N 78° 38' W 31.3 varas.

Thence West 1900.8 varas to the east common corner of section #15
and section #16, this Block.

Thence North, crossing fence, 1900.8 varas to the SE corner of
section #17 and the SW corner of section #18.

Thence East 1900.8 to the place of beginning.

Surveyed November 14, 1932.

BLOCK No. 33
FIELD NOTES of a survey of
640.0 ACRES of land made for THE
UNIVERSITY OF TEXAS by virtue of an
ACT approved March 29, 1929.

Mag. Declination 11° 05' East.
True North is 0° 05' 30" to the left of the North point used in
the Field notes of this survey.
Said survey is situated in CROCKETT County, Texas,
on the drainage of Howard Creek, a tributary of Pecos River,
about 17 miles S 73°W of Ozona, the County Site.

Beginning at a concrete monument set half way down on the east side
of a hill which projects east toward Howard Creek, for the SW corner
of section #2, being the NW corner of section #3, Block 32, University
Land, and the SE corner of section #19, this Block, its brass plate
in top having been stamped as is represented in the figure above,
from which a windmill in the valley of Rose Hollow bears
S 83° 43' 10" E about 4 miles; the left hand of two windmills at the
Henderson headquarters ranch bears S 37° 28' 10" E; the right hand
of the same two windmills bears S 36° 55' 10" E; the extreme west
perpendicular edge of a ledge on mountain bears N 26° 17' 50" E
about 3 1/4 miles; a 6-inch letter "T" cut on a flat rock bears
N 46° 37' E 25.7 varas; a similar letter "F" cut on a ledge bears
N 78° 38' W 31.3 varas.

Thence South, crossing road running west from ranch house, 1900.8
varas to the SW corner of said section #3, Block 32.

Thence West 1900.8 varas to the SE corner of section #15, this Block.

Thence North, recrossing road and crossing a fence, 1900.8 varas to
the SE corner of section #16 and the SW corner of section #19.

Thence East 1900.8 varas to the place of beginning.

Surveyed November 15, 1932.

REPORT OF A SURVEY, UNIVERSITY LAND

BLOCKS 29, 30, 31, 32, & 33

CROCKETT COUNTY.

B y

Frank F. Friend
Special Surveyor
University Lands

Blocks 29, 30, 31, 32, & 33, University Land, lie entirely in Crockett County, the center of which land is about 15 miles due West of Ozona, the County Site. It belongs to what is known as the Constitutional Grant and was surveyed by R. M. Thomson, University Surveyor, in the year 1879. During that year by legislative enactment the open domain still remaining in Tom Green, Crockett, and Pecos Counties was declared to be in a reserve for University Surveyors only and this exemption Act remained in force until about the middle of January, 1880, the date which marks the completion by Holt and Thomson of staking on the ground the Constitutional Grant of one million acres of University Land.

By the terms of the contract made between the Board of Regents of the University and the Surveyors of this land, it became imperative that they locate same, if not directly on, then as near to, running water as possible; therefore the small running stream

of Live Oak Creek, which lies immediately against the West line of these blocks, was evidently the controlling factor that governed the surveyors when these blocks were laid on the ground. There still may be seen, just East of Live Oak Creek and about 2 miles southwest of the southwest corner of Block 29, the old demolished outpost of Fort Lancaster. The beautiful valley of Howard Creek extends South the entire distance of nine miles through the East end of this body of land, while the high divide between Howard Creek and Live Oak Creek extends the whole distance North and South over the West end of the area. The Old Spanish Trail, being State Highway No. 27, soon to be paved throughout, traverses East and West almost through the center of the area.

On page 152 of this volume will be found a copy of the original fieldnotes of Section No. 1, Block 29. Thomson says he began at a point in the middle of the parade ground, from which he gives bearings on the southwest and the northeast corners of the old fort. These two bearings, owing to the demolished condition of the fort at the present time, can not be verified, but he also gives a bearing of a nearby grave, being that of J. H. Norris, A W P Lane Ranger, etc., as being $N 38^{\circ} E 255$ varas. This grave is still in a good state of preservation and fulfills the fieldnote call. The "Point", therefore, used in this resurvey, is that point which is $S 38^{\circ} W 255$ varas from the aforementioned tombstone.

