 con muy corta diferencia de varas, que lle-
 go á orillas del Rio de San Juan y para-
 ge nombrado los morteritos, cuyas ocho le-
 guas midieron y demarcaron Siguiendo siem-
 pre el rumbo del sur, y las incluyeron por
 el corto terreno que quedaba despues de las
 seis (leguas) asignadas hasta el rio de San Juan

y porque no pueden tomar estas á orillas
 del río grande por esta parte cesce Norte á
 Sur, por hallarse ocupadas beneficiadas y teni-

 pio sucederá acia el Norte, como que llega
 el termino de Revilla, aun no distante de
 esta cuatro leguas y dho rumbo es el me-
 nos perjudicial á otro Pueblo, y aun á
 tercero. Desde dho. Morteritos se volvieron
 á la Villa, y tomaron el rumbo al Oriente,
 hecharon desde el centro cien cordeles que com-
 ponen cinco mil varas que ajustaron en
 la Junta del Arroyo Salado con el Río
 grande, y lo demarcaron en el sitio nombra-
 do de D.ⁿ Franco Lina. Desde el cual no
 continuaron al oriente por median el Río
 Rubrica grande, que llevaba mucha cre.^{te} y siguieron
 á su orilla por esta parte, y hecharon
 otros cien cordeles acia Camargo río
 arriba, y lo señalaron en el sitio entre

San Lorenzo y la Lagunita: otros cien
 cordales á la Cañada de los Guages, q^l seña-
 laron: otros cien cordales al Rancho de D.ⁿ San-

cordeles llegaron al parage nombrado el
 cerrito del Arroyo escondido q tambien seña-
 laron: Con otros tantos (muy escasos) á un
 Arroyo llamado del coronel que tambien demar-
 caron y con otros tantos muy escasos al Arroyo
 de la Palinilla, donde se encontraron con las de-
 marcaciones del Perilla, q se acababan de me-
 dir, y demarcar por oñ. de los pres.^{tes} Seño-
 res Comisionados, como consta muy bien
 al que declara, d.ⁿ Iph Antonio Leal
 que antes era tenido de allá, y ahora quedó
 tambien, motivo porque no continuaron
 y se volvieron á la Villa, y desde su centro
 echaron otros cien cordeles enderezados al
 poniente, y completaron cinco mil varas,
 que hacen una legua en el parage nom-
 brado los Cerritos, que se demarcó: otros
 tantos llegaron poco arriba al pa-
 rage nombrado el Nogal, q tambien

Cernearon: Otras tantas al abrebadero de
 las Lajas en las blancas de arriba: y
 otras tantas pegado al Rancho de Tho-
 mas & Barrera, que señalaron; otras tan-
 tas a la cañavera de la Barranca de Ma-
 lahueco, y otras tantas arriba, donde junta
 el Arroyo de papulas con el Rio del Alamo,
 y quedó por lindero un paso, que está arriba
 donde junta dho Arroyo. Ciertas seis le-
 guas asignadas a la Villa midieron cada
 una de por sí, y cernearon siguiendo todas
 al rumbo del Poniente desde esta Villa y
 lo que executaron con las cuatro del Norte
 que llevan dho en la tarde de ayer, y día de

En la misma Villa á veinte y ocho
dias del expresado mes, y año, los Agrimensores

D.ⁿ Juan Iph de la Caxa, y D.ⁿ Ramon Caxa.
 Llegaron á nra. presencia, y delante los Iphs.
 de asistencia, dixeron: que en el dia veinte y tres salieron de esta villa con el
 animo y vivo deseo de satisfacer á sus en-
 cargos, el auto que se les hizo saber, y ha-
 biendo llegado al parage nombrado de la Sa-
 ceda de D.ⁿ Fran.^{co} Caxa, que linda
 con los términos de Formarigo, y demarca-
 do para los de esta Laxida, ont dixeron
 porincipio á las medidas, y divisiones parti-
 culares asistidos de varios Interesados y
 la hicieron en la forma siguiente.

Medidas } Desde dha. saceda girando á la
 particulares } villa del Rio, rumbo de Norte
 tendieron el cordel sesenta (veces) y seis ve-
 ces, y con treinta y tres varas y tercia com-
 pohen tres mil trescientas treinta y tres
 y tercia y ajustan en quadro

Sitio de ganado menor que demarcaron y señalaron á dhas. orillas y á espaldas. A este dieron otro sitio compuesto de las mismas varas, y mas á espaldas las doce cavallerias, cada una de mil ciento y cuarenta varas de largo y quinientas cincuenta y dos de ancho; de esta porción se comprehende un Rancho beneficiado por D.ⁿ Gaspar Garcia primitivo Poblador, pidiola y se le dejó.

2. Siguiendo la misma linea echaron el Cordel cincuenta y cuatro veces, donde comprehendieron un Rancho beneficiado por D.ⁿ Santiago Barrera. Poblador agregado habia como unos ocho años por cuya Rubrica ahora se completaron de fondo los dos Sitios de ganado menor, y seis cavallerias asignadas á los de su merito, demarcaronla á las orillas del Rio, donde dejaron abrebadero

y haviendola demandado su dueño se le adjudicó.

