W. P. Harris Survey  
 A-30  
 Titled December 10, 1832

NOTICE: This survey was performed in accordance with Section 33.136, Natural Resources Code, for the purpose of evidencing the location of the shoreline in the area depicted in this survey as that shoreline existed before commencement of erosion response activity, as required by Chapter 33, Natural Resources Code. The line depicted on this survey fixes the shoreline for the purpose of locating a shoreline boundary, subject to movement landward as provided by Section 33.136, Natural Resources Code.

The line of mean higher high water is located at elevation 1.30' NAVD88. Corps of Engineers Mean Low Tide is at elevation -1.37 NAVD88.

All coordinates are grid and are referenced to the State Plane Coordinate System, Lambert projection, Texas South Central Zone, NAD 83, U. S. Survey feet. Gamma angle at monument LC 15 is 01°57'55" and the combined scale factor is 0.999873840.

I, Nedra J. Foster, Licensed State Land Surveyor in the State of Texas, do hereby certify that this plat reflects an on the ground survey performed by me, according to law, and that all points were placed on the line of mean higher high water at the time of the survey, August 3, 2004. Lines connecting these points are listed on the map and are meander lines.
