 encargo han pasado á recono-
 cer las Tierras demarcadas
 por los Agremiadores para
 Terruños de esta Villa, por
 el rumbo de Poniente, no se
 perdieron ni pueden com-

 señores, muy necesarias y pre-
 cisas para acomodar el
 crecido vecindario de q. se com-
 pone esta Jurisd. on, y ames-
 tan muy ciertos no pue-
 den ser suficientes segun
 la oferta hecha á los Po-
 bladores, quando se transpor-
 taron á esta Colonia, y el nu-
 mero de ganados que hoy
 tienen para su manuten-
 cion necesitan abundancia
 de Terruño. Las Tierras son
 todas de una misma cua-
 lidad, sin riego y especial

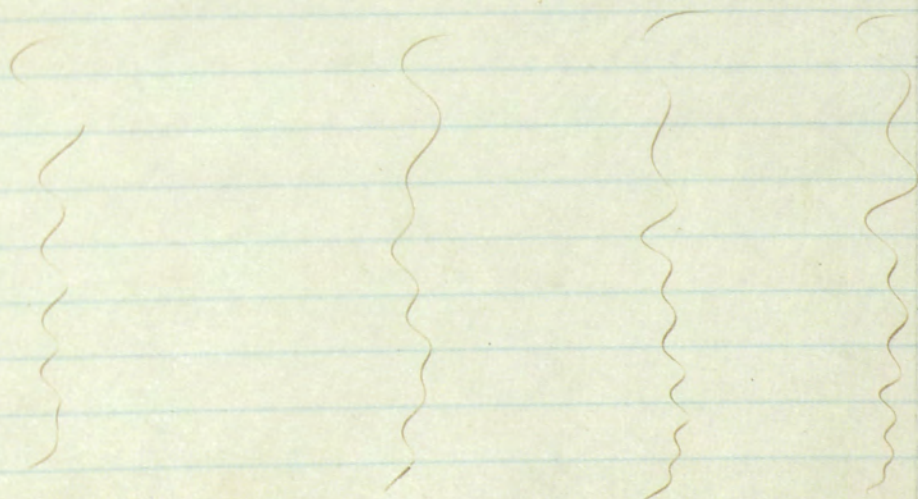

distincion y aqui se ha inten-
 tado sacar de Agua sobre que
 hicieron varias diligencias tra-
 vajasen, y gastaron cuanto pu-
 dieron y alcanzaron sus fuer-
 zas á orillas del Rio de S.ⁿ Juan
 y aunque corrió el Agua por
 una Hecquia luego se embió
 á poco trecho que salió del
 Rio y vieron la imposibili-
 dad de subsistir y sacarla en
 otro parage, de cuyo beneficio ca-
 xeen por todos los Tiempos
 reconocidos, tanto ahora co-

 que está contiguo frente á
 la Villa de la otra parte del Rio
 S.ⁿ Juan medido, demarcado,

 que todo ha presenciado y
 la su parcer se le dieron
 dos leguas y cordelada
 de frente a dho Rio y otras
 tantas de fondo que en
 todas eran cuatro

y media sobre poco mas, o menos,
 y esto embaraza enasi el resto al
 poniente: para Exidos, Pastos, Dhesas

 mas comodo el Terreno cercano
 a ella donde el comun sepueda apro-
 vechar sin embarazo, y pensuio
 de tercero, huchando sus Caba-

At the same time the vicinage shall be informed that they must name two Surveyors, who, in union with Don Juan Joseph de la Garga and Don Luis Lopez, whom we name on the part of His Majesty, shall proceed to the partition provided for by Royal Orders according to the instructions which will be given them, as has been done in other towns, keeping in view the conveniences of the lands, the number of the inhabitants and other particular circumstances that may call their attention.

Power of Attorney.

In this Town of Santa Ana of Camargo, within the limits of this new Colony, on the second day of August, One Thousand seven hundred and sixty seven, before me Don Joseph Antonio de la Garza Falcon, Captain of the Royal Squadron which garrisons this Town, its Missions, and the Justice — of the Settlers of the same, and in the presence of the instrumental witnesses whose names are hereinafter given, and those of my assistance with whom I act as Judge Actuary in default of a Notary Public, there being none in the terms directed by law, and upon this common paper for the want of the proper sealed paper, came and appeared all of the settlers of this Town, whom I know, to which I certify, and they said:—