3. Al mismo rambo midieron junto al Rio para dejar abrebadero dos mil setecientas cincuenta y cinco y tercia varas considerando el fondo mas largo por hallarse ya retirado el Rio de S^m Juan, aunque habiendo reconocido el parage de esta porcion hallaron el mismo fondo que en las antecedentes. El sitio de ganado menor compuesto de tres mil trescientas treinta y tres varas de fondo, y las doce cavallerias, q^{ue} solo cauen a espaldas, sin encontrarse con otras porciones, assi lo demarcaron por caillats del Rio, dejandole abrebadero, y por comprehender un Rancho beneficiado por Luis Lopez primitivo Poblador q^{ue} la pidió se le adjudicaron en esta referida forma.

4. Siguiendo la linea donde principia largarse el fondo como en la antecedente se apuntava midieron á orillas del Rio, dos mil setecientas cincuenta y cinco y tercia varas y con diez y ocho mil de fondo ajustan porcion completa que como primitivo Poblador corresponde á D.ⁿ Manuel de Ynojosa que en ella tiene una estancia beneficiada y se le dio.
5. Al mismo punto midieron otras dos mil setecientas cincuenta y cinco varas y tercia y con las diez y ocho mil de fondo ajustan porcion q^{da} le dio D.ⁿ Manuel de Ynojosa el mozo, y le corresponde por lo que hizo el antecedente, se demarco á orillas del Rio, y quedó adjudicada.
6. A la misma linea hicieron el cordel y Rubrica. midieron otras dos mil setecientas cincuenta y cinco varas y tercia que

con las diez y ocho mil de fondo ajustan
porcion, y como primitivo Pollador
corresponde al declarante Dⁿ Ramon
Quera y tiene una estancia beneficiada
en su distrito, se demarco á cuillas al
rio, y se le adjudicó.

7... A la misma linea despues de conchuido
el Texano montuoso, é impenetrable q^d
tocó á las tres porciones antecedentes
motivo porque no pudieron ajustarlas
discretamente, sino á bulto hechas cincuenta
y dos cordales hasta llegar y lindar con los
exidos, en esta medida se com-
prehenen dos Ranchos con texano bene-
ficiado, y sus dueños clamaron se les
repartiese, y dexase á cada uno en
el suyo. Lo q^d hicieron en la forma
siguiente, midiendo veinticuatro corda-
les á Juan Juan^{co} Saenz, que

Act

Let the inhabitants of this town and its jurisdiction
be informally summoned and at the Conclusion
of public Mass it shall be announced that
two experts will be appointed who will visit
through the lands assigned to appear this town
specifying the lands that are irrigable those that
are occasionally irrigable, those fit for Agriculture
Summer pasture, Commons, enclosed and open
grazing and town lands in order to use them
for the purposes to which they are adapted
in so equitable a manner that all shall
equally share the good and the bad, not
neglecting to mention those that are best adapt-
ed to the Mission of which the Rev. Father
Missionary shall be notified in an Official Com-
munication that shall be sent to him in regard
to the different Subjects in order that he or whoever
may act in his place might protect the natives
who ought to apply for the land that may suit
them, and the people also shall appoint two
jurors to do that together with Don Juan de la
Sagua and Don Joseph de Oteros y Salazar whom we

Appointed on behalf of His Majesty as disinterested persons and of a different jurisdiction shall proceed to Survey and Stake out Six leagues around this town which we assign for the aforesaid purpose except at the points where they might meet another jurisdiction or encounter private lands which in this case shall not be taken without express process and inquiries made into the Cause and Fact. They shall make the particular divisions which we will adjudge according to the merits of the parties interested always avoiding prejudice to a third party, public injury which from excess may result to the Royal Eschequer. Power of Attorney

In the town of Mexico on the Twentieth day of the month of July in the year One Thousand Seven Hundred and Seventy Seven before me the Captain and Chief

Justice of the said town and witnesses appeared the Pro-
 -gens thereof who hereby jointly and severally went
 and give their ample full and sufficient Power of
 Attorney so far as may be necessary and Allowed by
 to Don Francisco Sierra, Don Joseph Ramon Sierra
 And Don Joseph Moreno de Chapa Captain of the
 said town in order that these as experts in the knowledge
 of petitioning and Claiming in any Tribunal whate-
 -ever before judges, governors or Chief Justice Sub del-
 -egates of revenue, Visitors general in our names
 And representing our proper persons may petition and Plea
 judicially or extra judicially they use the same without
 any reluctance whatever (and they may treat especially
 with the Picentiate in regard to the tax on Sales). We re-
 -frain from speaking in Court and to admit as well
 done all that they may do and Claim for which
 purpose we give this general Power of Attorney in
 order that they accept what is favorable and Ap-
 -peal what is unfavorable, we do obligate as we do
 obligate ourselves our persons and properties to Con-
 -tribute and sustain them with all the expenses
 that may be occasioned by any suit or action that
 may concern us. We renounce the laws in regard
 to our proper domicile and residence and the
 general law that prohibits it. All of us Sign
 this jointly and at the request of those who
 say they cannot Sign their names Don Juan
 Joseph de la Lanza Patron a resident of the
 town of Camargo signed for them. And the
 said Captain do certify that I do know all the
 grantors, the inhabitants and Colonists of this
 town who signed with me and two assisting
 witnesses as Judge returning (by my Receiver)
 for want of a Notary Public there being none
 in the town to all of which I certify and on this

