The Electrified Way to Puget Sound

BETWEEN Harlowton, Montana and Seattle—Tacoma, on Puget Sound, rise four great mountain ranges. They shoulder each other the length of the continent, a back-bone for the hemisphere and a roof for the world. Across this great divide, where peak and pass and canyon compose a vast and gorgeous canvas, the route of the Chicago, Milwaukee & St. Paul is electrified. That incomparable transcontinental train, "The Olympian," speeds this rugged reach of more than 600 miles with the jarless, smokeless, faultless ease of fluid power. Over this route and upon this train you experience the full significance of the national verdict that "this is the very last word in transportation and the 'Milwaukee' is the most progressive railroad in the world."

SEND FOR A MASTER KEY

Which can unlock the secret chambers of success; can throw wide the doors which seem to bar men from the treasure house of nature; it is for those only who are wise enough to understand, broad enough to weigh the evidence and firm enough to follow their own judgment.

"The Master Key" is a key with which many are converting loss into gain, fear into courage, despair into joy, hope into fruition.

Mention RAND McNALLY POCKET MAPS When Answering This Adv.

When travel-weary try this new refreshing trick

After a hard day, when your head feels foggy—and your face is drawn and tired—Mentholatum will give you new life. Wash off the dust and grime with hot water. Spread plenty of Mentholatum on your face, forehead, and throat. Let it stay for three minutes. Then cover your face with a cold, wet cloth. Wipe off the Mentholatum with a warm cloth—another dash of cold water—and you're as fit as a fiddle!

Mention RAND McNALLY POCKET MAPS When Answering This Ad.

Handwritten text on the right page, likely a journal entry or a list of names, written in dark ink. The text is mostly illegible due to fading and the texture of the paper. Some words are partially visible, such as "Wrenham" and "Hearne", which correspond to the locations on the map. The text is arranged in several lines, with some words appearing to be names of people or places.

FLYING into the unknown—sometimes day after day—passing over rugged country, stretches of desert land, ice wastes, open seas—airmen fully realize the value of maps.

The standard Rand McNally Pocket Maps which are used so universally by land travelers are also used by the men who are pioneering travel by air. The information conveyed is invariably exact, invariably up-to-date, thoroughly trustworthy and adequate.

Fully conscious of their responsibility, upon which so much depends, Rand McNally & Company make sure that every map leaving their hands is absolutely perfect for the purpose for which it is intended.