That they grant and give their full power of Attorney, as required and may be necessary that the same may be valid and binding, unto our said Captain, to Don Bartholome de Treviño ^{rubric} ~~the~~ ^{of} Alameda and to Don Pedro Jh. Ygnacio Saldana, ^{Camargo} inhabitants of this said Town, in order that in the name of the said inhabitants and representing their proper persons, rights and privileges, by reason of their vicinage as colonists of this said Town, they may defend and shall defend us against whatever objection that may be made in the partition of lands as well as that they may treat with whatever may touch the Royal Excise with the Advocate, Don Joseph de Ossorio y Llamas, it being impossible for us to do it in the City of Mexico with the Inspector General on account of the great distance that intervenes from this Town, the want of communication with that City and the

means indispensably necessary to pay persons to go there to effect the said proceedings, the same being necessary to be done; also, upon all other subjects touching this vicinage they may present themselves, and, if on account of any legal reason they should find it necessary to litigate, they may appear before the Justices of His Majesty, that by law they may find necessary, and that they may present any demand and allege whatever may be favorable to us, responding to anything to the contrary, should anything so offer, and to make all petitions that may be necessary for the public good of the said Vicinage, and may conclude definitively any pleas, their sentences, interlocutory decrees, and consent to whatever may be favorable, or on the contrary to appeal and petition that they may pursue their appeals in all the courts, that they may do all the acts, agencies and proceedings that the said Vicinage might do, without limitation, even in such as might by law require more express clauses, that in all things that may offer this said power of Attorney is given with full and general trust, and with power of substitution on all subjects of official acts and other proceedings, with power of revocation and the appointment of new attorneys, all of whom they may receive in due form, and they shall state and allege all things that may be favorable to this vicinage, hereby ratifying and confirming all that they may do and execute, under the customary penalties that may be imposed in compromises, agreements or any other case ~~that may~~ ~~xxxxx~~ ~~xxxxx~~ that may

occur and that may appear to them

they obligate themselves to observe and

and not to recall nor to reclaim for
anything that may be done, although
it may be legitimate and lawful to do
so, and in case they should do so, they
do not wish to be heard in the same, and

which they may attempt to dispute, has
been especially approved, adding force

because, although the penalty which may
be imposed for the violation hereof be
executed, they desire that it may remain

be bound as if by sentence passed in

the aforesaid Don Bartholome de Treviño,

Petition

Don Joseph Antonio de la Garza Falcon, Don Bartholome de Treviño and Don Pedro Ygnacio de Saldaña, Attorneys of the inhabitants of this Town, placing ourselves at the feet of Your Worship with due respect and veneration, do say: That in virtue of having been informed of the order of Your Worship of yesterday

in regard to the partition of lands practised on the present occasion, we nominate two Experts for the review and qualification of the same for which end we do so in the persons of Don Matthias Longoria and Don Santiago Longoria, as practical and intelligent persons in this matter and the oldest in this country, and as Surveyors we constitute Don Bartholome Treviño and Don Pedro Yguacio Saldaña, already cited above, in union with Don Juan Joseph de la Garza and Don Luis Lopez, Surveyors on the part of His Majesty. We appear by virtue of the powers conceded to us by the general power of attorney, that in due form we present to you, to define and mark out the boundaries that may be shown us; and representing to the high consideration of Your Worship the sterility of the said lands, as they offer no benefits on account of the scarcity of water that exists in this country, which is reduced to that which is afforded by the Rio Grande and the River San Juan solely, but this cannot be taken out of the bed of those streams in any way or mode, and we only enjoy the benefits of temporal irrigation, and this being wanting, as is constantly the case, we are wanting in every refuge; in view of which, and that these inhabitants and we ourselves, may have some alleviation for our goods, which are reduced to large and small stock, Your Worship will please order that there be laid off and granted to us the proportion of lands which may be necessary, although it may be to the prejudice of any Title or Grant adjoining, for it is not just that a single individual should curtail a population like that of this Town so important to the Royal service, and taking into consideration that this vicinage is composed of one hundred and forty six families

of accepted Colonists and a large number of Mission Indians annexed, as will appear by the Registers presented of the one and the other part, who cannot be contained in the limited extension of four leagues in each direction, except those of the Town commons, and in view of the fact we have already presented of the sterility of the land and its offering no advantages of planting and growing fruits to supply the necessary aliment, it is evident that each one should enjoy, in the possession that he may receive, a watering place for his cattle on the one or the other River, under which consideration Your Worshipps will please order that there shall be adjudicated to us what may be necessary that all may be accommodated equitably in the lands; thus the inhabitants as well as the Mission present themselves to you: Wherefore, we petition and supplicate Your Worshipps that you will admit our nomination of Surveyors and Experts, and that you will order all the rest to be executed in accordance with our petition, which is justice, that we hope to receive from the equitable consideration of Your Worshipps, and that you will admit this representation on common paper in default of sealed paper in this jurisdiction, without prejudice to the Royal Exchequer. Thus we supplicate as above. = Joseph Antonio de la Garza Halcow. = Pedro Ygnacio de Salvana. = Bartholome de Trevino.

