Mr. C. E. Grimmer
County Surveyor
Ozona, Texas

Dear Sir:

In a re-check made of the University lands in the various volumes of field notes and plats filed by Mr. Frank F. Friend, special surveyor, the following errors have been found:

Book U. T. Volume C-1

Page 85, Section 3, Block 14, Crockett County, shows 664.2 acres, this should be corrected to read 664.5 acres.

We would ask that you kindly make the above corrections in Volume C-1, University lands, on file in your office, and advise this office when you have complied with this request.

Yours very truly

Commissioner

Shirriff:LM
cc to Mr. Frank F. Friend

1

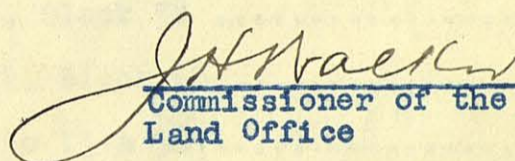

Vol 10

G. S. O.

I, J. H. Walker, Commissioner of the General Land Office of the State of Texas, do hereby certify:

That this book, designated as "Book UT Vol 10" contains fieldnotes of all the sections in Blocks 11, 12, 13, 14, & 15, University Land in Reagan, Upton & Crockett Counties, surveyed under an act approved March 29, 1929, by Frank F. Friend, Special Surveyor of University Lands, which fieldnotes, numbered from page 1 to page 120 inclusive, have been examined, approved and filed as of this date Dec 14, 1936

IN TESTIMONY WHEREOF, I hereunto set my hand and affix the seal of said office this the 14th day of Dec, A. D. 1936.

Commissioner of the General
Land Office

REAGAN County }
FIELD NOTES of a survey of
641.5⁰ ACRES of land made for THE
UNIVERSITY OF TEXAS by virtue of an
ACT approved March 29, 1929.

Mag. Declination 11° 20' East.
True North is 0° 33' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in REAGAN County, Texas, on the drainage of a shallow flat Creek, a tributary of the basin of Big Lake, about 6 miles N 82° W of Big Lake, the County Site.

Beginning at the concrete monument set for the NE corner of section #6, Block 8, being the SE corner of section #31, Block 9, and the SW corner of section #36, Block 10, University Land, situated in the North edge of a smooth valley running East about 150 varas North of the drain at the bottom of same, which is covered with large mesquite trees, and about 100 varas SW of a rocky ledge, its brass plate in top having been stamped as is represented in the figure above, from which a windmill on the South side of State Highway No. 10 bears S 64° 40' W about 380 varas; a mesquite 4 inches in diameter marked "T" bears N 64° 37' W 84 varas; another mesquite, 5 inches in diameter marked "X" bears S 0° 30' W 36.4 varas; a pile of 7 scattered stones, not existing in position by nature, but much resembling a surveyor's mound, known as "Grandmamma I", bears N 71° 35' E 180.1 varas; another large stone mound of 20 visible stones, undisturbed, some almost buried beneath the soil, not placed there by nature, but much resembling a surveyor's mound, known as "Grandmamma II", bears East 354.9 varas and South 122.0 varas.

Thence East --- at about 140 varas cross an old road --- at 500 varas land on the South end of a low point of hill --- at 1685 varas point in the bottom of a shallow drain running South --- at 1879.7 varas an old stone mound of 3 stones weighing about 15 pounds each bears North 65.4 varas --- at 1900.0 varas strike the South common corner of sections Nos. 35 and 36, Block 10, being the NE corner of this section #1, Block 11.

Thence South --- at 665.3 varas cross the center line of the pavement of State Highway No. 10 --- at 1906.1 varas point for the SE corner of this section #1.

Thence West 1900.0 varas to the East common corner of sections Nos. 6 and 7, Block 8.

Thence North --- at 44 varas cross an East-West road --- at 733.6 varas set a 60d hub nail in a small rock mound, from which the windmill at the McMullin Ranch bears S 31° 02' W --- at 1233 varas, at 1393 varas, and at 1614 varas cross roads, each running NW and SE --- at 1694.2 varas cross a 48-inch net wire fence which forms the SW right-of-way line of State Highway No. 10 --- at 1713 varas recross the center line of the pavement of State Highway No. 10 --- at 1731 varas cross a 48-inch net wire fence which forms the NE right-of-way line of said highway --- at 1818.6 varas cross a very old NW-SE road --- at 1906.1 varas the place of beginning.

Surveyed August 30, 1935.

Robert A. Leidecker } Chainmen.
Jim Howard King }
Norris B. Creath } Transitman.

I, Frank F. Friend, Licensed Land Surveyor of Texas and Special Surveyor of University Lands, do hereby certify that the foregoing survey was made by me in the field and according to law; that the limits, boundaries, and corners, with the marks, natural and artificial, are truly described in the foregoing plat and field notes, just as I found them on the ground; and that they are recorded in the Surveyor's Records in Big Lake, Texas, Reagan County in Book UT Vol. R-2 page 1

This 28th day of August, 1936.

BLOCK No. 11

FIELD NOTES of a survey of
641.5 ACRES of land made for THE
UNIVERSITY OF TEXAS by virtue of an
ACT approved March 29, 1929.

Mag. Declination $11^{\circ} 17'$ East.

True North is $0^{\circ} 33' 30''$ to the left of the North point used in
the Field notes of this survey.

Said survey is situated in REAGAN County, Texas,
on the drainage of a shallow flat Creek, a tributary of the basin of Big Lake,
about 6 miles WEST of Big Lake, the County Site.

Beginning at the common corner of sections Nos. 1, 2, and 11, this
Block, for the NE corner of this section #12.

Thence South --- at 719.6 varas cross the Santa Fe and Panhandle Rail-
road --- at 1906.1 varas strike the SW corner of said section #11.

Thence West 1900.0 varas to the concrete monument set for the SE
corner of section #7, which is identical with the NE corner of section
#18, Block 8, University Land, situated in a smooth valley thickly
covered with large mesquite trees, about 100 varas South of a ravine
running East, the brass plate in top having been stamped as is represent-
ed in the figure above, from which an earth mound containing broken
glass bears S $27^{\circ} 23' W$ 49 varas; a 7-inch mesquite marked "X", a
10-inch mesquite marked "U", a 5-inch mesquite marked "T", and another
mesquite, 7 inches in diameter, marked "F" bear respectively S $65^{\circ} 39' W$
3.3 varas, N $15^{\circ} 33' W$ 72.7 varas, N $0^{\circ} 21' W$ 37.6 varas, and
N $29^{\circ} 29' E$ 77.4 varas; a windmill on a hill South of Best bears
N $53^{\circ} 56' W$; another windmill on the South side of State Highway No.
10 bears N $5^{\circ} 08' 30'' W$.

Thence North --- at 15.5 varas pass under a 3-wire East-West power
line --- at 307 varas cross a very old East-West road --- at 468.6
varas pass under a telephone line --- at 471.5 varas set a 60d hub
nail in a small rock mound in the middle of an East-West road --- at
1470 varas point on the SW edge of a mesquite covered drain running
SE --- at 1600 varas point on the NE edge of the same drain --- at
1620 varas cross another old road running NW and SE --- at 1719 varas
cross the old Big Lake-Best Highway --- at 1760.1 varas set a 60d hub
nail in a small rock mound in center between rails of the Santa Fe and
Panhandle Railroad running N $65^{\circ} 10' W$ - S $65^{\circ} 10' E$ --- at 1906.1
varas strike the SE corner of section #6, Block 8, and the SW corner
of section #1, Block 11.

Thence East 1900.0 varas to the place of beginning.

Surveyed August 30, 1935.

Mag. Declination 11° 13' East.
True North is 0° 35' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in REAGAN County, Texas, on the drainage of a shallow flat Creek, a tributary of the basin of Big Lake, about 3 miles S 70°W of Big Lake, the County Site.

Beginning at the SE corner of section #15, this Block.

Thence East 1900.0 varas to a point in the West end of the basin of Big Lake, for the SE corner of this section #16.

Thence North --- at 94.6 varas set a 60d hub nail --- at 245.9 varas cross an East-West 5-wire fence --- at 500 varas North edge of thick mesquites --- at 1028 varas cross a road running NE and SW --- at 1039 varas point on the North edge of a wide flat drain which runs East into the basin of Big Lake --- at 1194.0 varas set a 60d hub nail in a small rock mound --- at 1906.1 varas strike the concrete monument set for the SW corner of section #8, situated on a level prairie which slopes south-easterly toward Big Lake, being 35 varas South of and East-West 3-wire power line, its brass plate in top having been stamped as is represented in the figure above, from which a double mesquite 7 inches in diameter marked "T" bears N 71° 55' W 33.6 varas; a windmill on the horizon bears N 15° 43' W about 800 varas; another mesquite 4 inches in diameter marked "F" bears N 14° 53' E 28.9 varas; the elevated water tower at the town of Big Lake bears N 78° 08' E; a small windmill on the South side of the basin of Big Lake bears S 35° 07' E; a windmill near an elevated tank at a house bears S 53° 59' W; a 4-inch mesquite marked "X" bears S 70° 59' W 27.0 varas.

Thence West --- at 438.4 varas set a 60d hub nail in a small rock mound in prairie sloping South toward Big Lake --- at 1772.2 varas cross a 6-wire fence running S 0° 20' E - N 0° 20' W --- at 1773.3 varas set a 60d hub nail in a small rock mound --- at 1900.0 varas strike the SE corner of section #10, being the NE corner of section #15.

Thence South 1906.1 varas to the place of beginning.

Surveyed September 2, 1935.

Robert A. Leidecker } Chainmen.
Jim Howard King }
Norris B. Creath } Transitman.

I, Frank F. Friend, Licensed Land Surveyor of Texas and Special Surveyor of University Lands, do hereby certify that the foregoing survey was made by me in the field and according to law; that the limits, boundaries, and corners, with the marks, natural and artificial, are truly described in the foregoing plat and field notes, just as I found them on the ground; and that they are recorded in the Surveyor's Records in Big Lake, Texas, Reagan County in Book UT Vol. R-2 page 16

FIELD NOTES of a survey of

664.1

ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Mag. Declination 11° 10' East.

