HOMER D. WADE, Secretary

Amarillo and the Amarillo Country

OF THE PANHANDLE OF TEXAS

A GOOD PLACE FOR THE FARMER, MERCHANT OR BUSINESS
MAN TO LIVE OR MAKE A LIVING IN

Amarillo is the center of a rolling, fertile prairie, having adjacent territory in area 24,000 square miles--two-fifths as large as the whole State of *Illinois*. Amarillo in size and importance overshadows every town and city in the above-described territory. There is no city within 275 miles in any direction that approaches its importance commercially or as a railroad center.

The adjacent territory heretofore has been devoted to stock raising. These same lands where farmed are yielding profitable crops of wheat, rye, oats, Indian corn, sorghum, maize, broom corn, kaffir corn; melons, fruits and vegetables, millet, peanuts, cow peas and sweet potatoes especially do well.

The Amarillo lands promise to be just as profitable in the raising of hogs, poultry, cattle and horses as the lands of Iowa, Missouri, Kansas, and are much cheaper. All this section has fine water, sunny climate, some wind, but no cyclones. Average rainfall, 24 inches. Churches and schools to meet all demands. Our lands are constantly being occupied.

Why not you come and join the procession and help develop the newest and best country on earth? Amarillo, the center of this vast territory, offers every inducement to the man seeking investment or the man seeking a healthful place for a home. It affords a great market for poultry products, dairy products, and all kinds of vegetables.

What we need is progressive farmers who will supply these growing market demands. A man takes no chance on diversified farming and stock raising in this country. It has been fully demonstrated. Such a man will be subject to the income-tax after living here a short time.

To the young, energetic farmer of the North and East! We advise you to come to this new country. Look at your map. Look up Amarillo. Look at the railroads entering the city. Look at its distance to other large centers. Come and see what we, the farmers, raise and what the country needs. Come, investigate, and invest. Our population is about 15,000. We want 15,000 more people just like the ones we have.