Act.

Annexed to The Fifth Book which treats of the partition of lands; all the proceedings that may occur to be executed with the concurrence of the Attorneys; and the constituted Surveyors and proposed Experts shall appear

before us, together with those nominated on the part of His Majesty, to receive from them in due form the oath to exercise faithfully their duties; and, this done, they shall proceed to lay off and mark out the six leagues round about that we assign as the boundaries of this Town and its Jurisdiction, within the limits shall be verified the individual partitions to which they shall proceed according to the merits of the interested parties and distinction of the colonists as is explained in the Registry presented to us, and in all this they shall avoid prejudice to Third parties, public injury, and that which, from excess, may result to the Royal Exchequer; and the Experts shall examine the lands, returning to report their quality for their corresponding application; and to the end that this matter may be carried out with greater expedition, they shall divide themselves into two parties, each taking its direction, Don Juan Jph. de la Garza, Surveyor on the part of His Majesty uniting himself with Don Ygnacio ^(of rubric) Saldaña who is appointed by the Town, and Alcalde of Don Luis Lopez with Don Bartholome Treviño, Camargo. and they shall each one use the cord composed of fifty Mexican varas as has been done up to this time, which the Captain should furnish as has been required, and they shall be informed of this as well as the Act of yesterday Enacted at Camargo on the Third day of August One thousand seven hundred and sixty seven. = Palacio. = Ligo Osorio = Of Assistance, Duran. = Of Assistance Federico Losada.

Acceptation & Oaths of the Surveyors and Experts.

Declarations of the Surveyors,
Don Luis Lopez, and
Don Bartholome Treviño

In the same Town on the fifth day of the month of August and year aforesaid, Don Luis Lopez and Don Bartholome Treviño, nominated Surveyors, the former on the part of His Majesty and the latter on the part of the Town, having returned to our presence, they said: That in compliance with the Acts read to them on the third day, they had gone out to stake and mark out the boundaries of the Town, and, using the Cord of fifty Mexican varas recognised by the present Commissioners, they stretched it one hundred times from the center of the Town towards the East and completed with said survey one league at the place called Palos Altos, which they marked out: With as many more on the same course to the Cross of Juan Vela, which they also marked out: with as

many more to the place called San Fran-
 cisco: with as many more to The Olmos;
 with as many more to the enclosed pas-
 ture called Palos Blancos; with as many
 more to the enclosed pasture also of
 La Buchana, where they completed the
 six leagues of the prescribed survey, each
 league marked out separately and with
 the number of cords mentioned, and each
 one of them completed one by one with
 five thousand Mexican varas. From
 this point they returned to the Town
 and taking the direction of the West,
 looking to the center of the Town from the
 opposite bank of the San Juan River, they
 stretched the Cord one hundred times, which
 reached the height of the Llano Redondo
 and with which was completed one
 league: with as many more to The
 Rodeo, which completed another league;
 Lands of } and these two leagues are
 the Mission } surveyed and marked out
 for the Mission since the year sixty one
 and which we found in its possession,
 as is known very clearly to the deponents
 who assisted in all those proceedings,
 and they gave all this for depth with
 other twice eleven cords and four varas
 more, which on that occasion was
 surveyed for the Mission on the front
 of the River San Juan from the road
 which leads to the Pass of Azucar, where
 will be found the corner stone, to another
 corner stone which is on the road that
 leads to Rancherías from south to north,
 all of which will also be found in the
 Archives of this Town; and from the
 deponent, Luis Lopez, was taken on
 that occasion a Ranch, which he
 had, for the accommodation of the
 Mission, and the injuries done him
 by the Indians caused him to remove

to Mier where he is at present a citizen; and for this cause they did not count the two leagues, but from the Rodeo, they continued the survey and with eighty cords they reached the Pass of La Mula, the boundary of Mier, where was verified the termination of the survey for individual lands as those lands were heretofore assigned without leaving any choice as to the continuation of the survey upon that course; and between the junction of the River San Juan with the Rio Grande of the North there is a small bend that scarcely contains a league of pasture land for large stock, on which account it was not surveyed; from the said Pass of La Mula they proceeded to the corner stone of the lands of the Mission, already referred to, on the road that leads to the Pass of Azucar, and thence along the margin of the River they stretched the cord from North to South one hundred times, which make five thousand Mexican varas or one complete league with which they arrived at the Chapotitos; with as many more to the drain called El Salto, and with thirty one cords more to the corner stone of that name, where they also reached the surveys of Mier and where Porcious had been given to its inhabitants, motive which caused the cessation of the survey in that direction and on the other bank of the San Juan River, as those lands are already taken up in the mode prescribed; and without having any thing more to say or add in compliance with the execution of their duties, they signed this with us and those of our assistants. = Palacio. = die? Declarations of the Surveyors
Don Juan Ant^o de la Garga
Don Pedro Saldaña.

