of close cultivation by the Home-
Seeker and Capitalist.

#54826

HOUSTON HEIGHTS.

THE accompanying plat is a correct presentation of *HOUSTON HEIGHTS*, showing its contiguity to the city of Houston; its streets and alley-ways; electric street railway; steam railroad, connecting with the twelve lines centering in Houston; residences, industries and various other buildings, all combining to make up the grand sum total of the choicest and most desirable real estate ever put on the market in the Southwest. It is just two miles from the Harris County court house to the HOUSTON HEIGHTS GRAND BOULEVARD, and thence the route lays through graded and paved streets with artificial stone curbing and sidewalks.

HOUSTON HEIGHTS has its own artesian water works system; its own electric light and power plant, and is sewer-drained throughout.

Lots are now on sale. Call or write for further information.