Petition

Don Francisco Antonio Guerra Don Ramon
Guerra and Don Joseph Florencio de Chapa
Captains of this town and its jurisdiction Attorneys
in fact for the inhabitants thereof placed at the
feet of your Excellencies with the greatest Veneration
and respects Submission say that in virtue of the
powers Conferred on us by the Power of Attorney which
in due form we lay before your Excellencies for the
reason that in Consideration of its having been made
known to all the inhabitants by your Excellencies
order of the of the 21st of the present month
that lands are to be partitioned to each person and
it being necessary for this purpose to Appoint
experts and Surveyors on the part of the people
we in the exercise of said powers Appoint Don Joseph
Santiago Barrera and Don Ignacio Salazar
and as Surveyors we Appoint ourselves Don
Francisco Antonio Guerra and Don Ramon
Guerra and jointly with Don Joseph de la
Garza and Don Joseph Antonio Salazar on the
part of his Majesty it being your Excellencies
pleasure to Appoint the above named persons
jointly and to be in the said Surveyors.

that we may proceed together to examine and survey
 survey and stake out the said lands and to make
 the partition corresponding to each one without prejudice
 to any title or grant that might be adjacent owing to want
 of sufficient vacant space. On this occasion we represent to
 the high Consideration of your Excellencies the drought and
 sterility that in most years prevail in this Country the Scar-
 city of water permitting no irrigation from springs: the
 bed of the river affording the only supply and which in
 no place presents facilities to raise the water and all this
 reduced to the class of temporary or land occasionally irri-
 -gable this failing all fails. So that we think that these Cities
 may have some Convenience for their property considering
 that it is confined to Stock, you have to be pleased to
 Command that a sufficient "porcion" be adjudged to
 each one. Therefore, inviting a Consideration of the merits
 of the parties whom we represent in regard to time and
 Circumstances it being unjust that some persons in virtue
 of a few years residence should obtain equal "porciones"
 We entreat and pray your Excellencies to order to be done
 according to And in Conformity with what we have Alleged
 as justice is what we hope to obtain from your Excellencies
 impartial and well known Commiseration and Aid.

 Ramon Guerra.

Act

Attest this and the Power of Attorney given by
 the Community and inhabitants of the town to the
 fifth file that relates to the partition of lands and
 the proceedings that took place with the Attorneys
 and in virtue of two of these Don Francisco and Don
 Ramon Guerra being appointed Surveyors in the
 name of their parties and Don Joseph de Alencar
 and Don Francisco de Chaves being

(Intro)

Appointed experts they may appear with those appointed by his Majesty. Having first accepted and sworn to execute and fulfil what is prescribed in the act of yesterday. And proceed therewith dividing themselves into two parties for the more rapid execution of this matter. Don Joseph Antonio Leal Surveyor on the part of his Majesty to act with Don Francisco Guerra Surveyor on the part of the people and Don Juan Joseph de la Torre with Don Ramon Guerra for which purpose they shall use Coats of Fifty Mexican Varas each which the Captain ought to have as prescribed. The said experts shall examine the said boundaries (lands) returning to state their quality in order to apply the lands to the purposes for which they are adapted. This and the former act shall be made known to both parties. Thus we decide and sign at this one the Twentieth day of July One thousand Seven Hundred and Seventy seven.

Report of the Surveyors Don Juan Joseph de la
Sarga and Don Ramon Guerra.

In the same town on the Twenty second day of
 the said month and year the Surveyors Don Juan
 Joseph de la Sarga and Don Ramon Guerra ap-
 peared before us the former representing his Majesty
 and the latter the inhabitants, and said that to Com-
 ply with their duties they set out yesterday with the
 intention of marking the lands assigned to the town
 and taking the Course South and using a Cord of
 Fifty Mexican varas, as verified by the present Com-
 missioners. They began at the Centre of this town
 and measured one hundred Cords which make nine
 Thousand varas and marked the site called the
 "Alto de la Alherca" with some rocks. An equal num-
 ber on the same Course which they completed in a
 ravine that runs from East to West and called "de
 Jts." they marked the place and measured an equal
 number of Varas to "Palo Alto" which they also
 marked, a like number of Varas to a drain that
 runs into San Antonio where they marked the site, an
 equal number of varas to the "Potrero" of San Joseph
 de Alherca which they marked, a like number of
 varas to the "Bosque" which they also marked.
 An equal number of varas to the "Bosque" of San
 which they also marked.