In the same Town on the same day, month and year that precursors, Don Juan Antonio de la Garga and Don Pedro de Saldaña, the Surveyors the former on the part of His Majesty and the latter on that of the Town, came into our presence and said: That in conformity with the Act made known to them on the Third, they proceeded to mark out the boundaries assigned to the Town on the South, and using the cord composed of fifty Mexican varas recognised by the Commissioners present, they stretched the same one hundred times (beginning at the center of the Town) which make five thousand Mexican varas or one complete league, with which they arrived at the point known as La Cantera, which they marked out: with as many more they reached a vale with woods which are transitable and which is named the stopping place called Señor San José: with as many more to the gully at the foot of the hills of Los Quatitos and they dedicated it to our Señor of San Juan: with as many more to the stopping place called Agua-pas and dedicated it to our Lady of La Soleraño; with as many more to a hollow in front of Abra del Quemado to which they dedicated to our Lady of Dolores; with as many more to the margin of the River Blanco which they dedicated to our Lady of Loreto, and they are the six leagues which in accordance with the order communicated to them they have surveyed and marked out, each league for itself on said course. And from said plain they returned to the Town and directing themselves to the north from its center they stretched the Cord one hundred

times and arrived at the Palitos Blancos and—dedicated it to our Lady of Santa Ana: and with another hundred cords, commencing on the other bank of the Rio Grande del Norte (for the reason that but a few varas remained between the said league and the river) They arrived at a hill to which they dedicated to San Joachim and marked out the second league: with as many more to an opening in the hills (Abra) called El Yachupin to which they dedicated to San Francisco de Borja; with as many more to the end of the said opening in the hills to the place called San Lorenzo; with as many more to the opening in the hills of San Glorioso which they dedicated to Santa Theresa de Jesus; and with as many more to a hill which is on one side of the stopping place called San Glorioso which they dedicated to La Santissima Trinidad, which six leagues they surveyed and marked out in the same manner as those above specified, always following the said course North. And this is what they did in compliance with their duties, and without having anything to add, they signed with us and those of our assistance. = Palacio. = Ligo Osorio. = Juan Jph de la Garza Falcon. = Pedro Joseph Ygnacio de Saldaña. = Of Assistance, Muraw. = of Assistance Federico Losada.

Declarations of the Experts.

In the same Town and on the same day month and year that precedes, Don Joseph Santiago Songoria, formerly of Reynosa, and Mathias Songoria, the Experts proposed and selected by the Attorneys of this Town, appeared in our presence and said:—

That, desiring to comply with their duties
 they have passed in review the Lands
 marked out by the Surveyors as
 the boundaries of this Town, and
 on the West course the six leagues
 proposed by the Commissioners present
 could not and cannot be completed,
 although very necessary and needful
 to accomodate the large vicinage
 of which this Jurisdiction is composed,
 and they are very certain that it will
 not be sufficient to comply with the
 offers made to the Colonists when
 they transported themselves to this
 Colony and the number of stock
 that they now have, for the maintenance
 of which they need an abundance
 of land. The lands are all of one
 and the same quality, without
 irrigation or especial distinction.
 And at this place the people have
 endeavored to take the water out of
 the River San Juan, upon which
 work they have displayed great
 diligence, have done much work
 and have expended thereon as much
 as their means would justify, and,
 although the water runs into a
 ditch, in a short distance all that
 ran out of the River sank into the
 ground, and they saw the impossibility
 of its subsisting or of their taking it
 out at any other point, and its ben-
 efits are wanting in all the Ranches
 that were reviewed as much so now
 as heretofore, of which they are well
 informed since the establishment of
 this Colony. The land most proper
 for the Mission is that contiguous to
 and in front of this Town on the
 opposite side of the River San Juan,
 surveyed for and marked out for it