True North is 0° 36' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in REAGAN County, Texas, on the drainage of a shallow flat Creek, a tributary of the basin of Big Lake, about 2 miles S 21° W of Big Lake, the County Site.

Beginning at a point near the East end of the basin of Big Lake, the SE corner of section #18, this Block.

Thence West 1961.6 varas to a point very near the geographical center of the basin of Big Lake, the SE corner of section #17.

Thence South --- at about 1331.1 varas cross the South shore line of the basin of Big Lake --- at 1906.1 varas point for the SW corner of this section #19.

Thence East --- at 428 varas cross a drain running NE into Big Lake --- at 945.7 varas cross at about right angles a 24-inch net wire fence having 3 barbed wires above the net, about 200 varas North of the SW corner of a pasture --- at 1972.3 varas set a concrete monument for the SE corner of this section #19, being 25.3 varas West of the West right-of-way fence along the Ozona-Big Lake graded road, being on a mesquite covered prairie sloping East, stamped the brass plate in top of the monument as is represented in the figure above, from which a mesquite 7 inches in diameter marked "T" bears N 17° 01' W 98.1 varas; a windmill bears N 62° 29' E about 3/4 mile; a steel windmill on the horizon bears S 89° 39' E; a corner post at the SE corner of a pasture bears S 8° E 190.3 varas; the J. W. Young Oil Test Well No. 1 bears S 52° 25' E; a concrete monument set for the NW corner of section #3, Block 49, University Land, bears East 3274.6 varas and South 1267.3 varas; a stone marked "SW 228" set by Surveyor Garden for the SW corner of survey #228, Block 1, T. & P. RR. Co. Lands, bears East 3391.6 varas and North 871.8 varas.

Thence N 0° 19' 20" W --- at 346.1 varas cross the East-West shore line near the SE end of the basin of Big Lake --- at 956.1 varas leave the basin of Big Lake --- at 1906.1 varas the place of beginning.

Surveyed September 2, 1935.

FIELD NOTES of a survey of
641.5 ACRES of land made for THE
UNIVERSITY OF TEXAS by virtue of an
ACT approved March 29, 1929.

Mag. Declination 11° 11' East.
True North is 0° 35' 30" to the left of the North point used in
the Field notes of this survey.

Said survey is situated in REAGAN County, Texas,
on the drainage of a shallow, flat Creek, a tributary of the basin of Big Lake,
about 3 miles S 53° W of Big Lake, the County Site.

Beginning at a concrete monument set in a mesquite covered prairie
sloping North, for the SW corner of section #20, this Block, its
brass plate in top having been stamped as is represented in the
figure above, from which an earth mound containing broken glass bears
N 37° 47' E 54.3 varas; the water tower in the town of Big Lake bears
N 43° 29' E; a mesquite 8 inches in diameter marked "T" bears
N 44° 56' E 14.6 varas; another mesquite 4 inches in diameter marked
"X" bears N 19° 23' W 10.4 varas; a steel windmill near State Highway
No. 10 bears N 3° 10' W.

Thence North --- at 996.1 varas set a 60d hub nail in a small rock
mound in a mesquite covered prairie sloping North, about 35 varas
West of the head of a ravine running NW, from which a windmill at
an elevated tank at a ranch house bears N 58° 51' W about 3/4 mile; a
small steel windmill bears N 56° 11' 30" W about 3/4 mile; a windmill
on the horizon bears N 4° 00' W about 2 miles --- at 1200 varas and
at 1205.1 varas cross buried pipe lines --- at 1400 varas point on
the South side of a drain running East into Big Lake --- at 1600 varas
enter thick mesquite brush --- at 1650 varas cross a new East-West
fence --- at 1889 varas point on the North edge of a ravine --- at
1906.1 varas strike the SW corner of section #17 and the SE corner of
section #16.

Thence West 1900.0 varas to the SE corner of section #15.

Thence South 1906.1 varas to a point in the bed of a ravine running
North for the SW corner of this section #21.

Thence East --- at 550 varas cross a ravine running North --- at
1269 varas cross a very old North-South road --- at 1900.0 varas the
place of beginning.

Surveyed September 3, 1935.

Robert A. Leidecker } Chainmen.

U	T

Mag. Declination 11° 06' East.

True North is 0° 34' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in REAGAN County, Texas, on the drainage of a shallow, flat Creek, a tributary of the basin of Big Lake, about 6 miles S 42° W of Big Lake, the County Site.

Beginning at a point, the SW corner of section #33, this Block, from which a galvanized iron pipe driven in a stone mound on the point of a hill projecting North bears East 27.3 varas and North 6.6 varas.

Thence North 1906.1 varas to the SE corner of section #27 and the SW corner of section #28.

Thence West 1900.0 varas to the SE corner of section #26.

Thence South 1906.1 varas set a concrete monument on a prairie sloping SE for the SW corner of this section #34, stamped its brass plate in top as is represented in the figure above, from which a mesquite 4 inches in diameter marked "F" bears N 13° 31' E 29.5 varas; a mesquite 10 inches in diameter marked "X" bears S 40° 41' E 98.3 varas; another mesquite 9 inches in diameter marked "T" bears S 1° 53' W 45.7 varas.

Thence East --- at 470 varas cross a mesquite and grass covered drain running NE --- at 920 varas cross another drain running NE --- at 1419.5 varas cross a 24-inch net wire fence having 4 barbed wires above the net, which courses S 3° 10' W - N 3° 10' E --- at 1580 varas cross another ravine running North --- at 1900.0 varas the place of beginning.

Surveyed September 3, 1935.

SECTION No. 36
BLOCK No. 11

REAGAN County } FIELD NOTES of a survey of
641.5 ACRES of land made for THE UNIVERSITY OF TEXAS by virtue of an ACT approved March 29, 1929.

Mag. Declination 11° 09' East.
True North is 0° 33' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in REAGAN County, Texas, on the drainage of a shallow, flat Creek, a tributary of the basin of Big Lake, about 7 miles S 54° W of Big Lake, the County Site.

Beginning at the SW corner of section #35, this Block.
Thence North 1906.1 varas to the SE corner of section #25, being the SW corner of section #26.
Thence West 1900.0 varas to the SW corner of said section #25, being also the SE corner of section #30 and the NE corner of section #31, Block 8, University Land.

Thence South 1906.1 varas to the concrete monument set for the NE corner of section #1, Block 7, being the SE corner of section #31, Block 8, and the SW corner of this section #36, situated in a prairie sparsely covered by mesquite trees, on the North side, and near the head of a low flat grassy drain which runs East into the basin of Big Lake, being 85 varas West of the Big Lake-Powell Oil Field Highway, stamped the brass plate in top as is represented in the figure above, from which a new windmill put in by the County bears N 7° 00' E 236.6 varas; an earth mound containing broken glass bears N 38° 16' E 50 varas; a seismograph test hole bears S 69° 35' E 22.6 varas; a 3/4-inch black iron pipe in a stone mound bears S 59° 37' E 19.6 varas; Highlonesome Windmill bears N 56° 46' W; a stone mound near the center of the bed of the drain, cemented in place, one rock in center marked "X", known since 1925 as "Granddaddy Corner," bears S 40° 10' E 173.6 varas; a large stone mound containing one large rock upon which there are various inscriptions, and in which mound there was in the year 1907 a horse shoe and a broken beer bottle, known as "Horseshoe Corner," identified as the NE corner of section #1, Georgetown Railroad Company, on which is Grierson Spring, bears West 9,500.0 varas.

Thence East --- at 85 varas center line of the Powell Oil Field Highway --- at 94.7 varas pass through at about right angles a 36-inch net wire fence having 3 barbed wires above the net --- at 375 varas cross a drain running NE --- at 1681 varas cross a road running parallel to the pipe line --- at 1690 varas cross a buried pipe line running S 9° 56' W - N 9° 56' E --- at 1900.0 varas the place of beginning.

NOTE: The cemented mound mentioned above as "Granddaddy Corner" was found by the writer in company with three oil company groups of employees, the Humble, the Sinclair, and the California crews, and when found appeared to be a typical block corner by R. M. Thomson, being as near as possible a "stone mound 6 feet at base and 3 feet high." At that time the writer saw this mound "tied in." It has been reported that this mound was removed bodily, and that the Sinclair engineer, in company with the California engineer, set the cemented mound in the exact spot of the original. This cemented mound is evidently the original common corner of Blocks 7, 8, 11, and 12, University Land.

FIELD NOTES of a survey of

ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Mag. Declination $11^{\circ} 14'$ East.True North is $0^{\circ} 33' 30''$ to the left of the North point used in the Field notes of this survey.Said survey is situated in REAGAN County, Texas, on the drainage of a shallow, flat Creek, a tributary of the basin of Big Lake, about 9 miles S $43^{\circ} W$ of Big Lake, the County Site.

Beginning at the SE corner of section #1, the NE corner of section #11, Block 7, University Land, being the SW corner of section #6, this Block.

Thence South 1900.0 varas to the concrete monument set on the West side of a ravine running South, being about 200 varas West of the low drain at the bottom of same, for the SE corner of said section #11, Block 7, being the NE corner of section #12, same Block, and the SW corner of this section #7, its brass plate in top having been stamped as is represented in the figure above, from which a mesquite 3 inches in diameter marked "T" bears S $15^{\circ} 38'$ E 28.2 varas; another mesquite 3 inches in diameter marked "F" bears S $1^{\circ} 56'$ W 75.4 varas; a wooden windmill bears N $61^{\circ} 44' 30''$ W about 1/2 mile; an earth mound containing broken glass bears N $9^{\circ} 43'$ E 50 varas.

Thence East 1900.0 varas to a point for the SE corner of this section #7.

Thence North 1900.0 varas to the SW corner of section #5 and the SE corner of section #6.

Thence West 1900.0 varas to the place of beginning.

Surveyed September 4, 1935.

Mag. Declination 11° 17' East.
 True North is 0° 34' 30" to the left of the North point used in the Field notes of this survey.
 Said survey is situated in REAGAN County, Texas, on the drainage of Howard Creek, a tributary of the Pecos River, about 8 miles S 28°W of Big Lake, the County Site.