four varas to the bank of the river San Juan and place
 called the "Moritorios" which eight leagues they measur-
 ed and marked always continuing on a South Course
 and they included the small tract that remained
 after the six leagues assigned as far as the river
 San Juan and because they could not be taken to
 the margin of the Rio Grande on this side from North
 to South it being taken up with improvements and held
 by the town of Camargo and the same will occur on
 the North as it would reach the boundary of Revilla
 which is not even four leagues distant from this
 town and the said course is the least prejudicial to any
 other town or to a third party. From the said "Mor-
 torios" they returned to the town and took the East
 Course from the Centre and measured one hundred
 Cords which make five thousand varas which they
 completed at the Confluence of the Creek Salado with
 the Rio Grande they marked the place called La
 Francisco Guerra from which they did not continue
 East the Rio Grande intervening and being much
 swollen they followed its margin down on this
 side and measured one hundred Cords in the
 direction of Camargo and marked the site between
 San Lorenzo and the Lagunita. One hundred
 Cords more to the ravine "de los Guajes" and mark-
 ed. One hundred Cords more to the farm of Don
 Santiago Barrera of this vicinity which they marked
 and a like number to the place called the Crucera
 of Francisco Garrya where were Don Joseph Anto-
 de la Garrya Captain of Camargo and other
 inhabitants of that town who assembled pur-
 suant to the notice sent them by order of the Com-
 missioners by the Captain of this town Don
 Joseph Chahua to divide and mark the bounda-
 ries of the land and they agreeing in opinion
 with the said who assisted and received marked

Report of the Surveyors Don Joseph Léal and
Don Francisco Guerra.

In the aforesaid town, day, month and year in our
presence appeared the Surveyors Don Joseph Léal
and Don Francisco Guerra, the former on behalf of
his Majesty and the latter in behalf of the people
and said that in virtue of the acceptance and Cath
which they took yesterday they proceeded to mark
the boundaries assigned to this town and its juris-
diction. They began in the Centre of the town and on
a North Course measured One Hundred Cords of
Fifty varas each which make Five thousand varas
equal to one league which they completed on a
height called the "Corrales de Sacu" and marked
the same one Hundred Cords more they arrived at
the place called "Cerrito del Arroyo Escondido"
which they also marked, with an equal num-
ber went south they arrived at "Arroyo del
Coronel" which they marked, and with a little
number very scant they arrived at "Arroyo Chi-
nilas" where they encountered the demarcations
of the town of Revilla, as is very evident to the deponent Dr.
Don Antonio Léal, who was heretofore and is
now a resident of that town whereupon they con-
tinued measuring and marking the order

of the present Commissioners, therefore they decided
and returned to the town from the Centre of which they
measured West One Hundred Cords and Completed
Five thousand varas which make one league to the
place Called the Curridos which was marked, at
an equal number of varas they Arrived a little above the
place Called the "El Sigal" which they also marked, at
a like number of varas the watering place of "Las Lajas"
at the upper "Las Blancas" at an equal number of
varas they Arrived near the farm of Tomas Bruna
which they marked, at a like number of varas the
head of the ravine of "Morales" at an equal num-
ber Arrived at the Confluence of "Pajuela" Creek with
the river "Alamo" and the Crossing above the Said
Confluence was made the boundary. Which Six leagues
assigned to the town they measured and marked
separately on a West Course from this town together
with the Four leagues on the North they performed
as above Stated yesterday evening and today. Of
this is all they are able to say and declare in ful-
fillment of their duties. They signed with us

Report of the Experts.

In the same town on the aforesaid day month and year in our presence Don Joseph Santiago de la Barrera and Don Ignacio Latorre experts appointed by the inhabitants and proposed by the Attorneys and said that in fulfillment of their duties and under the oath which they have taken they examined the lands assigned and marked by the Surveyors for the limits of the town; and being unable to obtain North and South on the Margin of the Rio Grande on this side the six leagues necessary and indispensable whereof to make the Special partition Contemplated by the present Commissioners and heretofore offered to every Colonist having on the said Courses encountered the lands pertaining to the jurisdictions of Revilla and Camargo. They did not Cross the Rio Grande in a West Course (I mean East) owing to the full Condition of the river, but their preexisting Knowledge of the lands examined as well as of those to the West they are induced to declare and say that all the lands are of the same Class without any particular difference in irrigation except such as may be obtained at the occurrence of Storms; and they regard as the most appropriate and useful for Commons grazing lands, pasture and town-lands those next to the town whence the Community may appropriate and use them as being most convenient without opposition of third parties and in the remainder they make the particular "porciones" though they apprehend that there is not in those assigned sufficient extent to give each his "porcion" to maintain property and Cattle in this Arid and dry Country which they recommended to the gentlemen present and further that a cutting line at the river be given to

(rubric)

to every one, otherwise the Cattle will certainly perish
and the "porciones" of land become useless.

Although on account of serving his Majesty all are
meritorious, yet it seems to the Depoñents that those
Nineteen Colonists who founded this town deserve
some preference. As it has been claimed and fur-
ther alleged that this land most appropriate
for the Mission is the "potrero" of the "Borregas" and
"Penitas", Commencing from the Commons on the
West Side, being nearer to the town where the In-
dians live together and being on that side able
to avail themselves of the Commons and pastures &
grazing lands, and it might be added the advantage
of having the water that Comes in the Creek "Tula-
gas" and "Alamo" to which lands, as they were re-
formed, the father Missionary and the Indians
inclined and even the Captain according to order he
reported them to him to be the best.