The dotted line, appearing on the map, drawn between Fort Lancaster and the northwest corner of Section No. 1, Block 29, reads " $N 45^{\circ} 23' 40'' E 4628.3$ varas." To explain this seeming inconsistency, there will also be found on pages 153, 154, & 155 of this volume a description of a connecting line run by Frank F. Friend, County Surveyor of Crockett County, and Edgar C. Saunders, County Surveyor of Sutton County, in which connecting line and letter by Mr. Saunders will be found a complete history of the establishment of the northwest corner of this Section No. 1. This dotted line is practically true local course, and the error in deviation of

0° 23' 40" is not a large error when one compares Thomson's lines throughout University Land. The distance, which appears excessive by 28.3 varas, was arrived at in our resurvey by triangulation, and is accurate to the nearest tenth of a vara. Therefore, might not the position of the F. & S. Stone Mound, as established by Friend and Saunders with chain and compass, more nearly be the footsteps of the original surveyor, than by accurate triangulation? On pages 156 & 157 of this volume will also be found a copy of field book notations touching the establishment of this point, the NW corner of section No. 1, Block 29, and taken with the history of the connecting line by Friend and Saunders, furnishes a complete history of the establishment of the northwest corner of Section No. 1, Block 29, University Land, Crockett County. The original field-notes by Thomson for this point call for "earth monument."

Of the numerous calls for stone mounds, two with bearing trees, not one, after months of dilligent search, could be found during this resurvey. The northwest corner of section No. 6, Block 29, calls for a stone monument. Knowing that S. A. Thomson had tied Block GG, Archer County School League, and Block FF to the northwest corner of this Section No. 6, an effort was made to determine by research what S. A. Thomson found at this point. From his personal letter file I gleaned the series of letters which I have numbered from 1 to 9, and which are to be found in this volume, pages 158 to 163. They merely show the difficulties, even as early as 1881, the subsequent surveyors met when attempting to tie in with this University area. Therefore, the entire system of Blocks was run out, course and distance, from the established northwest corner of Section No. 1, Block 29.

The map is complete and needs no explanations. Contacts with adjacent lands are shown wherever possible.

Three conflicts appear: Section No. 6, Block 29, is in conflict with Survey No. 7, J. Zunigas, by 13.3 acres; Section No. 2, Block 33, is in conflict with Survey No. 39, I. & G. N. RR Co. Block 2, by 148.5 acres; Section No. 3, Block 33, is in conflict with Survey No. 40, I. & G. N. RR Co. Block 2, by 148.1 acres.

the foregoing field notes.

(Signed: R. M. Thomson)

Surveyor University Lands

FIELDNOTES OF THE N. W. CORNER OF SURVEY NO. 1, BLOCK 29,
UNIVERSITY OF TEXAS LAND IN CROCKETT COUNTY, TEXAS.

I, Frank F. Friend, County Surveyor of Crockett County, Texas, and with chain carriers duly qualified, do hereby certify in December, 1904, I carefully measured the beginning call of the N.W. Corner of Survey No. 1, Block 29, University of Texas Land in Crockett County, Texas, which call is as follows:

"From a point in middle of parade ground at Fort Lancaster S.W. Corner Fort brs. S. 3 E. 133 vrs. N.E. Corner brs. N. 3 W. 133 vrs., tomb stone enscribed "J. H. Norris, A. W. P. Lane Ranger from Marshall, Texas, died 11/19/61 age 24 years" N. 38 E 255 vrs."