by the Captain Don Blas Maria
 de la Garza and possessed by it
 since the year sixty one, which
 is known to the deponent Don Mathias
 Longoria who was present and saw
 the proceedings, and in his opinion
 it was given two leagues and some
 cords front on said River and an
 equal quantity in depth, which
 were altogether four and a half
 leagues, more or less, and this
 embarrasses nearly all the rest
 on the West. For Commons, pasturage
 and grazing and lands proper
 for the Town, They recommend
 as the most commodious the Land
 adjoining the same, where the
 community can employ the same
 without embarrassment or prejudice
 to third parties, turning their horses
 loose from the Town without im-
 pediment, and, in case of necessity,
 they are nearer at hand to use
 in any urgency. The surveys of
 the individual Porciones of the vicinage
 can be verified in the rest of the
 lands, excepting those set apart for
 the Mission; but they are fearful
 that there will not be sufficient
 for all to whom land has been
 assigned, on account of the large
 number of the population. The aridity
 of the land requires extension in
 the surveys that all the Porciones may
 have a watering place for cattle, as
 otherwise they would remain useless
 and unserviceable; and they should
 be adjudged with distinction as to
 services, the Primitive Colonists, their children
 and descendants being preferred to
 the new settlers (Agregados) as they are
 called.

And this is what presents itself to them to say and declare upon the subject and nothing to the contrary, what they have said being of their own knowledge. Mathias does not sign, not knowing how, but Joseph Santiago signs with us and those of our assistance. =

Act.

In view of the proceedings and declarations that precede, We declare and adjudge as the boundaries of the Town Commons, grazings and pasturages proper for the Town, one league round about from its center, and on the South course shall be recognized as such that which is composed of five thousand Mexican Varas as surveyed and marked out at the stopping place called La Cañera. On the East that which was shown with the name of Palos Altos; that on the North which was thus marked at the Palitos Blancos; and towards the West the Mission shall use the lands that it possesses in the form hereinafter declared; and the Town shall enjoy the benefits of the three courses as before cited, where they may freely turn loose their stock without pre-
 =judice to third parties; and one of the three aforesaid leagues shall be considered as belonging to the Town corporation, which from this time we destinate to it, in order to provide ways and means in case of any ur-
 =gency, to be distributed justly and reasonably, as also shall be prescribed. The Surveyors shall proceed immediately to survey

the individual Portions for the one
 hundred and forty odd Colonists
 registered, giving to the Primitive
 Colonists two Leagues of pasture land
 for small stock and twelve Caballerias,
 the former for pasturage the latter for
 planting; and to the Old Settlers, who
 have dwelt six years, two leagues
 of pasture land for small stock and
 six Caballerias; and to the Recent Settlers
 only the two leagues of pasture land
 for small stock, of whom the Surveyors
 shall take with them a List, of which,
 as Attorneys of the Town, they
 shall minutely inform themselves.
 To the Captain is conceded a double
 Portion; and they shall begin the
 survey of all at one of the four
 courses on the margin of the Rivers,
 leaving to each Portion a watering
 place for cattle to them; and to the end
 of accommodating a greater number
 they shall contract the fronts and extend
 the depths of the Portions in such a
 manner as to compensate for the
 want of front and to leave the
 surveys in a prolonged quadrangle;
 in accordance with their instructions
 they shall take special care not to
 prejudice the interested parties, bearing
 in mind that the league of pasture
 land for small stock (*Sitio de Ganado menor*)
 is composed of three thousand three hundred
 and thirty three and a third varas square.
 The Caballeria of one thousand one hundred
 and four varas in length and five hundred
 and fifty two varas in width; and in the
 event of the Portion not adapting itself
 to these figures or their contents, they shall
 make the said division judiciously, in-
 cluding in the survey of each individual
 the improvements or Ranch on the Portion

that may be assigned to him, despoiling no one without just cause; and to the rest, if they cannot agree, the Portions shall be assigned by lot in order to avoid complaints; and the said leagues, or parts, shall be numbered; and, this being concluded, they shall proceed with the survey of the Town Site in accordance with its circuit and of the vicinage, assigning town lots to the colonists and for public edifices, upon the terms and conditions that shall hereinafter be determined.

Individual Surveys.