This is all they are able to say and declare on the
Subject, nothing to the Contrary being either known
or occurring to them, what they have stated being
very evident to them. Thus Signed with us
and those of our Assistance.

the length or depth so that all might share the advantages of the water which used so much. Cvet The length is three thousand three hundred and thirty three and one third varas square. And the Caballeria one thousand one hundred and four varas long and five hundred and fifty two wide which shall be chosen so that a third party shall not be prejudiced; and they shall compute what may be necessary to reduce in the width in order to compensate in the length making the figure a prolonged quadrangle until the whole of the particular portion is adjusted.

They shall bear in mind the possession and improvement of each individual, so as to include it in the part that may pertain to him, and ~~vice versa~~ shall not dispossess them without just cause or motive proceeding from those having no improvement or not being suited. The portions shall be chosen by lot in order to avoid complaints for which purpose the portions shall be numbered. At the same time they shall make five leagues of that remain of the limits assigned to the town on the East Course on the opposite side of the Rio Grande, and the said measurement and that pertaining to the division completed the survey of the Public Square shall be proceeded with according to the extent of the place and number of inhabitants assigned to the Colonists and public buildings with the destination, classes and conditions that shall be hereafter provided.

In the same town on the Twenty eighth day of the said month and year the Surveyors Don Joseph de la Sarga and Don Ramon Sierra Came into our presence and before the assisting witnesses said that on the Twentieth they set out from this town with the intention and earnest desire to execute their Commissions as required by the act that has been explained to them and having arrived at the place Called the "Sauceda" of Don Francisco Sarga which adjoins the boundaries of Camargo and marked for those of this jurisdiction. They Commenced the Survey and Subdivisions in the presence of several interested parties and executed the same in the following manner.

Particular Survey.

1.

Turning round from the said "Sauceda" on the margin of the river in a North Course they extended this Cord North Six times and with this by three and one third varas in a square made one league of pasture land for the cattle

it was staked and marked on the said margin, and at the rear of this they measured another league of equal number of varas and further to the rear the Twelve Caballerias each of one thousand one hundred and four varas long by Five hundred and Fifty two varas wide. This portion contains a farm improved by Don Gaspar Garcia ^{an original colonist} he applied for it and was left to him.

2

Following the same line they extended the Grid Fifty four times where they included a farm improved by Don Santiago Barrera a settler of about eight years for which reason they completed the depth of two leagues of pasture for small Cattle and the Caballerias assigned to those of his merit they marked it on the margin of the river where they left a watering place and its owner having applied for it it was adjudged to him.

3

On the same Cruise they measured close to the river so as to leave a watering place three thousand seven hundred and fifty five and one third varas regarding the depth longer on account of the river having fallen, though an examination of the condition of this portion they found the same depth as in the foregoing of one league of pasture for small Cattle. Extent of Three thousand three hundred and thirty three varas deep and the rear contains only the twelve Caballerias without encountering other portions. They marked it on the margin of the river. It was left to the settler of the same name by reason

of the Containing a favor improved by Don Lopez a pri-
vate Colonist who applied for it. they adjudged it to him in
the form aforesaid.

4

Following the line where the depth begins to lengthen
as remarked in the foregoing they measured on the
margin of the river Two thousand Seven hundred and
fiftyfive one third varas and with Eighteen thous-
and varas in depth they adjusted a Complete "porcion"
which as a private Colonist Corresponds to Don Alonso
del Rio who has an improved dwelling on it, and was
left to him.

de Inojosa
on p. 217.

5

On the Same Curve they measured Two thousand
Seven hundred and fiftyfive one third varas
more which with Eighteen thousand varas in
depth Complete a "porcion" for which Don Juan
Inojosa Jr. applied and which Corresponds to him
as a Son of the preceding, it was marked on the
margin of the river and adjudged.

6

On the Same line they extended the Cord and
measured Two thousand Seven hundred and
fiftyfive one third varas more which with
Eighteen thousand varas deep adjust a "porcion"
that Corresponds to the deponent Don Ramon
Sierra as a private Colonist who has an im-
proved dwelling in it, it was marked on the
margin of the river and adjudged to him.

entire

7

In the same line after the impenetrable and timbered lands that pertained to the three preceding "porciones" were passed, and for which reason they could not be carefully surveyed, but in bulk fifty five Ceros were measured to the boundary of the Town Common in which measurement were included two farms with improved lands that the owners claimed to be divided between them and to leave his acre to each, which was done in the following manner: By measuring twenty four Ceros for Francisco Sainz which were marked on the margin of the river and with four leagues assigned as the depth the two leagues and Sir. Caballero that correspond to him as a ten years settler in the town. It was marked on the bank of the river and left to him.