Beginning at the SW corner of section #15, this Block.

Thence North 1900.0 varas to the NW corner of said section #15, being the SE corner of section #9 and the SW corner of section #10.

Thence West 1900.0 varas to the concrete monument set for the SE corner of section #8, situated on the SE foot of a cedar covered point projecting East, near the edge of the valley, its brass plate in top having been stamped as is represented in the figure above, from which an "X" cut on the face of a fixed rock bears S 31° 12' W 33.0 varas; an earth mound containing broken glass bears S 57° 13' W 50 varas; a rock standing on end marked "X" bears S 60° 51' W 16.6 varas; a windmill at a house bears S 68° 00' E about 2 miles.

Thence South --- at 210 varas point in the bottom of a mesquite covered drain running East --- at 1005.1 varas set a 60d hub nail in a small rock mound, from which a windmill near a house bears N 24° 57' W about 1 mile --- at 1435 varas point in the bottom of a deep canyon running East --- at 1872.6 varas set another 60d hub nail in a small rock mound --- at 1900.0 varas point for the SW corner of this section #16.

Thence East 1900.0 varas to the place of beginning.

Surveyed September 5, 1935.

 FIELD NOTES of a survey of
 ACRES of land made for THE
 UNIVERSITY OF TEXAS by virtue of an
 ACT approved March 29, 1929.
Mag. Declination $11^{\circ} 17'$ East.
 True North is $-0^{\circ} 36'$ to the left of the North point used in
 the Field notes of this survey.

 Said survey is situated in CROCKETT AND REAGAN County, Texas,
 on the drainage of Howard Creek, a tributary of the Pecos River,
 about 30 miles N 33° W of Oznana, the County Site of Crockett County; and
 about 8 miles S 12° W of Big Lake, the County Site of Reagan County.

Beginning at a concrete monument set on the NW side of a rocky cedar
 covered hill for the SE corner of section #22, this Block, its brass
 plate in top having been stamped as is represented in the figure above,
 from which a letter "F", a letter "X", a letter "T", and a letter "H"
 cut in the faces of fixed rocks bear respectively N $55^{\circ} 27'$ E 10.8
 varas, S $52^{\circ} 32'$ E 25.2 varas, S $20^{\circ} 25'$ E 19.0 varas, and N $32^{\circ} 35'$ W
 7.4 varas.

Thence East 1900.0 varas to a point for the SE corner of this section
 #23.

Thence North --- at 1430.2 varas cross the Crockett-Reagan County Line
 --- at 1900.0 varas strike the south common corner of sections Nos. 13
 and 14.

Thence West, following the South line of said section #14, 1900.0 varas
 to the SE corner of section #15.

Thence South, with the East line of section #22, --- at 220.4 varas set
 a 60d hub nail among cedar bushes --- at 484.0 varas recross the Crockett-
 Reagan County Line --- at 760 varas point in the center of a valley
 155 varas wide in a canyon running NE --- at 1268.8 varas set another
 60d hub nail in a small rock mound among cedar bushes --- at 1760 varas
 point on the NW edge of a valley in a canyon running NE --- at 1775
 varas point on the SE edge of the same valley --- at 1900.0 varas the
 place of beginning.

NOTE: Of this survey, there are 479.0 acres in Crockett County; and
 160.5 acres in Reagan County.

the Field notes of this survey.Said survey is situated in CROCKETT AND REAGAN County, Texas,
on the drainage of Howard Creek, a tributary of the Pecos River,
about 30 miles N 32° W of Ozona, the County Site of Crockett; and
about 8 miles S 5° W of Big Lake, the County Site of Reagan Co.Beginning at the common corner of sections Nos. 13, 14, and 23, this
Block.Thence East, with the South line of said section #13, 2026.1 varas to
the SE corner of same, for the NE corner of this section #24,

--- at
Thence S 0° 19' 20" E 454.7 varas cross the Crockett-Reagan County Line,
from which a county line rock 16" x 10" x 1" marked and set by H. B.
Tarver in 1904, marked "R COL 11 M W", bears N 89° 34' 20" E 754.1 varas;
another county line marker, the SW corner of Reagan County, set by the
same surveyor at the same time, bears S 89° 34' 20" W 34,725.8 varas
--- at 1900.0 varas set a concrete monument on the NE foot of a cedar
hill about 100 varas West of a large drain running SE toward Howard Creek
for the SE corner of this section #24, stamped its brass plate in top as
is represented in the figure above, from which a windmill on divide bears
S 47° 01' E; a mesquite 8 inches in diameter marked "U" bears S 3° 35' W
67.1 varas; a bumper gate across the Ozona-Big Lake graded road bears
S 14° 35' W 177.4 varas; an "X" cut on a fixed rock bears N 59° 27' W
22.5 varas; a mesquite 10 inches in diameter marked "T" and another
double mesquite 6 inches in diameter marked "F" bear respectively
N 10° 53' E 49.5 varas and N 59° 18' E 10.0 varas.

Thence West 2036.9 varas to the SE corner of section #23.

Thence North --- at 1430.2 varas recross the Crockett-Reagan County Line
--- at 1900.0 varas the place of beginning.NOTE: Of this survey, there are 517.7 acres in Crockett County; and
166.0 acres in Reagan County.

Surveyed September 9, 1935.

SECTION No. 25

BLOCK No. 12

FIELD NOTES of a survey of

687.4

ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Mag. Declination 11° 18' East.

True North is 0° 36' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Howard Creek, a tributary of the Pecos River, about 29 miles N 33°W of Ozona, the County Site.

Beginning at a concrete monument set at the NE foot of a cedar covered hill about 100 varas West of a large drain running SE for the SE corner of section #24, this Block, its brass plate in top having been stamped as is represented in the figure above, from which a windmill on divide bears S 47° 01' E; a mesquite 8 inches in diameter marked "U" bears S 3° 35' W 67.1 varas; a bumper gate across the Ozona-Big Lake graded road bears S 14° 35' W 177.4 varas; an "X" cut on a fixed rock bears N 59° 27' W 22.5 varas; a mesquite 10 inches in diameter marked "T" and another double mesquite 6 inches in diameter marked "F" bear respectively N 10° 53' E 49.5 varas and N 59° 18' E 10.0 varas.

Thence S 0° 19' 20" E 1900.0 varas to a point for the SE corner of this section #25.

Thence West 2047.7 varas to a point for the SW corner of this section #25.

Thence North 1900.0 varas to the SE corner of section #23 and the SW corner of section #24.

Thence East, with the south line of said section #24, 2036.9 varas to the place of beginning.

Surveyed September 9, 1935.

 639.1 ACRES of land made for THE
 UNIVERSITY OF TEXAS by virtue of an
 ACT approved March 29, 1929.

Mag. Declination 11° 23' East.
 True North is 0° 35' to the left of the North point used in
 the Field notes of this survey.
 Said survey is situated in CROCKETT County, Texas,
 on the drainage of Howard Creek, a tributary of the Pecos River,
 about 29 miles N 37° W of Ozona, the County Site.

Beginning at a point in valley at the SE corner of section #33, this Block.

Thence N 89° 37' ^{44"}~~34"~~ E, crossing the point of a hill projecting South, then a small valley running South, and another large ridge projecting South to a point in the upper end of a box canyon running South, where was set a concrete monument having numerous rocks placed around it, being 13 varas West of the foot of a rocky hill, 40 varas East of a drain and 70 varas East of the foot of another hill, and 18 varas South of the foot of a third hill, stamped its brass plate in top as is represented in the figure above, from which a mesquite 8 inches in diameter bears S 20° W 65 varas; another mesquite 10 inches in diameter bears S 1° 40' E about 90 varas; a cedar clump 8 feet high bears N 33° 45' W 63 varas; a 3-inch mesquite, marked "T" bears S 33° 35' W 33.4 varas; another 3-inch mesquite marked "X" bears N 80° 25' W 40.1 varas; a letter "T" and a letter "F" cut on the face of fixed rocks bear respectively N 9° 44' E 36.4 varas and N 55° 27' E 36.3 varas. An East-West fence passes North of the monument 71.5 varas.

Thence North 1892.7 varas to the south common corner of sections Nos. 26 and 27.

Thence West 1900.0 varas to the SE corner of section #28.

Thence South 1905.0 varas to the place of beginning.

Surveyed September 9, 1935.

Robert A. Leidecker } Chainmen.
 Jim Howard King }
 Norris B. Creath } Transitman.

I, Frank F. Friend, Licensed Land Surveyor of Texas and Special Surveyor of University Lands, do hereby certify that the foregoing survey was made by me in the field and according to law; that the limits, boundaries, and corners, with the marks, natural and artificial, are truly described in the foregoing plat and field notes, just as I found them on the ground; and that they are recorded in the Surveyor's Records in Ozona, Texas, Crockett County in Book UT Vol. C-1 page 70
 This 9th day of September, 1936.

FIELD NOTES of a survey of

650.0 ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Mag. Declination 11° 46' East.

True North is 0° 23' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Live Oak Creek, a tributary of the Pecos River, about 46 miles N 60°W of Ozona, the County Site.

Beginning at the common corner of sections Nos. 1 and 2 and 5, this Block, from which point a stone mound bears North 7.4 varas and West 5.1 varas.

Thence S 0° 11' 40" W 1929.6 varas to the SE corner of said section #5.

Thence S 89° 48' 20" E 1900.8 varas to an old rock mound found and identified by the writer in the year 1907 as being the original SE corner of this section #6, in which rock mound a 2-inch pipe has recently been driven marked "SE 6" situated on a rocky prairie sloping NE, from which five large rocks on the SE side of the old government road bear N 22° 40' E 271 varas.