In the same Town on the twelfth day of August One thousand seven hundred and sixty seven, the Surveyors, Don Luis Lopez and Don Bartholome Treviño, came into our presence and said:— That in compliance with their instructions and the Act of which they were advised on the sixth day, they had gone to begin the individual surveys and mark out the Porcions towards the East, and immediately upon their arrival at the enclosed pasture of Cucharas, the boundary heretofore marked out for this Town and which adjoins that of Reynosa, and having calculated the depth which is complete with four leagues, they Porcion No. 1 } stretched the cord from East to West along the margin of the Rio Grande del Norte, and with twenty three cords and thirty five varas for each end and twenty five thousand varas in depth, they adjusted two leagues of pasture land for small stock and six Caballerias of land, which, in accordance with what has been provided, corresponds to the Settlers of over six years, they marked it out on the margin of the River, and Gregorio Harías, son of a Primitive Colonist, petitioned for it, and, although an unmarried man, he supports his family, it was adjudicated to him.

No. 2

Upon the same course and along the margin of said River they stretched the cord twenty three times, and with

thirty five Mexican varas more, or one thousand one hundred and eighty five varas on each end and twenty five thousand in depth compose a Porcion of two leagues of pasture for small stock and six Caballerias of land, They marked it out on the margin of the aforementioned River, and Pedro Farias, son of a Primitive Colonist, petitioned for it and it was adjudicated to him.

N^o 3.

Upon the same course and along the margin of the said River, the said Cord was stretched twenty three times which with thirty five varas more for each end and twenty five thousand in depth adjust a Porcion, it was marked out, and Philippe Valdes, an old Settler, petitioned for it and it was adjudicated to him.

N^o 4

On the same course and along the margin of the above cited River the above mentioned mentioned Cord was stretched thirty times, which makes one thousand seven hundred and fifty Mexican varas, with as many more on the opposite end and seventeen thousand five hundred in depth adjust a Porcion composed of two leagues of pasture for small stock and twelve Caballerias of land as that of a Primitive Colonist, The depth could not be prolonged further on account of an improved stock farm, it was marked out and upon the said survey was found the stock of Joseph Antonio Longoria

who petitioned for the same and it was adjudicated to him.

N^o 5.

Following the same course and along the margin of the said River, the aforesaid Cord was stretched twenty five times which with forty three varas more makes one thousand two hundred and ninety three and three quarters Mexican varas ^{front} with as many more on the opposite end and twenty thousand in depth adjust a Porcion of two leagues of pasture for small stock and six Caballerias of land as that of an old settler, it was marked out, and contains the stock of Doña Antonia Ynojosa, who petitioned for the same and it was adjudicated to her.

N^o 6

Continuing the same course and along the margin of the said River, the said Cord was stretched twenty five times which with forty three varas more make one thousand two hundred and ninety three and three quarters Mexican varas front with as many more on the opposite end and twenty thousand in depth adjust a Porcion like the foregoing, it was marked out, and Luis de Oliva, a soldier and son of a Primitive Colonist having petitioned for it the same was adjudicated to him.

N^o 7.

Following the same course the cord was stretched twenty five times and with forty three varas more make one thousand two hundred and ninety three

varas front with as many more on the opposite end and twenty thousand varas in depth adjust a Porcion like the foregoing, it was marked out, and Joseph Miguel Salinas petitioned for it and it was adjudicated to him.

{ Marginal note: Bought by Marcos Villanreal from his heirs }

N^o 8.

Continuing upon the same course the said cord was stretched twenty five times which with forty three varas more make one thousand two hundred and ninety three Mexican varas front with as many more on the opposite end and twenty thousand in depth adjust a Porcion of two leagues of pasture for small stock and six Caballerias of land like the foregoing, it was marked out, and Joseph Antonio Gonzales, an actual soldier, petitioned for it and it was left to him.

{ Marginal note: Sold to Don Tomas de Olivares by its legitimate owner }

N^o 9.

(subic) Following the said course and along the margin of the said River, the said cord was stretched thirty five times which make one thousand seven hundred and fifty varas front with an equal number on the other end and seventeen thousand four hundred in depth compose an entire Porcion as that of a Primitive Colonist, it was marked out and Domingo Vela petitioned for it and it was adjudicated to him.

Nº 10.

Upon the same course the said cord was stretched twenty six times that make make one thousand three hundred varas with as many more on the opposite end and twenty thousand, a little more or less, in depth adjust a Porcion of two leagues of pasture for small stock and six caballerias of land which is assigned to each old settler, it was marked out, and Lucas Hurtado de Villarreal petitioned for it and it was adjudicated to him.

{ Marginal note: Sold by its legitimate owner to Don Jose Antonio Abad Solis, as appears by the deed dated in 1800 }

Nº 11.

Upon the same course and along the margin of the aforementioned River, the said cord was stretched twenty six times which make one thousand three hundred varas front with an equal number on the opposite end and twenty thousand in depth adjust a Porcion like the foregoing, it was marked out, and Francisco Venancio Villarreal petitioned for it and it was adjudicated to him.