Thence N. 45° E 4600 vrs to a rock mound with round flat cap stone rock on the under side of which was engraved the name of "U. G. Taylor". I engraved my own initials and date (F.F.F. 1904) on this same stone. In this vacinity there were several mounds among which was one in a southeasterly course nearly 300 varas, from which there was a small scrub cedar marked "X" which stood about the proper course and distance to fit the original fieldnotes for this corner. The X on this bush showed plainly to have been cut very recently, believing at the time that it had been marked by Mr. Thompson Mc Donald, my predecessor, I therefore placed no faith in this as being the original corner and bearing. There were scrub cedars that would practicaly fit for a bearing for the U. G. Taylor corner, but in 1904 there were signs that prairie fires had swept the country rendering search for this bearing tree absolutely hopeless.

I also certify that on this run from old Ft. Lancaster, N. 45° E. 4600 varas, I found at precisely the point called for in the original fieldnotes, namely at 1160 varas, an old stone mound, which fact satisfied me that I was following in the foot steps of the original surveyor, both as to variation and measurement.

I further certify that today I went on the ground in company with Edgar C. Saunders, Licensed State Land Surveyor, and identified beyond doubt the smaller stones still in place upon which had originally rested the U. G. Taylor Capstone; that said Capstone has been removed or destroyed, evidently by ignorant or careless Mexican fence builders; that I rebuilt this to a monument 4 feet high close beside a net wire fence running north and South, with Capstone marked "N.W. 1, Bl 29" chiseled deep into the stone from which monument a large fixed boulder with small cavity in center 6 inches in diameter and 2 inches deep, over which cavity an eight-inch letter "A" chiseled deep into the stone bears N. $15\frac{1}{4}^{\circ}$ W. 38 varas; also a fixed rock upon which is chiseled the letter "B" bears N. 82 E. 25 varas; also a rock mound evidently made by W. D. Twitchell, State Surveyor March 1st to 15th, 1901, bears South 39° West 125 $\frac{1}{2}$ varas; also the West perpendicular end of ledge on the point of mountain bears North $54\frac{1}{2}^{\circ}$ West about one-half ($\frac{1}{2}$) mile; also the South perpendicular point of Ledge on point of mountain on West side of Live Oak Creek bears North 67° 5' West about two (2) miles.

(Signed: Frank F. Friend)

County Surveyor, Crockett County, Texas.

Variation: (10° 25' E)

January 21st, 1924, 11 to 12 o'clock A.M.

No. 59

Sketch File

Crockett County

Connecting Line between

old Fort Lancaster & Blk 29

University Land - -

Filed Feby 4th 1924

J. T. Robison, Comr.

Clark

Ozona, Texas, 1-30th 1924

Hon. J. T. Robison
General Land Commissioner, Austin

Dear Sir:

I herewith inclose sketch showing several connecting lines in red ink for the purpose of locating the Sebasteano Vela and John Turner Surveys, and will now ask that department to please designate on this sketch with notes how to construct these two surveys in reference to other surveys surrounding them All distances given on Sketch were carefully measured on the ground and show to be excessive in all directions - I ran the connections between the original call at Lancaster and the Stone md certified to by Frank Friend making it 4645 varas but I crossed several cañons and scaled two bluffs at each bluff and at top of each hill Mr. Friend told me he stoped and figured the elevation and added the diference found to his distance I did not hence the reason why Mr. Friend made the distance 4600 vrs while I made it 4645 vrs.

(Signed: E. C. Saunders)

COPY OF FIELD BOOKNOTATIONS

Made April 6, 1936, by
Frank F. Friend.

The writer saw a mound and marked cedar bush approximately at this place in 1903. The mound then was composed of a few scattered rocks and the cedar was a branch of a clump of scrub cedar. The branch was about two inches in diameter and leaned toward the West. The "X", 1 1/2 inches in size, cut with a knife, was then freshly cut, as I remember, the wax was oozing out at edge of cuts. I doubt this as being the same mound and tree that I found thirty-three years ago. Someone has recently hacked the tree on a dead spot just above the ground on the side toward the mound; in a few years these cuts may resemble and may be claimed for the original marks by Thomson. There is also an older cut higher up -- evidently by someone searching for the original "X". The rocks in the mound seem now to have been assembled recently, as they are white on the exposed surfaces and not blue. The call in the fieldnote is for "earth monument."