Thence N 0° 14' 20" E --- at 190 varas point in the center of the old government road running N 60° E - S 60° W --- at 469.6 varas cross an old East-West road along the North edge of a brushy area --- at 979.6 varas point in the North edge of a cedar covered slope --- at 1355.6 varas point in the SE edge of a drain running NE --- at 1379.6 varas point in the NW edge of the same drain --- at 1929.6 varas strike the concrete monument set for the SW corner of section #36, Block 5, University Land, being the SE corner of section #1, this Block, said monument having been set in the center of an old rock mound found and identified by the writer in 1907 as being the original NE corner of this section #6, situated on the East side of a North-South road and on the West side of a small valley running North, being 39.6 varas East of a North-South 36-inch net wire fence having 2 barbed wires above the net, stamped the brass plate in top of the monument as is represented in the figure above, from which a windmill bears S 27° 52' 20" W about 600 varas; another windmill bears N 25° 06' 50" E about 1600 varas; a windmill near the North line of Block 5 bears N 28° 20' 20" E; an earth mound containing broken glass bears S 73° 20' E 50 varas.

Thence N 89° 48' 20" W --- at 300 varas point on the East side of a hill --- at 669.1 varas set a 60d hub nail in a small rock mound among lechiguilla and sacahuiste grass --- at 873 varas point in the NE edge of a canyon running SE --- at 1075 varas point in the SW edge of the same canyon --- at 1293.1 varas set another 60d hub nail in a small rock mound --- at 1902.3 varas the place of beginning.

Surveyed September 10, 1935.

FIELD NOTES of a survey of

640.0⁰⁰ ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Mag. Declination 11° 44' East.
True North is 0° 23' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Live Oak Creek, a tributary of the Pecos River, about 45 miles N 62° W of Ozona, the county Site.

Beginning at an old stone mound in a rocky prairie sloping NE in which there has recently been driven a 2-inch iron pipe marked "SE 6", said mound having been found and identified by the writer in the year 1907 as being the original NE corner of this section #7, and the SE corner of section #6, this Block, from which 5 large rocks on the SE side of the old government road bear N 22° 40' E 271 varas.

Thence S 0° 11' 40" W --- at 920 varas point on the NE edge of a wide drain running NW --- at 1170 varas point on the SW edge of the same drain --- at 1900.8 varas set a concrete monument in a smooth cedar covered valley running West, 20.1 varas North of an East-West 36-inch net wire fence having 3 barbed wires above the net, for the SE corner of this section #7, stamped the brass plate in top of the monument as is represented in the figure above, from which the center of a cedar covered mound on the horizon bears N 59° 18' W; an earth mound containing broken glass bears N 62° 11' E 15 varas; a stone mound 2.8 varas South of the East-West fence bears S 39° 03' E 29.7 varas; a windmill, of which the wheel only is visible, bears S 79° 53' 40" W.

Thence N 89° 48' 20" W 1900.8 varas to a point for the SW corner of this section #7.

Thence N 0° 11' 40" E 1900.8 varas to the South common corner of sections Nos. 5 and 6.

Thence S 89° 48' 20" E 1900.8 varas to the place of beginning.

Surveyed September 10, 1935.

THE STATE OF TEXAS) Section No. 1
CROCKETT County) Block No. 14

FIELD NOTES of a survey of 667.2 ACRES of land made for THE UNIVERSITY OF TEXAS by virtue of an ACT approved March 29, 1929.

Fig. #1.

Fig. #2.

Mag. Declination 12° 00' East.

True North is 0° 32' 30" to the left of the North point used in the Fieldnotes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Cedar Canyon, a tributary of the Pecos River, about 51 miles N 63° W of Ozona, the County Site.

Beginning at an old stone monument 4 feet at base and 1 foot high near the North edge of valley of Cedar Canyon which runs West, about 50 varas South of the foot of a high hill and 12 varas South of a road running northwesterly-southeasterly connecting the Rankin Highway with a ranch house, being the same monument found and identified by the writer in the year 1907, and has been continually recognized by all surveyors and land owners as being the original NE corner of this section #1, from which monument the East end of the old Pontoon Bridge, said point being identified by pieces of chain anchored in the bank of the river, bears South 6313.0 varas and West 7044.3 varas; a concrete monument recently set for the NW corner of section #3, Block 13, University Land, bears North 1528.5 varas and East 3741.2 varas; a concrete monument having its brass plate in top stamped as is represented in figure No. 1 above, recently set as a witness to the stone monument, bears N 24° W 1.2 varas. From the concrete, or witness monument the North tip of a cap rock bears N 66° 26' W; an earth mound containing broken glass bears S 63° 08' W 5.6 varas; a letter "T" cut on top of a large boulder bears N 31° 37' W 94 varas; a similar letter "F" cut on a large flat rock bears N 35° 22' E 51.3 varas; the North side of a curve at a bulging cap rock on top of a round hill bears S 81° 37' E; the extreme tip of a cap rock barely visible over a low hill bears S 71° 19' E; a windmill bears S 70° 54' 30" E about 550 varas; the SW edge of Cap Rock Hill bears S 42° 45' E; the center of a natural letter "U" about 65 varas wide and as high as the steep mountain side, formed by two gulches, the bottoms of which being thickly covered with black brush, starting at the summit (rim rock) and coursing down the otherwise bare hill side, each curving to form a junction at the foot of the mountain side, bears N 14° 30' E about 150 varas.

Thence N 89° 53' 53" W --- at 110.7 varas a 1 1/4-inch galvanized iron pipe in a stone mound bears South 0.3 vara --- at 454 varas cross to the South side of a fence running about S 80° E - N 80° W, about 70 varas easterly from where the fence turns West --- at 1916.5 varas a 2-inch galvanized iron pipe in a small stone mound bears South 49.5 varas --- at 1924.5 varas point for the NE corner of this section #1.

Thence South, ascending a steep mountain side, 1951.4 varas to a point on the West upper rim of the middle shelf of high hill, from which a 1 1/4-inch galvanized iron pipe in a stone mound bears South 0.2 vara, the SW corner of this section #1.

(Fieldnote of section #1, Block 14, concluded)

Thence S 89° 53' 53" E --- at 475 varas point on the West rim of the extreme top of a very high hill --- at 630 varas point on the East rim of the same hill --- at 1480 varas point on the East rim of the middle shelf of the same hill --- at 1936.0 varas strike an old rock monument, composed of 14 rocks weighing about 10 pounds each, stacked around a large stone 3" x 12" x 18" standing on end, situated in the head of a canyon running North into Cedar Canyon, said stone monument having been found and identified by the writer in the year 1907, and is still recognized by all surveyors and land owners as being the original SE corner of this section #1, from which monument a perpendicular cap rock in the SW end of a point of mountain bears S 8° 05' E; a red and white striped pipe 3 inches in diameter and 10 feet high bears N 9° 14' 30" E about 3300 varas; an "X" cut on a fixed rock bears S 49° 27' E 14.2 varas; a brass plate cemented in solid rock and marked as is represented in figure No. 2 on the preceding page bears S 0° 49' E 9.6 varas; a letter "F" cut on top of the right hand part of a large broken boulder bears S 57° 17' W 37.3 varas; the extreme cap rock tip on the West end of a high hill bears N 22° 58' W.

Thence N 0° 20' 16" W --- at 1574.4 varas point from which a stone mound, in which is driven a 1 1/2-inch galvanized iron pipe with a collar on top, bears West 1.6 varas --- at 1873.0 varas cross a 36-inch net wire fence having 2 barbed wires above the net, running about S 80° E - N 80° W --- at 1951.4 varas the place of beginning.

Surveyed September 13, 1935.

669.2

ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Fig. #1. Mag. Declination 11° 57' East.

True North is 0° 32' to the left of the North point used in the Field notes of this survey.

Said survey is situated on the drainage of about 52 miles N 63° W of Ozona, the County Site. CROCKETT Creek, a tributary of the Pecos River, County, Texas.

Beginning at the NW corner of section #1, this Block.

Thence N 89° 53' 53" W --- at 1515 varas cross the NW foot of a high hill --- at 1936.0 varas set a concrete monument in valley among greasewood and small mesquite bushes 15.0 varas North of an East-West 36-inch net wire fence having 2 barbed wires above the net and about 400 varas NW of the NW point of a high hill, stamped the brass plate in top as is represented in figure No. 1 above, from which the South end of Table Top Mountain bears N 51° 22' W; the North end of the same mountain bears N 49° 28' W; a red and white striped iron pipe 3 inches in diameter set in concrete on a high mesa bears N 82° 00' 30" E; the North edge of a perpendicular ledge on a round hill bears S 86° 40' E; a 1 1/4-inch galvanized iron pipe in a stone mound bears S 33° 30' E 53.4 varas; a mesquite 6 inches in diameter marked "X" bears S 62° 33' W 31.0 varas.

Thence South --- at 410 varas pass about 100 varas West of the West foot of a high rocky point of hill --- at 1951.4 varas set another concrete monument in valley 15 varas South of a pronounced mesquite mott and about 1/2 mile North of the center of an isolated hill, stamped the brass plate in top of the monument as is represented in figure No. 2 above, from which a 1 1/4-inch glvanized iron pipe in a stone mound bears East 36.6 varas; the South end of a cap rock bears S 80° 37' E; the West end of a cap rock bears S 13° 37' W about 1400 varas; a mesquite marked "H", another marked "F", and a third marked "X", each 4 inches in diameter, bear respectively S 12° 46' E 25.9 varas, S 19° 01' W 21.4 varas, and S 30° 26' W 32.4 varas; the South end of a perpendicular ledge bears N 84° 13' W.

Thence S 89° 53' 53" E 1936.0 varas to a point on the West rim of the middle shelf of a high hill, the SW corner of section #1, from which point a 1 1/4-inch galvanized iron pipe in a stone mound bears South 0.2 vara.

Thence North, descending into valley, 1951.4 varas to the place of beginning.

Fig. #1. Mag. Declination 12° 00' East.
Fig. #2. True North is 0° 31' 30" to the left

of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Four-Mile Creek, a tributary of the Pecos River, about 53 miles N 63°W of Ozona, the County Site.