8

In Continuation they measured the remaining twenty eight Ceros remaining which make one thousand two hundred varas and arriving at the boundary of the village Common which with four leagues in depth adjoining the Common completed the "porcion" that was marked on the margin of the river and which corresponds as a son of a primitive Colonist to Ferraz de Enxosa who has an improved dwelling in it. it was given to him.

9.

(entire)

Having concluded the eight foregoing porciones in the manner aforesaid they proceeded South to the bank of the river close by to the site or watering place called "Morcoteles" and proceeded to divide the porciones from West to East and measured thirty five Cords which make One thousand Seven Hundred fifty varas and with an equal number in the opposite end and Seventeen thousand and varas and upwards deep they Completed a porcion and marked it upon the margin of the said river for which Don Francisco Pina applied on account of his having his property therein and in virtue of an order communicated this day in regard to the inhabitants of Camargo it was left to him.

At the close of the twentieth day of the month of September One thousand Seven Hundred and eighty one this porcion was adjudged to Don Jose Vela a Colonist who lived in this Colony previous to and since its conquest which appears from a document in his possession, showing the fact and for its due effect I subscribed it.

10.

They extended the Cord thirty five times more which One thousand Seven Hundred and fifty varas with a like number in the opposite end and Seventeen Thousand varas deep make a full porcion. Teodoro Pina applied for it and it was given to him as in the foregoing.

11

Thirty five other Cords were measured which make One Thousand Seven hundred And fifty Mexican varas together with an equal number in the opposite end and Seventeen thousand varas long Completed a portion that was marked on the aforesaid margin and Contains the farm of Rosa Garcia which was left to her as prescribed.

12

Following the Same line they measured thirty five Cords more that make One thousand Seven Hundred and fifty Mexican varas which with an equal number in the Opposite end and Seventeen thousand varas in length make a portion. It Contains the improvements of Don Joseph Vela formerly a Resident of Camargo who Applied for it and in Virtue of his having declared himself a Resident of this place it was adjudged to him as in the foregoing it was marked on the margin of the Reel.

13

On the Same Course they extended the Cord thirty five times more which make One thousand Seven hundred And fifty Mexican varas that with with an equal number in the Opposite end and Seventeen thousand in length Complete a portion on Bartholome Flores Claimed it he having his property there and in Virtue of his having declared himself as of this place as the preceding it was left to him.

15

On the same Course they measured Thirty five
Cords more which make One thousand Seven hun-
dred And fifty Mexican varas with an equal
number in the Opposite end and Seventeen thou-
sand and in length ^{Completes a porcion} it was marked on the margin
of the river. Don Joseph de Anasco an old
Colonist of this town applied for it and it was
adjudged to him.

16

In the said line they measured Thirty five
Cords which make One thousand Seven hundred
and fifty Mexican varas, that with an equal
number in the Opposite end and Seventeen thou-
sand Completes a porcion. it was marked on
the margin of the river. Don Manuel San-
daval also an old Colonist of this town applied
for it and it was adjudged to him.

17

On the same line they measured Thirty five Cords which make One thousand Seven hundred and fifty Mexican Varas, which with an equal number in the opposite end And Seventeen thousand in length make a portion. They marked it also in the margin of the same river. Joseph Antonio Olivares applied for it, and it was given to him on account of having his property there.

18.

29

On the same line and Course they measured Thirty five Cords which make One thousand Seven hundred and fifty ^{american} varas with an equal number in the opposite end and Seventeen thousand in length they Completed a portion which they marked at a place called the "Salto" adjoining the boundaries of Camargo. Harvey Salinas an old Colonist of this town applied for it and was adjudged to him. These Two portions "porciones" were stated and marked in the manner aforesaid within the limits assigned to that town in the year Fifty three by Governor Escandon according to the surveys made by the Captains of Camargo in the year Fifty one with the object of being used by that town which so happened up to the founding of this and the attainment of Fifty three did not go into effect until the present time though they continued Citizens and residents of that town all of which will accordingly appear very clearly from the "Distinctions" of the foundation of the one town and the other. The Captains of Camargo having further arrived to the same on the same land where he went to the "Sauceito" where

Imbrie

The districts are divided.

30

From the said place Called the "Salto" they proceeded in the South bank of the river Alamo and commenced at the place Called "Malabuco" west from the Confluence of the Creek Pajulas with the river Alamo and following the east Course they extended the Cord Sixty six leagues and with thirty three and one third varas make Three thousand three hundred and thirty three and one third varas and in Square make one league of pasture for Small Stock they measured another at the back of this and further to the rear the Twelve Caballerias They marked it on the margin of the Alamo river. It includes the farm of Marcelino de Trojoso and not being of this jurisdiction or parish they did not Close the adjudication.

31

On the same Course and South bank they measured Sixty six Cords more which make Three thousand three hundred and thirty three and one third Mexican varas and a league of pasture for Small Stock in a Square and at the back of this another league and further to the rear the Twelve Caballerias They marked it on the margin of the river Alamo. Donisio Rosendi a Colonist of this town Applied for it and it was adjudged to him.