Nº 12.

Survey of the Public Square

In the same Town on the Seventeenth Day of the said Month and Year, we proceeded with the Surveyors, Don Pedro Ignacio de Saldana and Don Joseph de la Garza Falcon, to review the site destined to serve as the Public Square, and considering its proportion, circuit and the number of the inhabitants, we resolved to leave it in a Square of a hundred varas on each course, and the Survey was staked out, leaving an outlet for two streets at each corner each of which shall have and remain with the width of ten varas; and upon the course which looks to the front from the same, that is to say, on the East, we assign the ground sufficient for a Church, on account of its being more elevated and proper for the object, and the sides thereof, leaving a sufficient vacancy, shall be divided into lots which may be contained therein with a front of twenty varas and depth of forty varas. On the opposite side, which looks towards the East, that is to say on the West side, it was found occupied with the edifices of the Captain, and to avoid injury they were left to him. On the North side we assign the ground for a Jail and Municipal Buildings, and what may be left shall be divided into lots composed of an equal depth of twenty by forty varas. And on the South, four lots front of the same measurement; and all the rest should follow on from the said Public Square, in squares disposed and figured out with equal measurement as those situated therein, to be divided out among the inhabitants and settlers in the mode and form that shall hereafter be expressed. They signed with us and those of our assistance.

Act.

We hold as adjudicated the one hundred and seven Porciones of land divided among the inhabitants of this Town and its Jurisdiction as the Surveyors have reported the execution of the same, in which are included those of Joseph Santiago Longoria and Doña Antonia Gnojosa, on account of their improvements which are included in the limits marked out for them; and of the other four, to complete the number of one hundred and eleven, it is understood that those shall not be included herein which are numbered forty three and forty four which are on the margin of the San Juan River, on the South course, as the same lie beyond the six leagues assigned in the survey and demarcation practiced with citation of Don Juan Jph. Gomez de Castro, and upon the said course the fixed boundary shall be held to be that point eleven cords to the North of the Ranch of Juan Jph Peña at the site of Los Chorrros and a direct line to the one they had left at the place called Maguero, as declared in the Act of yesterday; and numbers one hundred and ~~one~~ and two, on account of having

been improved by an inhabitant
 of Reynosa is a sufficient motive
 for their adjudication at that place
 as they are the last on that course,
 and the Boundary of the one and the
 other Jurisdiction shall be to the West
 of said members; and the rest we
 adjudicate in fee simple as being
 occupied by Individuals to whom
 they belong under the following terms
 and conditions in accordance with
 the offers and propositions of the Attorney
 of the Town:— That each grantee shall
 erect a house upon the Town lot that
 has been assigned to him, within two
 years, under the penalty of losing the
 same together with the lands, as they
 have not only promised to establish
 stock Ranches but to live under police
 regulations and united in the Town
 that they may easily defend themselves
 against any invasion:— That they shall
 not be sold to any prohibited person
 under the same penalty:— That they
 must be taken possession of within
 two months from the publication of
 this Act for which purpose an exact
 Testimony of the same shall be left
 with the Captain and Justice who shall
 verify the same, without the right
 to collect any fees therefor; at
 which time he shall fix durable and
 fixed corner stones to each Porcion and
 league surveyed, that by their permanence
 disputes and injury to third parties
 may be avoided, setting the adjoining
 Jurisdictions for the purpose of fixing
 the coterminous Boundaries; The Testimony
 of the petition, together with the decision
 thereon of the Missionary Priest shall
 also be left with him for his observance,
 of which he shall remit (to the Priest)

a copy as therein provided with an exact Testimony of the lands which it (the cession) possesses; The Town lots shall be divided among the inhabitants, giving to each one twenty varas front and forty in depth, which shall be done by lot each interested party drawing this schedule; And all this being done, he shall remit the Testimony to certify the same, or otherwise, he shall suffer the penalties prescribed by law. To the colonists who may hereafter annex themselves shall be assigned Town lots and lands, without adjudicating the same to them in fee simple until they shall apply to the Private Council for a grant, placing them immediately upon the Registry with this distinction, which lands may be granted to them towards the north on the vacant domain near the city; and in regard to the improved Ranches towards the coast, which are upon vacant lands, the owners thereof may use the same recourse, if they desire to obtain them in fee simple. The colonists shall be subject as heretofore to the duties of their natural defense; and for the purpose of promoting the common good with greater exactness and zeal, they shall elect at the beginning of each year one Procurator General who shall look after and defend the common cause and by due process of law demand what has been above resolved; and also two Deputy Councilmen, who, together with the Justice, shall foment the progress of the Town and this election shall be held by convocation of the inhabitants, those serving who shall receive the greatest number of votes; and the three together

shall take especial care of the lands adjudicated to the Town Corporation, imposing a rent thereon or having them cultivated, and their product shall serve the community should necessity require it, taking an account of the same and the mode of its expenditure. All of which shall be looked after with the zeal demanded by an affair of such importance, with the understanding that they are responsible at all times and whenever their residence whenever it may be so decided by His Majesty, or the Superior Government.