In 1903 when first I ran the line N 45° E 4600 varas from a point S 38° W 255 varas from the J. H. Norris tombstone, I landed at or very near a stone mound at 1160 varas (see original Thomson fieldnote). At 4600 varas I landed near (not over 8 or 10 varas from) a stone mound, having on its top an eighteen inch by five inch round cap rock, on the under side of which was etched the name "U. G. Taylor." There was a date also but I do not remember it. The note book I carried that day has been lost. I added "FFF---1903" under Taylor's name and date and replaced the stone.

A few years later I set up over the "U. G. Taylor" mound and staked out the West line of Block 29, University of Texas lands, for T. A. Kincaid, on which he built a fence.

Still later, E. C. Saunders, a State Surveyor, complained that he could not find the Taylor mound as I described it to him, when it was arranged that he and I jointly re-establish the point marked by Taylor by building what is now known as the "F. & S. Stone Mound," the history of which, over our signatures, may be found in the General Land Office.

* * *

The true course and distance from a point S 38° W 255 varas from the tombstone to the rock mound with cedar bearing is N 48° 17' E 4529.5 varas. Besides being short 70.5 varas, it is off in course 3° 17'. Stated in another way, should one run N 45° E as called for, the Declination set off would needs be 7° 43' E. It is now 11° 00' E.

A weak spot in the argument for the stone mound and cedar is that the tree is exactly N 62° E, and the distance is exactly 110 varas --- facts I have never found in Thomson's survey of University of Texas lands. It seems that some subsequent surveyor has found a cedar, and from this has placed a mound.

April 19, 1889.

E M Powell esq
Dallas, Texas

Dear Sir:

I want to do some work for J H Graham, on Live Oak Creek, and would like to have my original note book, for the work. Please see if you can find it among your papers and if you will do so would like to have you loan it to me for a while. I have one of the old field books here but it only contains the work on head of S Concho. the book - I want has the connecting line to old Ft Territe in it and the Archer Co school land work &c.

If you have any of the old sketches of the live oak country I could use them to advantage

Dee Bois is in Elgin, I will see him in a few weeks regarding the sec #25.

Yours truly
S A Thompson"

Letter No. 4:

"Dallas, Texas
22nd April 1889

Mr. S A Thompson
Ft Davis Texas

Dear Sir.

Your letter of 19th Inst Rec'd and I have just looked every where I can think of for the original field book of the work on Live Oak creek in Crockett Co. but cannot find it. Enclosed herewith is two sketches, or tracings of that section (?) of the country, they will help you a great deal, as they have many of the corners marked on them --- Please return these as soon as you are through with them, for I have no others ---

It seems to me that I sent the book you ask for to Gage a long time ago. Is it not a thin pocket book covered with fair (?) leather, or sheep skin.

Ys Respty

E. M. Powell"

Letter No. 5:

"(Ft Davis, Texas)
April 25th 1889

E M Powell esq
Dallas Texas

Dear Sir

I have rec'd yours of 22nd with sketches enclosed which I will use and return. I dislike to trouble you further but the book I have here has not got the live oak work. It is a fait (?) leather book, but the one I need has the work I did that winter after you went to Stockton and has the work I did hunting for R M Thompsons University work, and my line from Griersons Sps.

If after looking again you do not find it do not trouble further, but if I had it I could follow my old line much easier

Yours truly
S A Thompson"

Letter No. 6:

"(Ft. Davis, Texas)
May 14th 1889

J. H. Graham
Belknap Texas

Dear sir

Ref' to the Archer Co School land I have not been able to find my old note book yet, but I will be in Austin on the 20th of this month and will get all data needed while there, for to work of resurvey.