Beginning at the concrete monument set for the NW corner of section #2, this Block, being the NE corner of section #3, situated in a valley among thick greasewood and mesquite brush, about 400 varas NW of the point of a high hill, being 15.0 varas North of an East-West 36-inch net wire fence having 2 barbed wires above the net, the brass plate in top of the monument having been stamped as is represented in figure No. 1 above, from which the South end of Table Top Mountain bears N 51° 22' W; the North end of the same mountain bears N 49° 28' W; a red and white striped iron pipe 3 inches in diameter set in concrete on a high mesa bears N 82° 00' 30" E; the North edge of a perpendicular ledge on a round hill bears S 86° 40' E; a 1 1/4-inch galvanized iron pipe in a stone mound bears S 33° 30' E 53.4 varas; a mesquite 6 inches in diameter marked "X" bears S 62° 33' W 31.0 varas.

Thence North 1900.8 varas set another concrete monument in a valley among thick greasewood and black chaparral brush, stamped the brass plate in top as is represented in figure No. 2 above, from which the end of a projection on the North end of a point of hill bears N 68° 03' W; the SW end and the NE end of Table Top Mountain bear respectively N 58° 01' W and N 56° 05' W; a windmill bears N 28° 17' 30" E about 1 mile; an "X" cut on a 4-prong mesquite bears N 58° 47' E 8.1 varas; a 1 1/2-inch galvanized iron pipe driven in the ground bears S 86° 19' E 11 varas; a red and white striped iron pipe 3 inches in diameter and cemented in ground on top of high mesa bears S 73° 09' E; a mesquite marked "T", 4 inches in diameter, bears S 38° E 21 varas; a perpendicular cap rock bears S 8° 24' E about 1 1/4 miles.

Thence West 1924.0 varas to a point for the NW corner of this section #4.

Thence South 1900.8 varas to the NW corner of section #3.

Thence East 1924.0 varas to the place of beginning.

Surveyed September 13, 1935.

FIELD NOTES of a survey of

647.8 ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Mag. Declination 12° .05' East.

True North is 0° 31' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Four-Mile Creek, a tributary of the Pecos River, about 53 miles N 62° W of Ozona, the County Site.

Beginning at a concrete monument set in a valley among thick greasewood and chaparral brush for the NE corner of section #4, this Block, the brass plate in top of the monument having been stamped as is represented in the figure above, from which the end of a projection on the North end of a point of hill bears N 68° 03' W; the SW end of Table Top Mountain and the NE end of the same mountain bear respectively N 58° 01' W and N 56° 05' W; a windmill bears N 28° 17' 30" E about 1 mile; an "X" cut on a 4-prong mesquite bears N 58° 47' E 8.1 varas; a 1 1/2-inch galvanized iron pipe driven in the ground bears S 86° 19' E 11 varas; a red and white striped iron pipe 3 inches in diameter and cemented in ground on top of high mesa bears S 73° 09' E; a mesquite marked "T", 4 inches in diameter, bears S 38° E 21 varas; a perpendicular cap rock bears S 8° 24' E about 1 1/4 miles.

Thence North, over level prairie, 1900.8 varas to a point for the NE corner of this section #5.

Thence West 1924.0 varas to a point for the NW corner of this section #5.

Thence South 1900.8 varas to the NW corner of section #4.

Thence East 1924.0 varas to the place of beginning.

Surveyed September 13, 1935.

FIELD NOTES of a survey of

647.8 ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Fig. #1. Mag. Declination 12° 05' East.

True North is 0° 31' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT & UPTON County, Texas, on the drainage of Four-Mile Creek, a tributary of the Pecos River, about 54 miles N 61° W of Ozona, the County Site of Crockett County, and about 11 miles S 21° W of Rankin, the County Site of Upton County.

Beginning at the NE corner of section #5, this Block.

Thence North --- at 1158.1 varas cross the Crockett-Upton County Line, from which point the SW corner of Reagan County as described in the re-survey fieldnotes of section #19, Block 5, University Land, Crockett, Reagan, and Upton Counties, bears S 89° 50' E 24,918.6 varas --- at 1235.8 varas point on the South edge above rim rock of a high hill overlooking the valley of Four-Mile Creek --- at 1900.8 varas buried a large stone 14" x 12" x 10" in ground with its upper face even with the top of soil, having cemented in its top a brass plate stamped as is represented in figure No. 1 above, situated on a flat top hill about 65 varas South of its North edge and about 100 varas NE of the brink of a deep canyon opening NW, from which brass plate an "X" cut on the face of a fixed rock bears S 67° 25' E 15.3 varas; the North tip of cap rock on North end of Mountain bears S 83° 40' W; the South end and the North end of Table Top Mountain bear respectively N 74° 34' W and N 72° 37' W; a 1 1/2-inch galvanized iron pipe driven in ground bears N 73° 31' W 25.5 varas; the West end of a projecting ledge bears N 33° 35' E about 1400 vrs.

Thence West --- at 81.6 varas set a 60d hub nail in a rock mound on the NE edge of a deep canyon running NW --- at 1432.7 varas set another 60d hub nail in a small rock mound --- at 1458 varas center line of the Rankin-Iraan Highway --- at 1475 varas pass under a 3-wire telephone line parallel to the highway --- at 1602.6 varas set another 60d hub nail in a small rock mound --- at 1760.7 varas cross a pipe line running North and South --- at 1924.0 varas set a concrete monument near the East edge of the valley of Four-Mile Creek, being at the NW foot of a low rock ridge, stamped the brass plate in top of the monument as is represented in the figure No. 2 above, from which a windmill bears S 10° 51' W about 1 mile; another windmill bears S 54° 33' W about 900 varas; Sugar Leaf Mountain bears N 76° 25' W; the South end and the North end of Table Top Mountain bear respectively N 71° 30' W and N 69° 04' W; a mesquite 4 inches in diameter marked "F" and another 10 inches in diameter marked "T", the latter having 4 pieces of broken monuments stacked around it, bear respectively N 25° 37' W 29.0 varas and N 68° 15' E 76.7 varas; a 1 1/4-inch galvanized iron pipe driven in ground bears N 81° 07' E 22.0 varas.

Thence South --- at 736.3 varas recross the Crockett-Upton Co. Line, from which intersection a triangular rock 8"x5" set in ground marked "COL 14 M", having 4 smaller rocks stacked around it, identified as the County Line marker set by R. W. Cushman, bears S 89° 31' 10" E 141.9 varas --- at 1900.8 varas strike the NW corner of section #5.

Thence East 1924.0 varas to the place of beginning.

NOTE: Of this survey, there are 395.6 acres in Crockett County, and 252.2 acres in Upton County.

Surveyed September 13, 1935.

FIELD NOTES of a survey of

647.8

ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Fig. #1. Mag. Declination 12° 05' East.
True North is 0° 31' 30" to the left

of the North point used in the Field notes of this survey.

Said survey is situated in UPTON County, Texas, on the drainage of Four-Mile Creek, a tributary of the Pecos River, about 10 miles S 23°W of Rankin, the County Site.

Beginning at a large rock 14"x12"x10" buried in the ground with its top face even with the soil on top of a flat top hill, being about 65 varas South of the North edge of the hill and about 100 varas NE of the brink of a deep canyon leading NW, there having been anchored in top of the stone a brass plate stamped as is represented in figure No. 1 above, from which an "X" cut on the face of a fixed rock bears S 67°25'E 15.3 varas; the North tip of cap rock on the North end of mountain bears S 83°40'W; the South end and the North end of Table Top Mountain bear respectively N 74°34'W and N 72°37'W; a 1 1/2-inch galvanized iron pipe driven in ground bears N 73°31'W 25.5 varas; the West end of a projecting ledge bears N 33°35'E about 1400 varas. This is the NE corner of section #6, this Block, and the SE corner of this section #7.

Thence West --- at 81.6 varas set a 60d hub nail in a rock mound on the NE brink of a deep canyon leading NW --- at 1432.7 varas set another 60d hub nail in a small rock mound --- at 1458 varas point in center of the Rankin-Iraan Highway running nearly North and South --- at 1475 varas pass under a 3-wire telephone line parallel to the highway --- at 1602.6 varas set another 60d hub nail in a small rock mound --- at 1760.7 varas cross a North-South pipe line --- at 1924.0 varas strike the concrete monument set for the NW corner of section #6, situated in the East edge of the valley of Four-Mile Creek, being near the NW foot of a low rocky ridge, its brass plate in top having been stamped as is represented in figure No. 2 above, from which a windmill bears S 10°51'W about 1 mile; another windmill bears S 54°33'W about 900 varas; Sugar Loaf Mountain bears N 76°25'W; the South end and the North end of Table Top Mountain bear respectively N 71°30'W and N 69°04'W; a mesquite 4 inches in diameter marked "F" and another 10 inches in diameter marked "T", the latter having 4 pieces of broken monuments stacked around it, bear respectively N 25°37'W 29.0 varas and N 68°15'E 76.7 varas; a 1 1/4-inch galvanized iron pipe driven in ground bears N 81°07'E 22.0 varas.

Thence North 1900.8 varas to a point for the NW corner of this section #7.

Thence East 1924.0 varas to a point on top of high hill for the NE corner of this section #7.

Thence South --- at 245 varas point on the South edge of the same hill --- at 1250 varas point in valley about 300 varas West of the foot of hill --- at 1835 varas point on rim rock at North edge of another high hill --- at 1900.8 varas the place of beginning.

Surveyed September 13, 1935.

SECTION No. 11

CROCKETT & UPTON County } BLOCK No. 14

FIELD NOTES of a survey of

647.8 ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Mag. Declination 12° 00' East.

True North is 0° 31' to the left of the North point used in
the Field notes of this survey.

Said survey is situated in CROCKETT & UPTON County, Texas,
on the drainage of Four-Mile Creek, a tributary of the Pecos River,
about 55 miles N 61° W of Ozona, the County Site of Crockett County, and
about 11 miles S 26° W of Rankin, the County Site of Upton County.

