

DESTINATION
FRIONA, TEXAS
VIA SANTA FE

Wright's
Special
Train

BETWEEN
KANSAS CITY
AND THE
PANHANDLE COUNTRY

WRIGHT'S SPECIAL TRAIN.

This train is not run merely for the pleasure it affords. The service was inaugurated nearly three years ago in answer to a well defined business need. By means of it we are able to save our customers some money and many of the discomforts of ordinary travel.

All regular trains on "excursion day" are over-crowded and seldom run anywhere near schedule time. The equipment of Wright's Special is first-class throughout.

The cars are all late style Pullman tourists, providing comfortably for the over-night run from Kansas City. A charge of \$1.00 per passenger is made for berths each way—about one-fifth the usual charge for an equal distance. A dining car is included, in which meals are served by a competent caterer at 50 cents each—at least one-third less than is ordinarily charged for similar service. By special arrangement we make better than regular schedule time; no unnecessary stops delaying us.

The people in charge of the train are all experienced men with special instructions to look after the comfort of our guests, and our salesmen are present to assist and to see that the instructions are not neglected.

To take advantage of the special train service it is only necessary that you purchase your ticket to Friona, Texas, on the Santa Fe Railroad, via Kansas City, on either the first or third Tuesday of the month, on which days all railroads grant special rates to the Southwest. Arrived in Kansas City, some one of our representatives will see to it that you are properly directed to our train.

It should be understood that this is a private train, operated in connection with our large real estate business and that we have no accommodations upon it for any but bona fide homeseekers. It is our intention to restrict our passengers to this class. This does not, of course, bar the homeseeker's wife. We are glad to have her with us and always make special efforts to the end

that the journey shall be a pleasant as well as a profitable one for her.

Following is the schedule upon which we operate—subject to change without notice:

Leave Kansas City 10:30 a. m.
Wednesday.

Leave Emporia 1:45 p. m. Wednesday.

Leave Newton 3:35 p. m. Wednesday.

Leave Wichita 4:25 p. m. Wednesday.

Leave Wellington 6:00 p. m. Wednesday.

Leave Amarillo 7:00 a. m. Thursday.

Arrive Friona 9:30 a. m. Thursday.

Notify us of your intention to make the trip with us a day or two in advance of the time of leaving, if possible, so that provision may be made for you.