As to the charges for the work for Self, one man and team (?) and Grubb I charge on work here \$10.00 per day. I figure that it would take me all of five days to get to the work and same for return, and the time there of course depends on the amount of work you wish done.

At the time I built the corner on that land we dug out a spring near the corner, which one of my men claimed was permanent water. at that time I doubted it, but a year or two ago I met (?) a cow man who said they had permanent water in that locality. I have thought since that it may prove to be the place I found.

Should you have the work done would you meet me on the ground, or come here first.

Yours Respty
S. A. Thompson"

Letter No. 7:

"Belknap Texas
May the 23rd 1889.

Mr S A Thompson

Ft Davis, Texas

I am in receipt of yours of the 14 inst and will say That it is no trouble to find Archer Co Leigue No. 1 we have a ranche on it and can find every corner. Finding the Archer Co Land is not the trouble The trouble is in running (?) G C & S F RR Co Blk No. 1 it conflicts and runs in on the Archer Co Land to a distance of 1113 vars it also conflicts with all other lands west of it its full length. so you see there is other parties interested in having a correct survey made the G C & S F RR Cos owners have all readdy had their land Surveyed twice once by W J Mosely of Midland Texas and once by Archibald Bogle (?) of Val Verda Co Texas and both times nearly a like What is needed is the true starting point the Archer land calls for University section No. 6 N W thence 4 miles North and 2 miles W I dont know what the G C & S F calls for the matter will have to (be) studied and the Surveyor made acquainted with the hole business for I want the survey that I have to pay for to be correct and Able to stand up in Law I think your price rather high but for a job that will settle the trouble I am willing to pay almost any price. I want you to make yourself thourally acquainted with the matter and I will let you hear from me again as to when we can have the work done As there is other parties interested I want to see if they went all whack up If there is any thing more you wish to know adress

J. H. & N. H. Graham at Midland Texas.

My Bro lives on the ranche and is there all the time I will be at the ranche through July and August and will figure to have the work done while I am there. I will say I dont believe there is any conflict They commence on the west side of Live Oke Creek at a pile of rocks and call it University No. 6 there is an other pile of rocks on the east side of the creek which I think is the University (?) corner (?)

J. H. Graham"

Letter No. 8:

"(Ft. Davis, Texas)

J. H. Graham esq
Belknap Texas

Dear sir

I have just returned from Austin. I ordered a working sketch of the Archer Co School land and the G C & S F Blk which will be forwarded in a week or two. In regard to this matter I wish to say before you are at further expense, that if both Mr. Bogle and Mr. Mosley began their work at the beginning corner of Blk #29, University Lands, and ran up from them (?) to determine the position of sec #6 there is no reason to think that they are wrong; but if they simply take the rock md near the head waters for the corner of #6, there is a chance that they are in error. When I went in there I was told by Mr. Barton how to find the northwest cor #6, a large Rk Md 6' high &c, &c. I never found it, it had not been built, and I had to run down to old Ft Lancaster for a connecting point, the same to which Blk 29 is tied to. Now if you or your Brother know that the(word did not copy) work that has been done was run from the beginning point (word did not copy) of Blk #29 you can determine to a reasonable degree of certainty whether their work is right.

I have not yet found my old field book, but hope to find it, but have to say that the matter in question will be settled by a line from the beginning corner of section #1 Blk 29, University Lands, to the inside corner of the school land for I know that the northwest corner of Sec #6 was not built when I first went in there to find it.

I remember of being asked some years ago if I had not found it, and who ever it was spoke to me of it claimed to have found it, and described a mark that I had left on my line down the valley.

I would be glad to know as soon as possible if I am to come over for you (?), or rather want to know some time beforehand, as I have a great deal of work

Yours Respty

S. A. Thompson"

Mr. S. A. Thompson
Ft Davis, Texas

Dear sir.

Having just moved my office, I have had a pretty good chance to look for the field book you asked for in your letter of 25th April--

I had the book in mind all the time, but did not see it --- I think you or Gage must have it

Yrs Respty