Outline

Following the same course towards the East they measured Sixty six Cords which make Three thousand three hundred and thirty three and one third varas and one ^{Square} league of pasture for small stock they measured another league at the back of this and further to the rear the Twelve Caballeros and completed a porcion which they marked on the Margin of the river Alamo. It extended to a dense wood. Francisco Gil also a Colonist of this town applied for it and it was left to him.

These three porciones were Surveyed in the manner aforesaid but no other could be measured without interfering with the watering place. Penitas which it seems is destined for the Mission as the best and most suitable on account of its proximity to the town and the water facilities of the said river Alamo.

From that place they proceeded to the rear of the Commons on the South side and examined the depth that remained vacant between the river San Juan and Alamo and perceived that they could adjust only three porciones whose length would be from North to South.

Along the rear of the Common they extended the Cord Thirty five times which make One thousand Seven hundred and fifty varas which with a little number in the opposite end and Seventeen thousand in length complete a porcion that contains a farm improved by Don Joseph Pina and having been marked it was adjudged to him.

Continuation of Particular Surveys

36

On the same town on the Twentieth day of the month and year aforesaid, the Surveyors Don Joseph Antonio Leal and Don Francisco Guerra came into our presence and declared, that on the Twenty-third they set out with the intention of commencing the Special Surveys as they had been ordered and executed the same. They took the direct route West to the place called "Pujillas" Creek at its Confluence with the Alamo the place hitherto marked as a landmark, where they extended the Cord Sixty Six foms and with Thirty-two and one third vara, make one league of pasture for Small Stock Surveyed equally in a Square, and another league at the back of this and the Twelve Caballerias further to the rear complete a porcion. It was marked on the north bank of the River Alamo, and as proposed by the Attorneys it was adjudged to Pablo Longato, included in the Register.

Note. On the Sixth day of the month of August of the year 1780, this porcion was adjudged to José Maria Urea a new Colonist as appears from a judicial instrument that remains in his possession for his security, and for its due authentication I indicated it.

37.

Following the same line East on the Margin of the River Alamo they extended the Cord Sixty six times more and thirty three and one third varas at each end and an equal Survey to the back and the Twelve Caballeros further to the rear Complete a portion, it was marked on the margin of the River Alamo and as proposed by the Attorneys it was adjudged to Manuel Adams, a registered inhabitant.

Survey of the Plaza

We proceeded forthwith together with the Captain
 and Surveyors Don Joseph Antonio Lora and Don
 Francisco Guerra to examine the site of the plaza
 intended for the town and considering its symmetry
 and the number of inhabitants we decided to measure
 it as a prolonged quadrangle giving it one hundred
 varas from North to South and ninety from East
 to West which was surveyed and staked leaving
 space for two streets each ten varas wide at each
 corner and we assigned for the two blocks the one
 of which that faces East four lots of twenty varas
 front and forty in depth; and that which faces
 East being the highest and suitable for a temple
 was reserved, which will be considered necessary at
 the time of erecting it, and leaving vacant ground
 at the sides; the lots that were he adjusted to
 have the said front and depth. That facing
 South is set apart for the houses of the Captain
 and Judge to which equal limits were assigned
 and the public office and jail to be at the sides
 That which fronts North three lots were as-
 signed. And the remainder should conform
 to the Plaza with a length of 100 and depth of 90
 in blocks arranged and numbered to

Correspond with the number of blocks and be ap-
 portioned to the Colonists and inhabitants in the
 mode and manner that shall be hereinafter stated
 and in order to evince this proceeding we sign with
 the Surveys and our assisting witnesses.

Acts.

We adjudge the Seventy-eight porciones of land
 Appointed to the inhabitants of this town and
 its jurisdiction as the Surveys say they have
 done; among whom are included the ten Colonists
 of Camargo recently annexed to this town for
 the reason of their having occupied their farms
 within the limits marked and apportioned to
 this place; also Ignacio Garcia and Marcelino
 Chofra who are comprised in numbers Twenty six
 and Thirty four and are desirous of using them
 in submission to this town and its jurisdiction
 Spiritually and temporally. So we declare them
 in property as taken and occupied by individ-
 uals to whom they belong as stated aforesaid
 and proposed by the Attorneys and all with
 the liabilities and Conditions following:

That each must build a house on the lot that
 may fall to his lot within two years under the
 penalty of forfeiting it together with the lands
 assigned; that they shall not be sold, exchan-
 ged, able to sell, mortgage or alienate them
 to ecclesiastics or prohibited persons under
 the same penalty; that they must take

possession within the term of six months Counted from the publication of this. And for the due effect of which and the execution of its Contents a Complete Testimonio shall remain with the Captain and judge in order that he may file it as Security of the parties as soon as the Said possession shall be effected and in the act of this he shall erect visible and durable landmarks to each portion and league designated that their permanence may prevent disputes and injury of third parties.

S
Rubric

Also there shall be left with him a Testimonio of the proceedings had in regard to the Mission which follow therefor their punctual observance, and to send another to the Rev.^d Father Missionary as the act that Concludes them prescribes. He shall partition lots among the inhabitants giving to each Twenty varas front and forty in depth, and they shall be drawn by lot, the party interested to draw his ticket and note it a judicial act, and having done so he shall permit a Testimonio to serve as a Credit attaching it to these Acts, and on the contrary the requisite measures shall be taken.

