

# WE WANT YOU TO COME AND GO DOWN WITH US

See for yourself—don't take our word for it, but come and go down to the valley and look it over personally. Maybe we are enthusiastic, but when we see hundreds of farmers from the north growing big crops the year around, making \$300.00 to \$500.00 per acre, why shouldn't we be enthusiastic?

But there is nothing like looking over a country yourself, and for that reason we have arranged, for a short time, to run private excursions from Kansas City every two weeks.

We have our own private cars and everything is arranged to make you comfortable. This trip will be one of the most enjoyable that you have ever taken.

This map gives you an idea of the territory we go through. When we reach the valley we spend a couple of days going over it in automobiles, and then coming back we stop at Galveston, where we go bathing in the Gulf and have a fine time; then we leave Galveston for Houston, where we drive over the entire city in automobiles, then we journey homeward.

Make arrangements to join the next excursion and bring your wife with you. Write us and make reservations now or see

.....  
our local representative.
