- 1) All coordinates and bearings shown hereon are grid values referenced to the Texas Coordinate System of 1983, South Central Zone and NGS Monument "HGCS D 53". All distances shown hereon are surface distances unless noted and may be converted to grid distances by multiplying by a scale factor of 0.99987517. The mapping angle for this project is 01°56'58".

NOTICE:

This survey was performed in accordance with Section 33.136, Natural Resources Code, for the purpose of evidencing the location of the shoreline in the area depicted in this survey as that shoreline existed before commencement of erosion response activity, as required by Chapter 33, Natural Resources Code. The meander line depicted on this survey fixes the shoreline for the purpose of locating a shoreline boundary, subject to movement landward as provided by Section 33.136, Natural Resources Code.

I, William E. Merten, Licensed State Land Surveyor in and for the State of Texas, do hereby certify that on April 12, 2007, I have located the natural contour line of Mean Higher High Water on the ground, according to law and with the personnel stated, and that the meanders of said contour line are true and correct as shown hereon. To the best of my knowledge, no artificial fill or any development, other than as shown hereon, that would cause alteration to said contour line has occurred within the area surveyed.

### Public Notice

The Texas Health and Human Services Commission (HHSC) announces its intent to submit amendments to the Texas State Plan for Medical Assistance, under Title XIX of the Social Security Act. The proposed amendments are effective September 1, 2010.

The Legislative Budget Board and the Governor's Office informed HHSC in a letter dated May 17, 2010, of their revision to the Spending Reduction Plan for the 2010-11 Biennium submitted by HHSC. The spending reduction plan was submitted in response to a letter dated January 15, 2010 from the Governor, Lieutenant Governor, and Speaker requesting a spending reduction proposal. As a result of this revision to the spending reduction plan the proposed reimbursement for all procedure codes submitted on and after September 1, 2010, will be equal to the reimbursement indicated on the agency's current fee schedule in effect at the time, less one percent. The amendments will modify the reimbursement methodologies in the Texas Medicaid State Plan as a result of Medicaid fee changes for the following services:

- Clinical Laboratory Services (non-state entities)
- Freestanding Psychiatric Facilities (non-state entities)
- Ambulatory Surgical Centers
- Hospital Outpatient Medicaid Services
- Renal Dialysis Facilities

The proposed amendments are estimated to result in an additional annual aggregate expenditure of \$(2,134,193) for the remainder of federal fiscal year (FFY) 2010, with approximately \$(1,513,998) in federal funds and \$(620,195) in State General Revenue (GR). For FFY 2011, the estimated additional aggregate expenditure is \$(25,610,308), with approximately \$(16,174,191) in federal funds and \$(9,436,117) in GR.

Interested parties may obtain copies of the proposed amendment by contacting Kevin Nolting, Director of Rate Analysis for Hospital Services, by mail at the Rate Analysis Department, Texas Health and Human Services Commission, P.O. Box 85200, H-400, Austin, Texas 78708-5200; by telephone at (512) 491-1348; by facsimile at (512) 491-1998; or by e-mail at Kevin.Nolting@hhsc.state.tx.us.