To the Colonists that may hereafter be added he shall assign lots and Opportune lands which they may Cultivate without ad valorem tax to them in propriety until they apply to the proper tribunal for the grant thereof, they to register themselves forthwith with this distinction. And in regard to the farm which the Said Captain possesses in the place called the "Chifinque" and others wishing to obtain absolute ownership of lands in addition to those assigned and marked out for this jurisdiction may have the same recourse. The Colonists as before are charged with the natural defense in case of invasion, and to the end that the public Good may be promoted with zeal and punctuality

They shall elect the beginning of each year an Attorney
general who shall watch over and defend the
Common Cause and by petition demand the ful-
filment of all as aforesaid or on the contrary
the infliction of the penalty established, and two by the
Said Town Aldermen who with the judge shall
encourage its advancement. This election shall
take place at a Convocation of the inhabitants at the
beginning of each year, those to serve who receive a
majority of the votes. These three shall take special
Care of the lands adjudged for Commons and town
property, they always to bear or produce some Proof
that its product may serve in Common utility if
necessity should require it. Keeping an exact account
of what they may expend. All of which they shall
watch with the Care that so important a matter re-
quires. It being understood that are liable to be Cal-
led to account at all times whenever his Majesty or
supreme government may so order. Thus we decide
and Sign with those of our Assistance at Mexico

benefit and who in the course of time with the
 use of the said lands might be able to maintain
 their stock acquire more love for the Spaniards
 and be able with greater facility to embrace our holy
 faith and Christian religion. The said Indians
 being incapable of appearing for themselves, or to
 appear judicially or extra judicially, it is necessary
 for me and it pertains to me only as such Minister
 of doctrine to appear as in their name I do appear
 And Considering what your Excellencies learned
 from the inhabitants whom you commanded to tell
 the truth in regard to what lands are the best
 most convenient and best adapted to said Indians
 and their Mission and the said inhabitants testified
 the lands of "Borrego" and "Páitas" together
 with their "Pobres" and your Excellencies ord-
 ed them to survey these lands for the said Indians
 and their Mission.

And your Excellencies may deign to grant
 them Six Leagues of pasture for large Cattle, be-
 ginning to survey from the Commons of this
 town to where the said survey may extend, and
 that they remain respectively as the Surveyors who
 are chosen for this purpose would ascertain and who
 know that on this which is the west side of
 the river Alamo no prejudice could result there-
 fore to any person. Also in regard to the said Missi-
 on which has to be situated within the town Com-
 mons in the most suitable place that can be
 found therein which are supposed to contain
 good and sufficient vegetation, and perhaps
 there may be sufficient water for the Mission
 to raise water for irrigation from the river Ala-
 mo above. Your Excellencies have to grant
 two Caballerías of land on the west side of
 the town for the said Indians to cultivate in

On the Thirtieth day of the said month and year At the said Judge Commissioner Attorneys and witnesses the foregoing possessions being concluded proceeded South and West to the margin of the river. Claims on the South side and having taken the Course from the boundary of the Commons to Miami and Count the number of Cordos corresponding to those marked and assigned to the Mission of this town. It is to complete three leagues it being proper that they should not be limited, notwithstanding that in the Act of Visit three entire leagues are not given and also that the said tract of land should be square, and so that it should agree with the front three leagues were given to each side and resulted with Twelve leagues ground to which the Rev. Father Missionary and the Indians Conformed. The site of the Mission being within the Commons and Contiguous to the said lands as Commanded in the Acts of Visit. And the Rev. Father Signed with me the Attorneys and witnesses to which I Certify.

On the said day month and year At the said Judge Commissioner having finished giving all the possessions that appear in the Act of Visit to which all the parties interested Conformed. I ordered them to be given to the Captain and Chief Justice of this town Don Joseph Alvarado de Chapa for their effect. Thus I decided Commanded and Signed with the Attorneys and assisting witnesses to which I Certify.

On the ^{second} ~~first~~ day of June of the year one
thousand Seven hundred and Seventy eight I
Don Joseph Florencio de Chapa Captain and
Chief Justice of this town having examined the pre-
going proceedings executed by Don Joseph Santiago
Barrera my lieutenant and Commissioner for the
purpose which I recognized on Twenty seven written
and one blank leaf which I examined and ~~checked~~
agreeably to the Acts of Visit. All the parties interested
being present, stated that they were Satisfied with
the possessions individually given and that they
would not retract, and in view of this Conformity
I order that a Literal Testimonie thereof be made
and transmitted to the Supreme Government without
loss of time And that he Continue to adjudge to each
the lots that he occupies on the Site of this town giv-
ing to each Twenty varas front and Forty in depth
which are the Laws that by Law and Supreme
order is Commanded to be given to those present
and likewise to those whom in the future may
Apply for them for their buildings. Thus I
Decided, Commanded, and Signed with witness
of assistance and the two Notaries; and that
this Original be filed in these Archives in my
Charge for its due effect to all of which I testify.