Beginning at a concrete monument set for the NW corner of section #6,
this Block, being the SW corner of section #7, and the SE corner of
section #10, situated in the East edge of the wide valley of Four-Mile
Creek near the NW foot of a rocky ridge, its brass plate in top having
been stamped as is represented in the figure above, from which a wind-
mill bears S 10° 51' W about 1 mile; another windmill bears S 54° 33' W
about 900 varas; Sugar Loaf Mountain bears N 76° 25' W; the South end
and the North end of Table Top Mountain bear respectively N 71° 30' W
and N 69° 04' W; two mesquites, the first 4 inches in diameter marked
"F" and the second 10 inches in diameter marked "T", the latter having
4 pieces of broken monuments stacked around it, bear respectively
N 25° 37' W 29.0 varas and N 68° 15' E 76.7 varas; a 1 1/4-inch gal-
vanized iron pipe driven in ground bears N 81° 07' E 22.0 varas.

Thence South --- at 736.3 varas cross the Crockett-Upton County Line,
from which intersection a triangular rock 8" x 5" marked "COL 14 M",
set in ground and surrounded by 4 smaller rocks, identified as a
County Line Marker set by R. W. Cushman on the South line of Upton
County bears S 89° 31' 10" E 141.9 varas. --- at 1900.8 varas strike the
NW corner of section #5.

Thence West 1924.0 varas to a point for the SW corner of this section
#11.

Thence North --- at 1180.6 varas recross the Crockett-Upton County
Line --- at 1900.8 varas strike the SW corner of section #10.

Thence East 1924.0 varas to the place of beginning.

NOTE: Of this survey, there are 399.6 acres in Crockett County, and
248.2 acres in Upton County.

Surveyed September 16, 1935.

FIELD NOTES of a survey of

647.8 ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Mag. Declination 11° 57' East.

True North is 0° 31' to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Four-Mile Creek, a tributary of the Pecos River, about 54 miles N 62°W of Ozona, the County Site.

Beginning at the common corner of sections Nos. 5, 6, and 11, this Block, for the NE corner of this section #12.

Thence South, with the West line of said section #5, 1900.8 varas to the SW corner of same.

Thence West 1924.0 varas set a concrete monument in the flat valley of Four-Mile Creek among thick greasewood brush being about 250 varas South of a thick mesquite mott and about 900 varas SW of an isolated hill, stamped its brass plate in top as is represented in the figure above, from which the East end of a projecting ledge bears N 45° 42' W; the North edge of a cap rock on highest hill and the South edge of same hill bear respectively N 74° 00' E and N 76° 21' E; a windmill bears N 57° 10' E about 3 miles; a red and white striped pipe 3 inches in diameter and 10 feet high, cemented in the ground on top of a high hill bears S 80° 56' E; a 2-inch galvanized iron pipe driven in ground bears S 33° 08' E 13.1 varas; an earth mound containing broken glass bears S 42° 02' W 41 varas.

Thence North 1900.8 varas to the SW corner of section #11.

Thence East 1924.0 varas to the place of beginning.

Surveyed September 16, 1935.

Robert A. Leidecker } Chainmen.
Jim Howard King }
Norris B. Creath } Transitman.

I, Frank F. Friend, Licensed Land Surveyor of Texas and Special Surveyor of University Lands, do hereby certify that the foregoing survey was made by me in the field and according to law; that the limits, boundaries, and corners, with the marks, natural and artificial, are truly described in the foregoing plat and field notes, just as I found them on the ground; and that they are recorded in the Surveyor's Records in Ozona, Texas, Crockett County in Book UT Vol. C-1 page 90 This 14th day of September, 1936.

Mag. Declination 11° 52' East.

True North is 0° 31' to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Four-Mile Creek, a tributary of the Pecos River, about 54 miles N 63°W of Ozona, the County Site.

Beginning at the SW corner of section #12, this Block, a concrete monument set in the wide valley of Four-Mile Creek among thick grease-wood brush, about 250 varas South of a mesquite mott and about 900 varas SW of an isolated hill for the NW corner of this section #13, its brass plate in top having been stamped as is represented in the figure above, from which the East end of a projecting ledge bears N 45° 42' W; the North edge of a cap rock on highest hill and the South edge of same hill bear respectively N 74° 00' E and N 76° 21' E; a windmill bears N 57° 10' E about 3 miles; a red and white striped pipe 3 inches in diameter and 10 feet high, cemented in the ground on top of a high hill bears S 80° 56' E; a 2-inch galvanized iron pipe driven in ground bears S 33° 08' E 13.1 varas; an earth mound containing broken glass bears S 42° 02' W 41 varas.

Thence South 1900.8 varas to a point for the SW corner of this section #13.

Thence East 1924.0 varas to the West common corner of sections Nos. 3 and 4.

Thence North 1900.8 varas to the SW corner of section #5 and the SE corner of section #12.

Thence West, following the South line of said section #12, 1924.0 varas to the place of beginning.

Surveyed September 16, 1935.

CROCKETT County } SECTION No. 15
 } BLOCK No. 14

FIELD NOTES of a survey of
 662.1 ACRES of land made for THE
 UNIVERSITY OF TEXAS by virtue of an
 ACT approved March 29, 1929.

Fig. #1. Mag. Declination 11° 45' East.
 True North is 0° 30' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in CROCKETT County, Texas, on the drainage of Four-Mile Creek, a tributary of the Pecos River, about 5/4 miles N 65° W of Ozona, the County Site.

Beginning at a concrete monument set for the SW corner of section #14, this Block, situated in the valley of Four-Mile Creek running SE among thick greasewood brush, being 1.5 varas North of an East-West road, its brass plate in top having been stamped as is represented in figure No. 1 above, from which the East end of a projecting ledge bears N 22° 07' W; an earth mound containing broken glass bears N 19° 50' E 27.4 varas; a 2-inch galvanized iron pipe driven in ground bears S 86° 06' E 13 varas; a drill hole in the top of a cap rock on a conical peak, known as Triangulation Station Old J, bears S 60° 37' E about 3 miles; a windmill bears S 57° 26' E about 2 miles.

Thence North 1944.6 varas to the NW corner of said section #14, being the SW corner of section #13, and the NE corner of this section #15.

Thence West 1924.0 varas to a point for the NW corner of this section #15.

Thence South --- at 41.5 varas pass through a 36-inch net wire fence having 3 barbed wires above the net running N 89° 26' E - S 89° 26' W, being 3 varas easterly from its junction with a North-South fence --- at 1941.1 varas set a concrete monument in center of an old stone mound accepted by surveyors and land owners as the original SW corner of this section #15, situated in a prairie sparsely covered with greasewood and mesquite bushes, being about 500 varas East of the foot of a high hill and 0.9 vara East of a North-South 36-inch net wire fence having 4 barbed wires above the net, stamped its brass plate in top as is represented in figure No. 2 above, from which a mesquite 4 inches in diameter marked "F" bears S 79° 26' E 32.3 varas; a drill hole in top of the cap rock on a conical peak, known as Triangulation Station Old J, bears S 66° 06' 06" E; a forked mesquite 10 inches in diameter, the South prong marked "U", bears S 48° 07' E 93.6 varas; a 2-inch galvanized iron pipe driven in ground bears S 32° 07' W 1.6 varas; the NE tip of a cap rock on highest hill bears N 51° 34' W; the South edge of the lower of two projecting ledges bears N 53° 04' E; a mesquite 4 inches in diameter marked "T" bears N 75° 08' E 23.4 varas.

Thence S 89° 53' 53" E --- at 40 varas pass through the North end of a mesquite and greasewood thicket --- at 800 varas point on the West edge of a low North-South hill --- at 910 varas point on top of the same hill --- at 1924.0 varas the place of beginning.

Surveyed September 16, 1935.

UPTON County } SECTION No. 19
BLOCK No. 14

647.8 ACRES of land made for THE UNIVERSITY OF TEXAS by virtue of an ACT approved March 29, 1929.

Mag. Declination 11° 52' East.
True North is 0° 30' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in UPTON County, Texas, on the drainage of Four-Mile Creek, a tributary of the Pecos River, about 11 miles S 33° W of Rankin, the County Site.

Beginning at a concrete monument set for the NW corner of section #18, this Block, on the top of a low rocky hill 49.8 varas East of a North-South fence, and 52.4 varas East of a 2-wire telephone line, its brass plate in top having been stamped as is represented in the figure above, from which Sugar Loaf Mountain bears N 69° 07' W; the South end and the North end of the cap rock on Table Top Mountain bear respectively N 59° 37' W and N 55° 23' W; a rock mound containing broken glass bears N 44° 02' W 20.3 varas; the East tip of the cap rock on Rattlesnake Mountain bears N 10° 55' W; a windmill about 200 varas East of a house bears N 4° 48' E; another windmill bears N 10° 26' E about 3 miles; a windmill near the NE corner of Block 15 and a steel windmill bear respectively N 20° 00' 30" E and S 76° 35' E about 1 1/2 miles; another windmill bears S 63° 21' E about 2 1/4 miles; the SE end of a projecting ledge on a high hill bears S 28° 10' W; a 1 1/4-inch galvanized iron pipe driven in ground bears S 78° 00' W 53.6 varas; the East end of a fence bears S 81° 58' W 50.3 varas.

Thence North --- at 1525 varas point in the center of mesquite thicket 100 varas wide --- at 1775 varas in center of another mesquite thicket --- at 1900.8 varas point for the NW corner of this section #19.

Thence East 1924.0 varas to the West common corner of sections Nos. 9 and 10.

Thence South, with the West line of said section #10, 1900.8 varas to the NW corner of section #11.

Thence West, following the North line of section #18, 1924.0 varas to the place of beginning.

Surveyed September 16, 1935.

BLOCK No. 15

FIELD NOTES of a survey of
647.8⁰¹ ACRES of land made for THE
UNIVERSITY OF TEXAS by virtue of an
ACT approved March 29, 1929.

Fig. #1. Fig. #2.
Mag. Declination 12° 00' East.
True North is 0° 31' 30" to the left of the North point used in
the Field notes of this survey.
Said survey is situated in UPTON County, Texas,
on the drainage of Four-Mile Creek, a tributary of the Pecos River,
about 6 miles S 37° W of Rankin, the County Site.