The Mission

To the Governor: The Friar, Lino Machin Barrera, Minister of this Town and its Mission, appears before your Worship in the most ample form that the law allows, and that pertains to this Mission, and say: That in attention to the powers which reside in your Worship, I supplicate your Highness to deign to confer on the said Mission the same field and land which my predecessor had, and in the same place, which I consider sufficient for the maintenance of the same, depending upon the rains as there is no mode of irrigation,

although the other two Tribes of which I have spoken to your Worship have annexed themselves, Wherefore I petition and supplicate your Worship to order as I have said. Moreover, I supplicate that you will order that there be given me a Testimony for the safeguard of the said Mission &c. = Fr. Luis Machin Barrera.

Act.

The Mission shall be maintained in the possession of the lands that it enjoys, as proposed by the Reverend Missionary Priest, and in order that in the future it may have a fund from which to supply the necessities that occur and to secure the requisite aliment of its individual members that the want thereof may not discourage their collection and congregation, we adjudicate to it the league that is marked out to the North along the margin of the River San Juan for the Cash-box of the Community, contemplating as we do contemplate that the league that is on the South with the eleven cords and varas is sufficient for its regular cultivation and daily expenses, and the two leagues, with the additional cords, in depth, for summer pasture, commons, and grazing lands in accordance with their quality; and we charge the Reverend Priest that he assign them with the consent of the Captain and Justice and the Indians or persons who are enjoying the one or the other, marking out the number of varas or fathoms of the former which each individual ought

to cultivate that they may not allege excuses or pretects; And from the proceeds of the first year they shall construct the said Cashbox, with three keys which should be in charge, the one in his hands, another in those of the ordinary Justice and the other in those of the Alcalde or Captain of the Station, and there shall be gathered into it all their valuables and documents without including therein anything which does not pertain to the said Mission, and out of which shall be paid a moderate stipend to the Sexton or Christian Teacher, and whatever else that is more urgent and necessary having no other source to supply the same, with preceding license from the Most Excellent Viceroy, giving him an account of its condition and augmentation, with the understanding that for any malversation or maladministration of the same charges will be made to the Tribunal and he will be held responsible in conformity with Royal Orders. For the better keeping and regulation of accounts, books shall be formed (in case of necessity) where the charges and dates shall be set down, and that he may not be ignorant of this resolution, it shall be made known to him and the Testimony hereof left with him together with the complete one in relation to the Division of lands made in favor of the Spaniards, and of this Act a copy also shall be given to the Reverend Priest, inserting the proceedings and possession of the lands given to the said Mission in the year one Thousand seven hundred and sixty one; and this Act shall be annexed to the Fifth Budget

Proceedings practiced in due order of the
Possession of Lands to this Vicinage of this
Town of Santa Ana of Camargo.

Act.

In this Town of Santa Ana of Camargo, on the Fourteenth day of the Month of June in the Year One Thousand Seven Hundred and sixty eight, I Don Jph. Anto. de la Garga Falcon, Captain and Chief Justice of this said Town and its Jurisdiction by Authority of His Majesty (whom God guard), do say: That finding myself Commissioned by Superior Orders from Their Worships, Don Juan Fernando Palacio, Field Marshal of the Royal Armies of His Majesty, Governor and Lieutenant of the Captain General of this Colony of the Mexican Gulf, Sierra Gorda, their Missions, Garrisons and Frontiers; and the Licentiate Don Jph. de Ossorio y Llamas, Advocate of the Royal Councils and Visitor to this said Colony; to give possession to this Vicinage of the Lands that Their said Worships assigned in their General Visit in the name of His Majesty:

In the observance of which I ought to order and do order that this Vicinage present themselves (so soon as Don Ignacio de Saldana, Attorney of this said Town, shall return and who is now in that Capital for the purpose of bringing with him the Testimony of the Proceedings of the said Visit) that I may proceed to give the possessions that are ordered. Thus I enact, command and sign, acting for myself and with witnesses of my

I assistance with whom I act in