Beginning at a concrete monument set for the NE corner of section #6,
this Block, situated among thick greasewood and mesquite brush, its
brass plate in top having been stamped as is represented in figure No.
1 above, from which a windmill on the North side of the railroad bears
N 60° 29' W; a 4-inch mesquite marked "F" and a 2-inch mesquite marked
"P" bear respectively S 72° 29' E 24.2 varas and S 43° 40' E 21.3 varas;
the East end of a projecting ledge bears S 36° 00' W; the South end
and the North end of Table Top Mountain bear respectively S 66° 21' W
and S 68° 01' W; the NE end of a distant cap rock bears S 72° 08' W;
the South tip of a cap rock on Rattlesnake Hill bears S 87° 19' W.

Thence West --- at 666 varas cross a very old North-South road --- at
942 varas point in the center of the Rankin-Iraan Highway --- at
947.0 varas set a 60d hub nail in a small rock mound on the West shoulder
of the same highway --- at 1603.1 varas set another 60d hub nail in a
valley among thick greasewood brush --- at 1924.0 varas strike the
concrete monument set for the NE corner of section #5, being the NW
corner of section #6 and the SW corner of this section #7, situated
in the valley of Four-Mile Creek in an area very thickly covered with
greasewood and mesquite brush, its brass plate in top having been
stamped as is represented in figure No. 2 above, from which a mesquite
6 inches in diameter marked "F" and another mesquite 3 inches in
diameter marked "T" bear respectively S 86° 14' E 94.3 varas and
N 41° 55' W (no distance given); the South end of Table Top Mountain
(lower ledge) and the SE side of Rattlesnake Hill bear respectively
S 61° 45' W and S 86° 21' W.

Thence North --- at 789.8 varas cross a 36-inch net wire fence having
2 barbed wires above the net running N 72° 23' E - S 72° 23' W --- at
1900.8 varas point for the NW corner of this section #7.

Thence East, recrossing the Rankin-Iraan Highway, 1924.0 varas to a
point for the NE corner of this section #7.

Thence South --- at 819.9 varas cross at about right angles a 30-inch
net wire fence having 1 barbed wire above the net --- at 830 varas
cross an East-West dragged road leading from the highway to Lankford's
house --- at 1900.8 varas the place of beginning.

Surveyed September 18, 1935.

BLOCK No. 15

FIELD NOTES of a survey of

647.8 ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Fig. #1. Mag. Declination 11° 57' East.

True North is 0° 30' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in UPTON County, Texas, on the drainage of Four-Mile Creek, a tributary of the Pecos River, about 7 miles S 55° W of Rankin, the County Site.

Beginning at a point, the NW corner of section #9, this Block, from which a 1 1/4-inch galvanized iron pipe driven in a stone mound 3 varas West of a North-South 2-wire telephone line, bears South 63.7 varas and East 9.3 varas.

Thence North--- at 186.5 varas center line of the Santa Fe and Panhandle Railroad running N 56° 52' 10" E - S 56° 52' 10" W --- at 250 varas point in the center of the pavement of State Highway No. 10, which is approximately parallel to the railroad --- at 1900.8 varas set a concrete monument on a level prairie for the NW corner of this section #10, stamped its brass plate in top as is represented in figure No. 1 above, from which windmills, the latter being 200 varas East of a house, bear S 60° 52' E about 1 3/4 miles, and S 40° 18' E; the East side of the top of Rattlesnake Hill bears S 18° 50' W; the East and the West sides of Table Top Mountain bear respectively S 29° 23' W and S 31° 27' W; a stone mound bears N 2° 56' E 142.0 varas; windmill near the NW corner of Block 15, University Land, bears N 10° 53' E; a hackberry tree 11 inches in diameter marked "F" in a brushy drain running SE bears N 19° 40' E about 300 varas; a mesquite 2 inches in diameter marked "T" bears N 22° 36' E 13.4 varas.

Thence East --- at 363 varas cross a drain running SE --- at 691 varas cross a North-South road --- at 1142.7 varas set a 60d hub nail --- at 1924.0 varas set a concrete monument in thick greasewood brush for the NE corner of this section #10, stamped its brass plate in top as is represented in figure No. 2 above, from which a windmill bears N 19° 28' W; a 1 1/4-inch galvanized iron pipe driven in ground bears N 2° 42' W 128.3 varas; the water tower at the town of Rankin bears N 58° 11' E; a windmill South of the railroad and 2 other windmills bear respectively N 74° 42' E about 1 1/4 miles, S 38° 26' E about 1 mile, and S 8° 36' E about 1/2 miles; the South edge of Table Top Mountain bears S 38° 24' W; the East edge of Rattlesnake Hill (lowest ledge) bears S 38° 40' W; the NW lowest ledge on Table Top Mountain bears S 40° 11' W; a windmill 200 varas East of a House bears S 45° 59' W.

Thence South --- at 395.1 varas recross the center line of the pavement of State Highway No. 10 --- at 458.6 varas recross the center line of the Santa Fe & Panhandle Railroad --- at 1900.8 varas strike the NW corner of section #8.

Thence West, with the North line of section #9, 1924.0 varas to the place of beginning.

Surveyed September 23, 1935.

FIELD NOTES of a survey of
 647.8⁰¹ ACRES of land made for THE
 UNIVERSITY OF TEXAS by virtue of an
 ACT approved March 29, 1929.

Mag. Declination 11° 57' East.
 True North is 0° 31' 30" to the left of the North point used in
 the Field notes of this survey.
 Said survey is situated in UPTON County, Texas,
 on the drainage of Four-Mile Creek, a tributary of the Pecos River,
 about 6 miles S 43° W of Rankin, the County Site.

Beginning at the SE corner of section #11, this Block, being the North
 common corner of sections Nos. 7 and 8, for the SW corner of this
 section #12.

Thence North 1900.8 varas to the NE corner of said section #11.

Thence East, crossing the Rankin-Iraan Highway, 1924.0 varas set a
 concrete monument for the NE corner of this section #12, on the edge
 of a drain running West, 47 varas East of a North-South road, stamped
 its brass plate in top as is represented in the figure above, from
 which an earth mound containing broken glass bears S 55° 57' E 26.1
 varas; a mesquite 3 inches in diameter marked "T" bears S 29° 53' W
 15.7 varas; windmills bear S 39° 45' W about 2 1/2 miles, S 41° 35' W
 about 4 miles, and S 50° 25' 30" W about 1 mile; the South end and the
 North end of Table Top Mountain bear respectively S 51° 22' W and
 S 52° 48' W; the South tip of the cap rock on Rattlesnake Hill bears
 S 60° 04' 30" W; the North end of a projecting ledge on a distant
 hill bears S 61° 16' 30" W; 3 windmills, the first being 200 varas
 East of a house, and the third on the North side of the railroad, bear
 respectively S 78° 15' W, N 76° 42' 30" W, and N 60° 51' W; another
 windmill near the NE corner of Block 15, University Land, bears
 N 6° 10' 30" W; a mesquite 4 inches in diameter marked "X" bears
 N 75° 30' 00" E 48.6 varas.

Thence South --- at 923.5 varas cross at about right angles a 36-inch
 net wire fence having 3 barbed wires above the net on the West slope
 of a high point of hill jutting West --- at 1900.8 varas strike the
 NE corner of section #7.

Thence West, recrossing the Rankin-Iraan Highway, 1924.0 varas to the
 place of beginning.

Fig. #1. Mag. Declination 11° 51' East.

True North is 0° 30' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in UPTON County, Texas, on the drainage of Four-Mile Creek, a tributary of the Pecos River, about 7 miles S 63° W of Rankin, the County Site.

Beginning at the common corner of sections Nos. 10, 11, and 14, this Block, being a concrete monument set among thick greasewood brush, its brass plate in top having been stamped as is represented in figure No. 1 above, from which a windmill bears N 19° 28' W; a 1 1/4-inch galvanized iron pipe driven in ground bears N 2° 42' W 128.3 varas; the water tower at the town of Rankin bears N 58° 11' E; a windmill South of the railroad and 2 other windmills bear respectively N 74° 42' E about 1 1/4 miles, S 38° 26' E about 1 mile, and S 8° 36' E about 4 miles; the South edge of Table Top Mountain bears S 38° 24' W; the East edge of Rattlesnake Hill (lowest ledge) bears S 38° 40' W; the NW lowest ledge on Table Top Mountain bears S 40° 11' W; a windmill 200 varas East of a house bears S 45° 59' W.

Thence North 1900.8 varas to the NW corner of said section #14.

Thence West 1924.0 varas to a point for the NW corner of this section #15.

Thence South 1900.8 varas to the concrete monument set for the NW corner of section #10, situated in a level prairie, its brass plate in top having been stamped as is represented in figure No. 2 above, from which windmills, the latter one being 200 varas East of a house, bear S 60° 52' E about 1 3/4 miles, and S 40° 18' E; the East side of the top of Rattlesnake Hill bears S 18° 50' W; the East and the West sides of Table Top Mountain bear respectively S 29° 23' W and S 31° 27' W; a stone mound bears N 2° 56' E 142.0 varas; windmill near the NW corner of Block 15, University Land, bears N 10° 53' E; a hackberry tree 11 inches in diameter marked "F" in a brushy drain running SE bears N 19° 40' E about 300 varas; a mesquite 2 inches in diameter marked "T" bears N 22° 36' E 13.4 varas.

Thence East --- at 363 varas cross a drain running SE --- at 691 varas cross a North-South road --- at 1142.7 varas set a 60d hub nail --- at 1924.0 varas the place of beginning.

Surveyed September 24, 1935.

BLOCK No. 15

FIELD NOTES of a survey of

647.8 ACRES of land made for THE

UNIVERSITY OF TEXAS by virtue of an

ACT approved March 29, 1929.

Fig. #1. Mag. Declination 11° 55' East.

True North is 0° 31' 30" to the left of the North point used in the Field notes of this survey.

Said survey is situated in UPTON County, Texas, on the drainage of Four-Mile Creek, a tributary of the Peccos River, about 4 miles S 62°W of Rankin, the County Site.

Beginning at the NE corner of section #17, this Block, being a concrete monument set in a prairie sloping East among greasewood and mesquite brush, its brass plate in top having been stamped as is represented in figure No. 1 above, from which the water tower at the town of Rankin bears N 72° 20' E; a windmill bears S 78° 01' E; a stone mound bears S 2° 35' W 77.8 varas; a mesquite 4 inches in diameter marked "T" bears N 51° 41' W 10.4 varas; the junction of a fence from the East with the North-South fence bears N 9° 08' W 208.9 varas.

Thence East 1924.0 varas set another concrete monument in a prairie sloping West, for the NE corner of this section #18, stamped its brass plate in top as is represented in figure No. 2 above, from which an earth mound containing broken glass bears S 57° 59' E 39.3 varas; a windmill on the North side of the railroad bears S 32° 35' 30" W about 1 1/2 miles; the SE tip of a caprock on Rattlesnake Hill bears S 42° 08' W; another windmill bears S 49° 28' W about 500 varas; the SE corner of a pasture bears N 3° 30' E 213.8 varas; a 4-inch galvanized iron pipe set in an abandoned East-West fence line bears N 16° 17' E 123.6 varas; a 4-inch double mesquite marked "T" and another mesquite 4 inches in diameter marked "X" bear respectively N 39° 29' E 37.6 varas and N 66° 54' E 32.6 varas; a water tower at the town of Rankin bears N 67° 42' E; an old rock mound, accepted by surveyors and land owners as the original NW corner of section #1, Block 4, and the SW corner of section #36, Block 3, and the NE and the SE corner respectively of sections Nos. 1 and 2, Block 58, University Land, known as "Dagger Corner", bears North 1806.1 varas and East 13,305.6 varas.

Thence South --- at about 160 varas cross dragged road running NW and SE --- at 1683 varas cross State Highway No. 10 --- at 1748.7 varas cross the center line of the Santa Fe and Panhandle Railroad --- at 1900.8 varas strike the NE corner of section #13.

Thence West, following the North line of said section #13 --- at 233.0 varas recross the Santa Fe and Panhandle Railroad near the junction of the Iraan Highway with State Highway No. 10 --- at 334.0 varas recross State Highway No. 10 --- at 1924.0 varas strike the NE corner of section #14 and the SE corner of section #17.

Thence North 1900.8 varas to the place of beginning.

Surveyed September 24, 1935.

REPORT OF A RE-SURVEY

UNIVERSITY LANDS

BLOCKS 1 to 13 & 58

CROCKETT, REAGAN & UPTON COUNTIES

By

Frank F. Friend,
Special Surveyor
University Lands

REPORT OF A RE-SURVEY, UNIVERSITY LAND

BLOCKS 1 to 13 & 58

CROCKETT, REAGAN & UPTON COUNTIES

By
Frank F. Friend,
Special Surveyor
University Lands

Now lying in Crockett, Reagan and Upton Counties, Blocks 1 to 13 and 58, University Land, is part of the constitutional grant of one million acres, set aside for the maintenance of the University of Texas. It was originally surveyed, beginning November 1, 1879, by R. M. Thomson, member of the firm of Holt & Thomson, who obtained the contract let by The Board of Regents for said survey. The terms of this contract particularly specified that the lands to be surveyed lie on or near living water. Just a few miles South of the geographical center of this body of land is situated old Fort Grierson, the water supply for which was obtained from a nearby spring at the head of Live Oak Creek. It is evident, therefore, that in order to fill the terms of the contract Mr. Thomson, in locating this area of land, known as

the "Grierson Hook-up," considered this spring to be the controlling factor.

We find from records in the General Land Office that, on April 16, 1879, which date is prior to an exemption by Legislative Act placing in reserve all open domain in Tom Green, Pecos and Crockett Counties for University Surveyors only, C. D. Foote, a locating surveyor, covered this spring with surveys numbers 1 and 2, Land Script number 12, issued to the Georgetown Railroad Company. Said survey number 1 calls to begin at a point 380 varas North and 950 varas East from Grierson Spring while Section 1, Block 1, University, calls to begin 380 varas North and 950 varas West from said spring. C. D. Foote describes the Northwest corner of his survey No. 1 as being marked by a single rock set in the ground while Thomson, for his Southeast corner of section No. 1, Block 1, calls for an earth monument six feet at base and three feet high with a large rock on top. Today we find at or near this point a large rock, the original position of which cannot be accurately determined, as evidence shows that it has been much disturbed and moved about, probably to suit the varying whims of indifferent and careless "engineers." The old rock mound marked "HBT," at the common corner of surveys 1 and 2, Georgetown Railroad, Section 5, Block 7 and Section 35, Block 8, is a land mark that has never been questioned by any land owner, lease holder, or surveyor.

The outside boundaries of these blocks were established solely according to the positions of original rock mounds found and identified. Beginning at the Southwest corner of this area, two rock mounds are found on the East line of Block 13; the one at the Northeast corner of section No. 6, said Block, being the (Northeast) Southwest corner of section No. ³⁶⁽¹⁷⁾ 7, Block 5. ^{(13)(see map)} No other corners were found on Block 13, consequently course and distance controlled its re-survey. At the West common corner of Blocks 3 and 4 is what is known as "Dagger" corner and there can be no doubt as to its being original; therefore the West line of Blocks 4 and 5 was established by a line joining these old monuments

and the West line of Block 3 was established by projecting this same line to its intersection with the South line of Block 58, and the West line of Block 58 was established course and distance West of this line.

The common corner of sections 1 and 2, Block 3, and 9 and 10, Block 58, calls for a stone mound. In the re-survey fieldnotes of section 2, Block 3 and section 10, Block 58, will be found a full description of an old stone mound found on the ground near this point. Even one mile, or 1900.8 varas, North of this old rock mound is a point in the North line of Block 58. Also the common corner of sections 5 and 6, Block 10, and sections 31 and 32, Block 58, calls for a stone mound. In the re-survey fieldnotes of section 5, Block 10, and section 31, Block 58, will be found a full description of the old stone mound found at this point. Even one mile, or 1900.8 varas, North of this old rock mound is another point in the North line of Block 58. A line, with East and West extensions, joining these two points above described, forms the North boundary line of this Block 58.

With nothing else to control, a point which is even one * mile, or 1900.8 varas, East of the old rock mound identified as the original Northwest corner of section 6, Block 10, described in the preceding paragraph, marks the Northeast corner of Block 10. Also the South common corner of Blocks 7 and 12 calls for a stone monument six feet at base and three feet high. In the re-survey fieldnotes of section 31, Block 12 will be found a full description of a monument near this point. The Southeast corner of Block 12 was not established even 6 miles East of this old monument, but in the following manner which must be considered will more logically represent or follow the footsteps of the original surveyor: the projection of a straight line from the old monument at the Southwest corner of Block 5, passing through the old stone monument identified as the original South common corner of Blocks 7 and 12 is made to form the South line of Block 12; a point in this line, precisely

six miles, or 11,404.8 varas Easterly from the last named monument, marks the Southeast corner of Block 12; therefore with no intermediate original corners found, a straight line from the last mentioned point to the point described above as the Northeast corner of Block 10, is made to form the East line of Blocks 10, 11 and 12 and its extension Northerly, from the Northeast corner of said Block 10 to its intersection with the North line of Block 58, forms the East line of section 32, Block 58.

The South line of this area is merely a series of lines connecting the original stone mounds found and identified in this vicinity.

Special Surveyor
University Lands

REPORT OF A RE-SURVEY
UNIVERSITY LANDS

BLOCKS 14 & 15,

CROCKET & UPTON CONTROUNTIES

By

Frank F. Friend,
Special Surveyor
University Lands

Blocks 14 and 15, University Land, lying in Crockett and Upton (originally Tom Green) Counties, is a part of what is known as the Constitutional Grant of one million acres set aside for the maintenance of the University of Texas. They were surveyed by R. M. Thomson, from November 26 to November 29, 1879, who obtained the contract let by The Board of Regents for the surveying of this grant, which contract particularly specified, among other things, that this land be located, if not on, as near to as possible, living water.

The beginning call for the Southwest corner of section number 1, Block 14, is for being 4320 varas North and 5070 varas East of the East end of the bridge on the Pecos River at the crossing of the Ft. Concho and El Paso road. It is evident, therefore, that the Pecos River was considered by Mr. Thomson as fulfilling this term of the contract. We have reason to believe that also other factors influenced Thomson's position

of these Blocks. Sections 1 and 2, Block 14, fall in the valley of Cedar Canyon, surrounded on all sides by rocky cliffs, while the remainder of the body of land, being three miles wide East and West by twelve miles long North and South, lies squarely, except for the cutting of a few rough points by the outside boundaries, within the broad smooth valley of "4-Mile" Creek.

The East end of the bridge at Pontoon Crossing was definitely located in November, 1907, when the writer, then the County Surveyor of Crockett County, found, attached to the East bank of the Pecos River, the chains which originally secured the old pontoon. (See certificate, map, and report by Frank F. Friend in Crockett County Sketch Files, General Land Office.) There appears to be discrepancies between the results of this old report and those of our re-survey. This may be explained: First, our resurvey work was done by accurate triangulation, steel tape measurement through cleared right-of-ways and by trained field men; while the work of 1907 was done with a Jacob Staff Compass, link chain with large brass tags, cowpunchers with large spurs chaining over and around brush, the back one of whom led a horse to insure return transportation to the camp wagon; Second, in ascertaining the distance between the two old stone mounds at the East corners of section 1, Block 14, the surveyor of 1907 set up on one mound, peeped through the slits of his compass, counted his paces up the canyon to the other mound and called it 1900 varas when by accurate triangulation this distance is 1951.4 varas.

Only one other original monument was found during this re-survey, this being at the Southwest corner of section 15, Block 14, and the map clearly shows its position with relation to the other two, the East corners of section 1, same Block. The map also shows that the West line of the two Blocks was not run at right angles to the South line of Block 14, which would have caused probable pinching on the East, and probable excesses on the West, of adjacent lands. Consequently, it will be noted

by referring to the map that the line from the concrete monument at the Southeast corner of section 3, Block 14, to the monument at the Northeast corner of section 18, Block 15, is precisely parallel to, and the space is exactly seven miles, or 13,305.6 varas between it and, the West line of Blocks 3, 4, and 5, University Land.
